DOCKET NO. E-02217A-06-0489,
DECISION NO. 69422

NOTICE OF SALE OF
REVENUE BONDS
(2008 Series A)

TO THE HONORABLE ARIZONA CORPORATION COMMISSION:

On March 19, 2008, Salt River Project Agricultural Improvement and Power District (the "District") issued \$816,650,000 of its Salt River Project Electric System Revenue Bonds, 2008 Series A (the "2008 Series A Bonds"). Authority for \$654,710 of the 2008 Series A Bonds was derived from Decision No. 66469 of the Arizona Corporation Commission (the "Commission"), dated October 27, 2003, in Docket No. E-02217A-03-0232, authorizing the District to issue Revenue Bonds in an amount not to exceed \$580,000,000 for construction purposes, as described therein. Authority for the balance of the 2008 Series A Bonds, \$815,995,290, was derived from Decision No. 69422 of the Commission, dated April 16, 2007, in Docket No. E-02217A-06-0489, authorizing the District to issue additional Revenue Bonds in an amount not to exceed \$1,200,000,000 for construction purposes, as described therein. A summary of the Revenue Bonds issued pursuant to these two Decisions is attached hereto as Exhibit 1.

Both Decision No. 66469 and Decision No. 69422 require that the District file with the Commission certain documents and information within 60 days after issuance of any of the Revenue Bonds authorized thereby. In accordance with such orders, the District hereby submits the following documents in connection with its sale of the 2008 Series A Bonds:

1. A certified copy of the March 6, 2008, resolution of the Board of Directors of the District authorizing the sale of the 2008 Series A Bonds (Exhibit 2);

2. A certified copy of the March 6, 2008, resolution of the Council of the District ratifying and confirming the sale of the 2008 Series A Bonds (Exhibit 3);

3. An original copy of the Official Statement, dated March 6, 2008, distributed in connection with the sale of the 2008 Series A Bonds (Exhibit 4); and

4. A copy of the Report of the Independent Financial Advisor & Post Pricing Book, dated March 19, 2008, prepared by the PFM Group showing that the bonds were issued at competitive market rates (Exhibit 5).

These documents include, as requested, explanations and summaries of the transaction as well as details on the date of issuance, interest rates, maturities, amount of discount or premium, issuance expenses, and other pertinent information.

RESPECTFULLY submitted this 13th day of May 2008.

CERTIFICATE

I, TERRILL A. LONON, the duly appointed, qualified, and acting Corporate Secretary of the Salt River Project Agricultural Improvement and Power District (the District) a special district under Title 48 of the Arizona Revised Statutes, DO HEREBY CERTIFY that attached hereto is a true and correct copy of a resolution entitled: **"RESOLUTION AUTHORIZING THE ISSUANCE AND SALE OF \$816,650,000 SALT RIVER PROJECT ELECTRIC SYSTEM REVENUE BONDS, 2008 SERIES A OF THE SALT RIVER PROJECT AGRICULTURAL IMPROVEMENT AND POWER DISTRICT, AND PROVIDING FOR THE FORM, DETAILS AND TERMS THEREOF"** as adopted by a majority of the SRP Board of Directors at a meeting held on March 6, 2008, at which a quorum was present and voted, and that no change, revision, amendment, or addendum has been made subsequent thereto.

IN WITNESS WHEREOF, I have set my hand and seal of the Salt River Project Agricultural Improvement and Power District, this 13th day of May 2008.

A handwritten signature in cursive script, reading "Terrill A. Lonon", written over a horizontal line.

Terrill A. Lonon
Corporate Secretary

RESOLUTION AUTHORIZING THE ISSUANCE AND SALE OF \$816,650,000 SALT RIVER PROJECT ELECTRIC SYSTEM REVENUE BONDS, 2008 SERIES A OF THE SALT RIVER PROJECT AGRICULTURAL IMPROVEMENT AND POWER DISTRICT, AND PROVIDING FOR THE FORM, DETAILS AND TERMS THEREOF.

WHEREAS, the members of the Board of Directors of the Salt River Project Agricultural Improvement and Power District (the "Board of Directors"), by resolution entitled "Supplemental Resolution Dated September 10, 2001 Authorizing an Amended and Restated Resolution Concerning Revenue Bonds," which became effective January 11, 2003, as amended and supplemented (the "Resolution"), have created and established an issue of Salt River Project Electric System Revenue Bonds (the "Bonds"), which may be authorized from time to time pursuant to Series Resolutions; and

WHEREAS, the Arizona Corporation Commission (the "Commission") has approved by its Opinions and Orders described in **Exhibit A** hereto the issuance of \$816,650,000 2008 Series A Bonds to finance the costs of acquisition and construction of various capital improvements and additions to the District's Electric System and to pay certain costs of issuance of the 2008 Series A Bonds; and

WHEREAS, the Board of Directors has determined to use the construction authorization applicable to the Commission's Opinions and Orders described in **Exhibit A** hereto to issue its 2008 Series A Bonds and to use a portion of the proceeds of the 2008 Series A Bonds to finance said capital improvements and additions to its Electric System and to pay certain costs of issuance of the 2008 Series A Bonds; and

WHEREAS, the Board of Directors has been presented with a Purchase Contract, dated March 6, 2008 (the "Purchase Contract"), by and among the District and a group of purchasers represented by and including Bear, Stearns & Co., Inc., Morgan Stanley & Co. Incorporated, Goldman, Sachs & Co., J.P. Morgan Securities Inc. and Citi (hereinafter collectively referred to as the "Purchasers"), providing for the purchase of \$816,650,000 2008 Series A Bonds; and

WHEREAS, the Board of Directors desires to sell \$816,650,000 2008 Series A Bonds to the Purchasers pursuant to the terms and conditions of said Purchase Contract to provide moneys to carry out the aforesaid purposes of the District; and

WHEREAS, Title 48, Chapter 17, Article 7, of the Arizona Revised Statutes requires that the private sale of Bonds be subject to prior approval by a majority of the members of the Council of the District and that no Bonds be issued unless the Council, by resolution adopted by an affirmative vote of a majority of its members, ratifies and confirms the amount of the Bonds authorized to be issued by the Board of Directors (together the "Council Approval and Ratification Requirement"); and

WHEREAS, the Board of Directors desires to approve the preparation, distribution and execution of an Official Statement for the 2008 Series A Bonds; and

WHEREAS, the Board of Directors desires to authorize the proper officers of the District to take all necessary steps to complete the issuance, sale and delivery as aforesaid of the \$816,650,000 2008 Series A Bonds;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE SALT RIVER PROJECT AGRICULTURAL IMPROVEMENT AND POWER DISTRICT AS FOLLOWS:

SECTION 1. Series Resolution. This series resolution (hereinafter referred to as "Resolution Authorizing the Issuance and Sale of \$816,650,000 2008 Series A Bonds" or as "2008 Series A Resolution") is adopted in accordance with the provisions of the Resolution and pursuant to the authority contained in Title 48, Chapter 17 of the Arizona Revised Statutes, as amended.

SECTION 2. Definitions. This 2008 Series A Resolution and the Resolution are herein collectively referred to as the "Resolutions." All terms which are defined in the Resolution shall have the same meanings, respectively, in this 2008 Series A Resolution, as such terms are given in the Resolution. In this 2008 Series A Resolution:

"Code" shall mean the Internal Revenue Code of 1986, as amended, and the applicable regulations thereunder.

"DTC" shall mean The Depository Trust Company or any successor thereto.

"Information Services" shall mean Financial Information, Inc.'s Daily Called Bond Service, 30 Montgomery Street, 10th Floor, Jersey City, New Jersey 07302; Kenny Information Service's Called Bond Service, 65 Broadway, 16th Floor, New York, New York 10006; Moody's Municipal and Government, 99 Church Street, 8th Floor, New York, New York 10007, attention: Municipal News Report; and Standard & Poor's Called Bond Record, 25 Broadway, New York, New York 10004; or to such other addresses and/or such other national information services providing information or disseminating notices of redemption of obligations similar to the 2008 Series A Bonds.

"Interest Payment Date" shall mean each January 1 and July 1 of each year so long as 2008 Series A Bonds are Outstanding, commencing July 1, 2008.

"2008 Series A Bonds" shall mean the Bonds authorized by Section 3 hereof.

"Representation Letter" shall mean the DTC Blanket Letter of the Representation among the District, the Trustee and DTC, attached as **Exhibit D** hereto.

"Securities Depositories" shall mean The Depository Trust Company, 711 Stewart Avenue, Garden City, New York 11530, Fax - (516) 227-4039 or 4190; Midwest Securities Trust Company, Capital Structures-Call Notification, 440 South LaSalle Street,

Chicago, Illinois 60605, Fax - (312) 663-2343; or to such other addresses and/or such other registered securities depositories holding substantial amounts of obligations of types similar to the 2008 Series A Bonds.

"Trustee" shall mean U.S. Bank National Association, Phoenix, Arizona, appointed pursuant to Article IX of the Resolution, and its successor or successors and any other corporation which may at any time be substituted in its place pursuant to the Resolution.

SECTION 3. Principal Amount, Designation, Series and Allocations.

Pursuant to the provisions of the Resolutions, the District is hereby authorized to issue and sell Bonds in the aggregate principal amount of \$816,650,000. Such Bonds shall be designated as "Salt River Project Electric System Revenue Bonds, 2008 Series A." In order to comply with the Opinions and Orders of the Commission, the District reserves the right, and shall, if necessary to comply with such Opinions and Orders, change the allocations to such Opinions and Orders as set forth in **Exhibit A** hereto.

SECTION 4. Purpose. The purposes for which the 2008 Series A Bonds are issued are: 1) to provide moneys for the costs of acquisition and construction of various capital improvements and additions to the District's Electric System, including reimbursing the District for amounts spent relating thereto; and 2) to pay certain costs of issuance of the 2008 Series A Bonds.

SECTION 5. Dates, Maturities and Interest. (a) The 2008 Series A Bonds shall be dated, and shall bear interest from, their date of delivery.

(b) The 2008 Series A Bonds shall bear interest at the following rates per annum and shall mature on January 1 in the following years in the following principal amounts:

| Year of Maturity | Principal Amount | Interest Rate |
|---------------------|------------------|------------------|
| 2016 | \$ 15,420,000 | 5.000 % |
| 2017 | 5,255,000 | 5.000 |
| 2020 | 26,200,000 | 5.000 |
| 2021 | 28,380,000 | 5.000 |
| 2022 | 32,160,000 | 5.000 |
| 2023 | 30,745,000 | 5.000 |
| 2024 | 29,360,000 | 5.000 |
| 2025 | 32,005,000 | 5.000 |
| 2026 | 30,255,000 | 5.000 |
| 2027 | 33,615,000 | 5.000 |
| 2028 | 33,165,000 | 5.000 |
| 2033 | 145,980,000 | 5.000 |
| 2038 | 374,110,000 | 5.000 |

(c) Interest on the 2008 Series A Bonds shall be payable on July 1, 2008, and semiannually thereafter on July 1 and January 1 of each year to maturity, to the registered owner of the 2008 Series A Bonds as of the immediately preceding December 15 or June 15.

SECTION 6. Denominations, Numbers and Letters. The 2008 Series A Bonds shall be issued only as fully registered bonds without coupons, subject to the provisions regarding a book-entry only system as described in Section 7 hereof, and the 2008 Series A Bonds shall be issued in the denomination of \$5,000, or any integral multiple thereof, in all cases not exceeding the aggregate principal amount of 2008 Series A Bonds maturing on the maturity date of the bond for which the denomination is to be specified.

SECTION 7. Book Entry 2008 Series A Bonds. (a) Beneficial ownership interests in the 2008 Series A Bonds will be available in book-entry form only. Purchasers of beneficial ownership interests in the 2008 Series A Bonds will not receive certificates representing their interests in the 2008 Series A Bonds and will not be Bondholders or owners of the Bonds under the Resolution. DTC, an automated clearinghouse for securities transactions, will act as the Securities Depository for the 2008 Series A Bonds. The 2008 Series A Bonds will be issued as fully registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully registered Bond certificate will be issued for each maturity of the 2008 Series A Bonds, in the aggregate principal amount of such maturity, and will be deposited with DTC.

DTC holds securities that its participants ("Participants") deposit with DTC. Direct Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations ("Direct Participants"). Access to the DTC system is also available to others, such as securities brokers and dealers, banks, and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants").

Purchases of the 2008 Series A Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the 2008 Series A Bonds on DTC's records. The ownership interest of each actual purchaser of each 2008 Series A Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners are expected to receive written confirmation providing details of the transactions, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the 2008 Series A Bonds are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the 2008 Series A Bonds, except in the event that use of the book-entry system for the 2008 Series A Bonds is discontinued.

To facilitate subsequent transfers, all 2008 Series A Bonds deposited by Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of 2008 Series A Bonds with DTC and their registration in the name of Cede & Co. or such other nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the 2008 Series A Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such 2008 Series A Bonds are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners, will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to DTC. If less than all of the 2008 Series A Bonds are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such 2008 Series A Bonds to be redeemed.

Neither DTC nor Cede & Co. (nor such other DTC nominee) will consent or vote with respect to the 2008 Series A Bonds. Under its usual procedures, DTC mails an Omnibus Proxy to the District as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the 2008 Series A Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal and interest payments on the 2008 Series A Bonds will be made to Cede & Co. or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the District or the Trustee, on each payment date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Trustee or the District, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest to DTC is the responsibility of the District or the Trustee, disbursement of such payments to Direct Participants shall be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners shall be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as securities depository with respect to the 2008 Series A Bonds at any time by giving reasonable notice to the District. Under such circumstances, in the event that a successor securities depository is not obtained, the 2008 Series A Bond certificates are required to be printed and delivered. The District

may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, the 2008 Series A Bond certificates will be printed and delivered.

Beneficial Owners will not be recognized by the Trustee as registered owners for purposes of this 2008 Series A Resolution, and Beneficial Owners will be permitted to exercise the rights of registered owners only indirectly through DTC and the Direct and Indirect Participants.

(b) In the event definitive 2008 Series A Bonds are issued, the provision of the Resolution, including but not limited to Sections 304 and 305 of the Resolution, shall apply to, among other things, the transfer and exchange of such definitive 2008 Series A Bonds and the method of payment of principal of and interest on such definitive 2008 Series A Bonds. Whenever DTC requests the District and the Trustee to do so, the Trustee and the District will cooperate with DTC in taking appropriate action after reasonable notice (i) to make available one or more separate definitive 2008 Series A Bonds evidencing the Bonds to any DTC participant having 2008 Series A Bonds credited to its DTC account or (ii) to arrange for another securities depository to maintain custody of definitive 2008 Series A Bonds.

(c) Notwithstanding any other provision of the Resolution to the contrary, so long as any 2008 Series A Bond is registered in the name of Cede & Co., as nominee of DTC, all payments with respect to the principal of and interest on such 2008 Series A Bond and all notices with respect to such 2008 Series A Bond shall be made and given to Cede & Co., as nominee of DTC, as provided in the Representation Letter. All of the provisions of the Representation Letter shall be deemed to be a part of this 2008 Series A Resolution as fully and to the same extent as if incorporated verbatim herein, with such changes, amendments, modifications, insertions, omissions or additions, as may be approved by the President, or the Vice President, or the General Manager, or the Associate General Manager, Commercial & Customer Services and Chief Financial Executive, or the Corporate Treasurer or any Assistant Treasurer of the District. Execution by said President, or Vice President, or General Manager, or Associate General Manager, Commercial & Customer Services and Chief Financial Executive, or Corporate Treasurer or any Assistant Treasurer of the Representation Letter shall be deemed to be conclusive evidence of approval of any such changes, amendments, modifications, insertions, omissions or additions.

(d) In connection with any notice or other communication to be provided to Bondholders pursuant to the Resolutions by the District or the Trustee with respect to any consent or other action to be taken by Bondholders, the District or the Trustee, as the case may be, shall, to the extent possible, establish a record date for such consent or other action and give DTC notice of such record date not less than 15 calendar days in advance of such record date.

SECTION 8. Paying Agent. Subject to the provisions of Section 7 hereof, the principal of the 2008 Series A Bonds shall be payable at the designated corporate trust

office of the Trustee under the Resolutions (or at the principal office of any successor Trustee appointed pursuant to the Resolutions) or at any other place which may be provided for such payment by the appointment of any other Paying Agent or Paying Agents as authorized by the Resolutions. The Trustee is hereby appointed the Paying Agent for the 2008 Series A Bonds. The interest on the 2008 Series A Bonds will be payable by check mailed by the Trustee on each Interest Payment Date.

SECTION 9. Redemption Terms and Prices. (a) Mandatory Redemption - 2008 Series A Bonds. The 2008 Series A Bonds maturing on January 1, 2033 shall be subject to redemption prior to maturity, upon random selection within a maturity by the Trustee, by operation of the Debt Service Fund to satisfy the Sinking Fund Installments set forth in Section 10 hereof, on and after January 1, 2029, at 100% of the principal amount of the 2008 Series A Bonds to be redeemed, together with accrued interest up to but not including the redemption date. The 2008 Series A Bonds maturing on January 1, 2038 shall be subject to redemption prior to maturity, upon random selection within a maturity by the Trustee, by operation of the Debt Service Fund to satisfy the Sinking Fund Installments set forth in Section 10 hereof, on and after January 1, 2034, at 100% of the principal amount of the 2008 Series A Bonds to be redeemed, together with accrued interest up to but not including the redemption date.

(b) Optional Redemption - 2008 Series A Bonds. The 2008 Series A Bonds maturing on and after January 1, 2020 are subject to redemption at the option of the District prior to maturity, at any time on or after January 1, 2018, as a whole or in part by random selection by the Trustee within a maturity with the same coupon from maturities selected by the District, at the Redemption Price of 100% of the principal amount of the 2008 Series A Bonds or portions thereof to be redeemed, together with accrued interest up to but not including the redemption date.

For so long as book entry only system of registration is in effect with respect to the 2008 Series A Bonds if less than all of the 2008 Series A Bonds of a particular maturity (and, if applicable, interest rate within a maturity) is to be redeemed, the particular Beneficial Owner(s) to receive payment of the redemption price with respect to beneficial ownership interests in such 2008 Series A Bonds shall be selected by DTC and the Direct Participants and/or the Indirect Participants.

(c) Notice of Redemption. Notice to Bondholders of such redemption shall be given by mail to the registered owners of the 2008 Series A Bonds to be redeemed, postage prepaid, not less than 25 days nor more than 50 days prior to the redemption date. Failure to give notice of redemption by mail, or any defect in such notice, will not affect the validity of the proceedings for the redemption of any other Electric System Revenue Bonds.

(d) Further Notice. In addition to the foregoing notice, further notice shall be given by the Trustee as set forth in this subsection (d), but no defect in said further notice nor any failure to give all or any portion of such further notice shall in any manner defeat the effectiveness of a call for redemption if notice thereof is given as prescribed in

subsection (c) above. Each further notice of redemption given hereunder shall be dated and shall state: (i) the redemption date, (ii) the Redemption Price, (iii) if fewer than all Outstanding 2008 Series A Bonds are to be redeemed, the Bond numbers (and, in the case of partial redemption, the respective principal amounts) of the 2008 Series A Bonds to be redeemed, (iv) that on the redemption date the Redemption Price will become due and payable upon each such 2008 Series A Bond or portion thereof called for redemption, and that interest with respect thereto shall cease to accrue from and after said date, (v) the CUSIP numbers of the 2008 Series A Bonds to be redeemed, (vi) the place where such 2008 Series A Bonds are to be surrendered for payment of the Redemption Price, (vii) the original date of execution and delivery of the 2008 Series A Bonds; (viii) the rate of interest payable with respect to each 2008 Series A Bond being redeemed; (ix) the maturity date of each 2008 Series A Bond being redeemed; and (x) any other descriptive information needed to identify accurately the 2008 Series A Bonds being redeemed. Each further notice of redemption shall be sent, not less than 25 days nor more than 50 days prior to the redemption date, by electronic, telecopy, registered, certified or overnight mail to all Securities Depositories and to the Information Services. Upon the payment of the Redemption Price of 2008 Series A Bonds being redeemed, each check or other transfer of funds, issued for such purpose shall, to the extent practicable, bear or indicate the CUSIP number identifying, by issue and maturity, the 2008 Series A Bonds being redeemed with the proceeds of such check or other transfer.

(e) Except with respect to the unredeemed portion of any 2008 Series A Bond being redeemed in part, neither the Trustee nor any agent of the Trustee shall be obligated to register the transfer or exchange of any 2008 Series A Bond during the 15 days preceding the date on which notice of redemption of a 2008 Series A Bond is to be given on any Bond that has been called for redemption except the unredeemed portion of any 2008 Series A Bond being redeemed in part.

SECTION 10. Sinking Fund Installments. (a) Sinking Fund Installments are hereby established for the 2008 Series A Bonds maturing on January 1, 2033 and bearing interest at the rate of 5.000%. Such Sinking Fund Installments shall become due on each of the dates set forth in the following table in the respective amounts set forth opposite such dates in said table:

| Sinking Fund Payment Date (January 1) | Principal Amount |
|--|---------------------|
| 2029 | \$ 35,420,000 |
| 2030 | 28,415,000 |
| 2031 | 42,915,000 |
| 2032 | 14,340,000 |
| 2033 (final maturity) | 24,890,000 |

(b) Sinking Fund Installments are hereby established for the 2008 Series A Bonds maturing on January 1, 2038 and bearing interest at the rate of 5.000%. Such Installments shall become due on each of the dates set forth in the following table in the

respective amounts set forth opposite such dates in said table:

(c)

| Sinking Fund Payment Date (January 1) | Principal Amount |
|--|---------------------|
| 2034 | \$ 55,020,000 |
| 2036 | 59,250,000 |
| 2038 (final maturity) | 259,840,000 |

(c) The Sinking Fund Installments may be satisfied by the District delivering to the Trustee, no later than 45 days in advance of the date of such Sinking Fund Installment, 2008 Series A Bonds of such maturities theretofore purchased or redeemed by the District otherwise than by operation of the sinking fund redemption provided for in this Section 10.

SECTION 11. Application of the Proceeds of 2008 Series A Bonds. In accordance with the Resolution, the proceeds of the 2008 Series A Bonds shall be applied simultaneously with the delivery of the 2008 Series A Bonds, as follows:

(a) From the proceeds of the 2008 Series A Bonds, (i) \$454,759,298.51 shall be deposited in the Construction Fund and (A) \$450,004,298.51 thereof shall be used to pay Costs of Construction and (B) \$475,000.00 thereof shall be used to pay costs of issuance of the 2008 Series A Bonds; and (ii) \$350,000,000.00 shall be deposited in the General Fund to reimburse the District for previously incurred Costs of Construction.

(b) From the proceeds of the 2008 Series A Bonds, \$15,659,776.86 shall be deposited in the Debt Reserve Account of the Debt Service Fund.

(c) The balance of the proceeds of the 2008 Series A Bonds in the amount of \$3,897,211.78 shall be used for the payment of the Underwriter's discount.

The President, or the Vice President, or the Associate General Manager, Commercial & Customer Services and Chief Financial Executive or the Corporate Treasurer of the District be and are hereby each authorized and directed to increase or decrease the above deposits.

SECTION 12. Reserved.

SECTION 13. Form of 2008 Series A Bonds. Subject to the provisions of the Resolutions, the 2008 Series A Bonds and the Certificate of Authentication shall be in substantially the form of **Exhibit E** hereto.

SECTION 14. Reserved.

SECTION 15. Reserved.

SECTION 16. Execution, Delivery and Authentication. The 2008 Series A Bonds shall be executed by imprinting thereon the manual or facsimile signature of the President or Vice President of the District and by affixing thereto the corporate seal of the District or facsimile thereof and said signature and seal shall be attested by the manual or facsimile signature of the Secretary or an Assistant Secretary of the District. The President or the Corporate Treasurer of the District or their designees are hereby authorized and directed to deliver the 2008 Series A Bonds executed in the foregoing manner to the Purchasers upon payment of the purchase price specified in Section 17 hereof pursuant to the terms and conditions of the Purchase Contract. There is hereby authorized to be printed or otherwise reproduced on the back of, or attached to, each of the 2008 Series A Bonds, the approving opinion of Drinker Biddle & Reath LLP, Bond Counsel, the tax opinion of Nixon Peabody LLP, Special Tax Counsel, and a certification executed by the manual or facsimile signature of the Secretary or an Assistant Secretary of the District with respect to the form and delivery of said opinion. All Officers of the District and employees designated by Officers are authorized to sign and execute all certificates and documents required for the sale and delivery of the 2008 Series A Bonds.

The Trustee (or its duly designated agent) as Authenticating Agent is hereby authorized and directed to manually execute the Certificate of Authentication appearing on the 2008 Series A Bonds. No 2008 Series A Bond shall be issued and delivered hereunder without the manual signature of an authorized representative of the Trustee or its Authenticating Agent appearing on such Certificate of Authentication.

SECTION 17. Purchase Contract. The Purchase Contract, which is attached hereto as **Exhibit F**, is hereby approved. The 2008 Series A Bonds are hereby sold to the Purchasers, pursuant to the terms and conditions of the Purchase Contract, at an aggregate purchase price of \$816,139,075.37 calculated as follows: \$816,650,000.00 aggregate principal amount of 2008 Series A Bonds, plus net Original Issue Premium of \$3,386,287.15, and less Underwriters' Discount in the amount of \$3,897,211.78; and the President, or the Vice President, or the General Manager, or the Associate General Manager, Commercial & Customer Services and Chief Financial Executive or the Corporate Treasurer or any Assistant Treasurer of the District are each hereby authorized and directed to execute the Purchase Contract and to deliver the same for and on behalf of the District to the Purchasers.

SECTION 18. Amortization of Financing Costs. In order to provide accurate accounting records and reports, (i) the issuance costs of approximately \$475,000.00 resulting from the issuance of the 2008 Series A Bonds shall be amortized monthly over the life of the 2008 Series A Bonds.

SECTION 19. Good Faith Deposit. The good faith deposit in the amount of \$8,200,000.00 received by the District from the Purchasers shall be held by the District in accordance with the terms of the Purchase Contract.

SECTION 20. Approval of Final Official Statement and Continuing Disclosure Agreement. The preparation and distribution of the Preliminary Official

Statement dated February 25, 2008, attached hereto as **Exhibit G**, is hereby ratified and confirmed and the Preliminary Official Statement is hereby deemed "final" as of its date for purposes of Securities and Exchange Commission Rule 15c2-12(b)(1), except for certain omissions permitted thereunder and except for changes permitted by other applicable law. Authorized Officers and staff of the District are authorized to prepare and deliver to the Purchasers an Official Statement, dated the date hereof, relating to the 2008 Series A Bonds substantially in the form attached hereto as **Exhibit H**. The form of the Continuing Disclosure Agreement attached hereto as **Exhibit I** is hereby approved. The President, or the Vice President, or the General Manager, or the Associate General Manager, Commercial & Customer Services and Chief Financial Executive or the Corporate Treasurer or any Assistant Treasurer of the District are hereby each authorized and directed to execute and deliver the Official Statement, for and on behalf of the District, to the Purchasers, and the Continuing Disclosure Agreement to the Trustee. The Secretary or an Assistant Secretary of the District are each hereby authorized to attest signatures, if required.

SECTION 21. Arbitrage Covenant. The District covenants and agrees that it shall not direct or permit any action which would cause any 2008 Series A Bond to be an "arbitrage bond" within the meaning of Section 148 of the Code or direct or permit any action inconsistent with the applicable regulations thereunder as amended from time to time and as applicable to the 2008 Series A Bonds. The provisions of this Section 21 shall survive any defeasance of the 2008 Series A Bonds pursuant to the Resolution.

SECTION 22. Tax Exemption. In order to maintain the exclusion from Federal gross income of interest on the 2008 Series A Bonds, the District shall comply with the provisions of the Code applicable to the 2008 Series A Bonds, including without limitation the provisions of the Code relating to the computation of the yield on investments of the gross proceeds of the 2008 Series A Bonds, reporting of earnings on the gross proceeds of the 2008 Series A Bonds, and rebate of excess earnings to the Department of the Treasury of the United States of America and shall not take any action or permit any action that would cause the interest on the 2008 Series A Bonds to be included in gross income under Section 103 of the Code or cause interest on the 2008 Series A Bonds to be an item of tax preference under Section 57 of the Code. In furtherance of the foregoing, the District shall comply with the Tax Certificate as to Arbitrage and the Provisions of Sections 141-150 of the Internal Revenue Code of 1986, to be executed by the President, or the Vice President, or the General Manager, or the Associate General Manager, Commercial & Customer Services and Chief Financial Executive, or the Corporate Treasurer or any Assistant Treasurer of the District at the time the 2008 Series A Bonds are issued, as such Tax Certificate may be amended from time to time, as a source of guidance for achieving compliance with the Code, and such officers are hereby authorized and directed to execute and deliver such Tax Certificate for and on behalf of the District. The provisions of this Section 22 shall survive any defeasance of the 2008 Series A Bonds pursuant to the Resolution.

SECTION 23. Severability. If any one or more of the covenants or agreements provided in this 2008 Series A Resolution on the part of the District or any Fiduciary to

be performed should be contrary to law, then such covenant or covenants or agreement or agreements shall be deemed severable from the remaining covenants and agreements, and shall in no way affect the validity of the other provisions of this 2008 Series A Resolution, so long as this 2008 Series A Resolution as so modified continues to express, without material change, the original intentions of the District or any Fiduciary as to the subject matter of this 2008 Series A Resolution and the deletion of such portion of this 2008 Series A Resolution will not substantially impair the respective benefits or expectations of the District or any Fiduciary.

SECTION 24. Effective Date. This 2008 Series A Resolution shall take effect immediately upon adoption.

CERTIFICATE

I, TERRILL A. LONON, the duly appointed, qualified, and acting Corporate Secretary of the Salt River Project Agricultural Improvement and Power District (the District) a special district under Title 48 of the Arizona Revised Statutes, DO HEREBY CERTIFY that attached hereto is a true and correct copy of a resolution entitled: **"RESOLUTION OF THE COUNCIL APPROVING THE PRIVATE SALE BY THE SALT RIVER PROJECT AGRICULTURAL IMPROVEMENT AND POWER DISTRICT AND RATIFYING AND CONFIRMING TERMS AND CONDITIONS OF \$816,650,000 SALT RIVER PROJECT ELECTRIC SYSTEM REVENUE BONDS, 2008 SERIES A"** as adopted by a majority of the SRP Council Members at a meeting held on March 6, 2008, at which a quorum was present and voted, and that no change, revision, amendment, or addendum has been made subsequent thereto.

IN WITNESS WHEREOF, I have set my hand and seal of the Salt River Project Agricultural Improvement and Power District, this 13th day of May 2008.

A handwritten signature in cursive script, reading "Terrill A. Lonon", written over a horizontal line.

Terrill A. Lonon
Corporate Secretary

RESOLUTION OF THE COUNCIL APPROVING THE PRIVATE SALE BY THE SALT RIVER PROJECT AGRICULTURAL IMPROVEMENT AND POWER DISTRICT AND RATIFYING AND CONFIRMING TERMS AND CONDITIONS OF \$816,650,000 SALT RIVER PROJECT ELECTRIC SYSTEM REVENUE BONDS, 2008 SERIES A

WHEREAS, The Board of Directors (the "Board") of the Salt River Project Agricultural Improvement and Power District (the "District"), by resolution entitled "Supplemental Resolution Dated September 10, 2001 Authorizing an Amended and Restated Resolution Concerning Revenue Bonds," which became effective January 11, 2003, as amended and supplemented, has created and established an issue of Salt River Project Electric System Revenue Bonds (the "Bonds"), which Bonds may be authorized from time to time pursuant to Series Resolutions; and

WHEREAS, the Board adopted on this date its RESOLUTION AUTHORIZING THE ISSUANCE AND SALE OF \$816,650,000 SALT RIVER PROJECT ELECTRIC SYSTEM REVENUE BONDS, 2008 SERIES A OF THE SALT RIVER PROJECT AGRICULTURAL IMPROVEMENT AND POWER DISTRICT, AND PROVIDING FOR THE FORM, DETAILS AND TERMS THEREOF (the "2008 Series A Resolution") (the form of which is attached hereto as **Exhibit A**), that, among other things, fixes the form, terms and conditions of the 2008 Series A Bonds, authorizes the issuance of the 2008 Series A Bonds and the private sale of the 2008 Series A Bonds to purchasers represented by and including Bear, Stearns & Co. Inc., Morgan Stanley & Co. Incorporated, Goldman, Sachs & Co., J.P. Morgan Securities Inc. and Citi (hereinafter collectively referred to as the "2008 Series A Purchasers") pursuant to the terms and conditions of a Purchase Contract, dated March 6, 2008, by and among the District and the 2008 Series A Purchasers (the "2008 Series A Purchase Contract") (the form of which is attached hereto as **Exhibit B**); and

WHEREAS, pursuant to the requirements of Title 48, Chapter 17, Article 7, of the Arizona Revised Statutes, no bonds may be issued by the District unless the Council, by resolution adopted by an affirmative vote of a majority of its members, ratifies and confirms the amount of the bonds authorized to be issued by the Board and, if the Board determines to sell bonds at private sale, such sale shall be subject to prior approval by a majority of the members of the Council;

NOW, THEREFORE, BE IT RESOLVED, by the members of the Council of the Salt River Project Agricultural Improvement and Power District as follows:

- (i) The maturities, redemption provisions and other terms and conditions of the 2008 Series A. Bonds, as contained in the 2008 Series A Resolution, are hereby ratified, confirmed and approved.

- (ii) The private sale of \$816,650,000 2008 Series A Bonds to the 2008 Series A Purchasers, pursuant to the 2008 Series A Resolution and the 2008 Series A Purchase Contract at an aggregate price of \$816,139,075.37, calculated as follows: \$816,650,000.00 aggregate principal amount of 2008 Series A Bonds, plus \$3,386,287.15 net Original Issue Premium, less Underwriters' Discount in the amount of \$3,897,211.78 is hereby ratified, confirmed and approved.
- (iii) This resolution shall take effect immediately.

In the opinion of Special Tax Counsel, under existing law and assuming compliance with the tax covenants described herein, and the accuracy of certain representations and certifications made by the District, interest on the 2008 Series A Bonds is excluded from gross income for Federal income tax purposes under Section 103 of the Internal Revenue Code of 1986, as amended (the "Code"). Special Tax Counsel is also of the opinion that such interest is not treated as a preference item in calculating the alternative minimum tax imposed under the Code with respect to individuals and corporations. Interest on the 2008 Series A Bonds is, however, included in the adjusted current earnings of certain corporations for purposes of computing the alternative minimum tax imposed on such corporations. Special Tax Counsel is further of the opinion that, under existing law, interest on the 2008 Series A Bonds is exempt from income taxes imposed by the State of Arizona. See "TAX MATTERS" herein regarding certain other tax considerations.

\$816,650,000

**Salt River Project Agricultural
Improvement and Power District, Arizona
Salt River Project Electric System Revenue Bonds, 2008 Series A**

Dated: Date of Delivery

Due: January 1, as shown on inside cover

The 2008 Series A Bonds are being issued pursuant to the Supplemental Resolution Dated September 10, 2001, which became effective January 11, 2003, Authorizing an Amended and Restated Resolution Concerning Revenue Bonds (the "Resolution"). The 2008 Series A Bonds, together with heretofore and hereafter issued Revenue Bonds, are payable from and secured by a pledge of and lien on all Revenues of the District from the ownership and operation of the Electric System after the payment of Operating Expenses.

The 2008 Series A Bonds will be issued in fully registered form and, when issued, will be registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York ("DTC"). DTC will act as securities depository for the 2008 Series A Bonds. Individual purchases of interests in the 2008 Series A Bonds may be made in book-entry form only, in the principal amount of \$5,000 or any integral multiple thereof. Purchasers of such interests will not receive certificates representing their interests in the 2008 Series A Bonds. Interest with respect to the 2008 Series A Bonds is payable January 1 and July 1 of each year, commencing July 1, 2008.

The principal of, redemption price, if any, and interest on the 2008 Series A Bonds are payable by U.S. Bank National Association, as Trustee, and interest will be payable by check mailed by the Trustee to the registered owner of each 2008 Series A Bond as of the immediately preceding December 15 or June 15. So long as Cede & Co. is the registered owner, the Trustee will pay such principal and redemption price, if any, of and interest on the 2008 Series A Bonds to DTC, which will remit such principal, redemption price, if any, and interest to its Direct Participants for subsequent disbursement to the Beneficial Owners of the 2008 Series A Bonds. The 2008 Series A Bonds are subject to optional and mandatory redemption as described herein. See "THE 2008 SERIES A BONDS — Redemption" herein.

The 2008 Series A Bonds do not constitute general obligations of the District or obligations of the State of Arizona, and no holder of any of the 2008 Series A Bonds has the right to compel the exercise of the taxing powers of the District to pay the 2008 Series A Bonds or the interest thereon.

This cover page contains certain information for quick reference only. It is not intended to be a summary of all factors relating to an investment in the 2008 Series A Bonds. Investors should read this Official Statement in its entirety before making an investment decision.

The 2008 Series A Bonds are offered when, as and if issued, and subject to the approval of legality by Drinker Biddle & Reath LLP, Bond Counsel. Certain legal matters will be passed upon for the District by Nixon Peabody LLP, Special Tax Counsel, and for the Underwriters by Winston & Strawn LLP. It is expected that the 2008 Series A Bonds will be available for delivery to DTC in New York, New York, on or about March 19, 2008.

This Official Statement does not constitute an offer to sell or the solicitation of an offer to buy the 2008 Series A Bonds described herein in any jurisdiction to any person to whom it is unlawful to make such an offer. No dealer, broker, salesman or other person has been authorized by the Salt River Project Agricultural Improvement and Power District (the "District") or the Underwriters to give any information or to make any representations with respect to the 2008 Series A Bonds other than those contained in this Official Statement and, if given or made, such other information or representations must not be relied upon as having been authorized by the District or the Underwriters.

The information set forth herein has been furnished by the District and other sources which are believed to be reliable. The information and expressions of opinion contained herein are subject to change without notice and neither the delivery of this Official Statement nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in the affairs of the District or the Electric System since the date hereof.

THESE SECURITIES HAVE NOT BEEN RECOMMENDED BY ANY FEDERAL OR STATE SECURITIES COMMISSION OR REGULATORY AUTHORITY. FURTHERMORE, THE FOREGOING AUTHORITIES HAVE NOT CONFIRMED THE ACCURACY OR DETERMINED THE ADEQUACY OF THIS OFFICIAL STATEMENT. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

IN CONNECTION WITH THE OFFERING OF THE 2008 SERIES A BONDS, THE UNDERWRITERS MAY OVERALLOT OR EFFECT TRANSACTIONS THAT STABILIZE OR MAINTAIN THE MARKET PRICE OF THE 2008 SERIES A BONDS AT A LEVEL ABOVE THAT WHICH MIGHT OTHERWISE PREVAIL IN THE OPEN MARKET. SUCH STABILIZING, IF COMMENCED, MAY BE DISCONTINUED AT ANY TIME WITHOUT PRIOR NOTICE. THE UNDERWRITERS MAY OFFER AND SELL THE 2008 SERIES A BONDS TO CERTAIN DEALERS AT PRICES LOWER THAN THE PUBLIC OFFERING PRICES STATED ON THE COVER PAGE HEREOF AND SAID PUBLIC OFFERING PRICES MAY BE CHANGED FROM TIME TO TIME BY THE UNDERWRITERS.

This Official Statement contains forward-looking statements within the meaning of the federal securities laws. Such statements are based on currently available information, expectations, estimates, assumptions and projections, and management's judgment about the power utility industry and general economic conditions. Such words as expects, intends, plans, believes, estimates, anticipates or variations of such words or similar expressions are intended to identify forward-looking statements. The forward-looking statements are not guarantees of future performance. Actual results may vary materially from what is contained in a forward-looking statement. Factors which may cause a result different from those expected or anticipated include, among other things, new legislation, increases in suppliers' prices, particularly prices for fuel in connection with the operation of the Electric System, changes in environmental compliance requirements, acquisitions, changes in customer power use patterns, natural disasters and the impact of weather on operating results. The District assumes no obligation to provide public updates of forward-looking statements.

The Underwriters have provided the following sentence for inclusion in this Official Statement. The Underwriters have reviewed the information in this Official Statement in accordance with, and as part of, their responsibilities to investors under the federal securities laws as they apply to the facts and circumstances of this transaction, but the Underwriters do not guarantee the accuracy or completeness of such information.

SUMMARY STATEMENT

THIS SUMMARY STATEMENT IS SUBJECT IN ALL RESPECTS TO THE MORE COMPLETE INFORMATION CONTAINED IN THIS OFFICIAL STATEMENT AND SHOULD NOT BE CONSIDERED A COMPLETE STATEMENT OF THE FACTS MATERIAL TO MAKING AN INVESTMENT DECISION. THE OFFERING OF THE 2008 SERIES A BONDS TO POTENTIAL INVESTORS IS MADE ONLY BY MEANS OF THE ENTIRE OFFICIAL STATEMENT. CERTAIN TERMS USED HEREIN ARE DEFINED IN THIS OFFICIAL STATEMENT.

District:

The Salt River Project Agricultural Improvement and Power District (the "District") is an agricultural improvement district, organized under the laws of the State of Arizona, which provides electric service in a 2,900 square mile service territory in parts of Maricopa, Gila and Pinal Counties in Arizona, plus mine loads in an adjacent 2,400 square mile area in Gila and Pinal Counties.

The 2008 Series A Bonds:

The 2008 Series A Bonds are being offered in the principal amount per maturity and bearing interest at the rates set forth on the inside cover page of this Official Statement. The 2008 Series A Bonds are authorized pursuant to the Constitution and laws of the State of Arizona and in particular Title 48, Chapter 17, Article 7, Arizona Revised Statutes (the "Act") and the Amended and Restated Resolution Concerning Revenue Bonds, dated as of September 10, 2001, which became effective January 11, 2003 (the "Resolution").

Purpose of the 2008 Series A Bonds:

The 2008 Series A Bonds are being issued to finance capital improvements to the Electric System pursuant to the District's Capital Improvement Program (as hereinafter defined). The proceeds of the 2008 Series A Bonds also will be used to pay costs of issuing the 2008 Series A Bonds. See "PLAN OF FINANCE" and "SOURCES AND USES OF PROCEEDS" herein.

Security for the 2008 Series A Bonds:

The 2008 Series A Bonds and all Revenue Bonds heretofore and hereafter issued will be payable from and secured by a pledge of lien on all Revenues derived by the District from the ownership and operation of the Electric System after the payment of Operating Expenses and payments required to be made under United States Government Loans heretofore and hereafter incurred by the District. Such pledge created by the Resolution is subject only to the provisions of the Resolution permitting the application of Revenues for the purposes and upon the terms and conditions set forth in the Resolution.

The District has covenanted in the Resolution not to issue any bonds or other obligations or create any additional indebtedness, which will have priority over the charge and lien on the Revenues pledged to the Revenue Bonds, except for United States Government Loans heretofore and hereafter incurred. The District currently has no United States Government Loans outstanding.

The District has covenanted in the Resolution to maintain the Debt Reserve Account at the Debt Reserve Requirement. At December 31, 2007 the balance in the Debt Reserve Account was \$67,706,036, which exceeded the Debt Reserve Requirement. Upon the issuance of the 2008 Series A Bonds, the Debt Reserve Account will continue to exceed the Debt Reserve Requirement.

The District has covenanted in the Resolution that, among other

things, it will at all times maintain rates, fees or charges sufficient for the payment of Operating Expenses of the District and to pay the Debt Service on all Revenue Bonds.

The financial statements of the District and the Association (together "SRP") are presented on a combined basis due to the relationship between the two. The District's revenues support the operations of the water and irrigation system as needed. See "THE DISTRICT — General" and "— History" and "INDEPENDENT ACCOUNTANTS" for a further discussion of the relationship between the District and the Association.

The 2008 Series A Bonds do not constitute general obligations of the District or obligations of the State of Arizona, and no holder of any of the 2008 Series A Bonds has the right to compel the exercise of the taxing powers of the District to pay the 2008 Series A Bonds or the interest thereon. See "SECURITY FOR 2008 SERIES A BONDS" herein.

Outstanding Indebtedness:

As of February 2, 2008, the District had a total of \$2,983,643,000 in outstanding long-term debt, computed without deducting the unamortized bond discount/premium, consisting of \$2,258,278,000 in Revenue Bonds and general fund debt of \$725,365,000 consisting of \$475,000,000 in promissory notes sold in the tax-exempt commercial paper market and rental payments totaling \$250,365,000, plus interest, to be made by the District pursuant to a Lease Purchase Agreement with Desert Basin Independent Trust. The promissory notes and the rental payments are payable from the District's general funds and do not have a lien on Revenues of the Electric System. See "SELECTED OPERATIONAL AND FINANCIAL DATA — Additional Financial Matters" herein.

The District has entered into certain long-term power purchase contracts that secure the Debt Service payments on certain bonds issued by another Arizona political subdivision. The amount thus secured December 31, 2007 was \$41.2 million.

Limitation on Additional Indebtedness:

The District is authorized to issue parity Revenue Bonds upon compliance with the provisions of the Resolution. See "Appendix B — Summary of the Resolution" attached hereto. The District may also issue at any time, or from time to time, evidences of indebtedness, which are payable out of Revenues and which may be secured by a pledge of Revenues, provided, however, that such pledge shall be, and shall be expressed to be, subordinate in all respects to the pledge of the Revenues created by the Resolution.

Authority to Set Electric Prices:

Under Arizona law, the District is authorized to set electric rates ("prices"). Although the Articles of Incorporation of the Association provide that the Secretary of the Interior may revise such prices, the Secretary of the Interior has never requested any such revision. See "ELECTRIC PRICES" herein.

Service Area:

The District's service area includes the major populated sections of Maricopa County, as well as portions of Pinal and Gila Counties. The District serves approximately 55% of the population living in the Phoenix-Mesa Metropolitan Statistical Area (the "Phoenix-Mesa MSA") and had an historic peak retail load of approximately 7,649 MW in July 2006. Approximately 55.3% of fiscal year 2007 retail electric revenues was received from residential customers.

Transmission and Distribution Facilities:

The District owns transmission and distribution systems in order to deliver electricity. These systems include both overhead and underground lines with voltage levels ranging from 12kV to 500kV. In addition, the District also has acquired rights on transmission systems owned by others. See "THE ELECTRIC SYSTEM — Existing and Future Resources" herein.

Power Supply Resources:

The District's power supply resources are diversified and include generating facilities owned solely by the District, generating facilities in which the District has an ownership interest, and various power purchase contracts. See "THE ELECTRIC SYSTEM — Existing and Future Resources" herein.

Retail Competition:

In 2000, the District opened its entire service area to competition in the areas of generation, billing, metering and meter reading by electricity suppliers who had been approved by the Arizona Corporation Commission ("ACC"). There has been no material adverse effect on the District as a result of such actions and there is no active retail competition within the District's service territory at this time. See "CERTAIN FACTORS AFFECTING THE ELECTRIC UTILITY INDUSTRY — Competition in Arizona — *The Arizona Corporation Commission*" herein.

Continuing Disclosure:

The District has covenanted in the Resolution to provide certain financial information and operating data relating to the Electric System and to provide notices of certain occurrences of certain enumerated events, if material, pursuant to the Continuing Disclosure Agreement. See "CONTINUING DISCLOSURE" herein and "Appendix D — Form of Continuing Disclosure Agreement" attached hereto.

**SALT RIVER PROJECT AGRICULTURAL
IMPROVEMENT AND POWER DISTRICT, ARIZONA**

OFFICIAL STATEMENT

RELATING TO

\$816,650,000

**SALT RIVER PROJECT ELECTRIC SYSTEM REVENUE BONDS,
2008 Series A**

INTRODUCTION

General

The purpose of this Official Statement, which includes the cover page and the Appendices hereto, is to furnish certain information with respect to the Salt River Project Agricultural Improvement and Power District (the "District") and its Salt River Project Electric System Revenue Bonds, 2008 Series A (the "2008 Series A Bonds") to be issued by the District. The mailing address of the District's administrative offices is The Office of the Secretary, PAB215, Post Office Box 52025, Phoenix, Arizona 85072-2025 (telephone number 602-236-5900).

The following material is qualified in its entirety by the detailed information and financial statements appearing elsewhere in this Official Statement and the Appendices hereto. Capitalized terms not defined in this introduction have the meaning ascribed thereto herein.

Authorization

Revenue Bonds, which include the 2008 Series A Bonds, are authorized pursuant to the Constitution and laws of the State of Arizona and, in particular, Title 48, Chapter 17, Article 7, Arizona Revised Statutes (the "Act") and the Amended and Restated Resolution Concerning Revenue Bonds, dated as of September 10, 2001, which became effective January 11, 2003 (the "Resolution"). Prior to the delivery of the 2008 Series A Bonds, the District's Board will have authorized the issuance of the 2008 Series A Bonds and the District's Council will have ratified and confirmed the District Board's action. See "THE 2008 SERIES A BONDS" herein and "Appendix B — Summary of the Resolution" attached hereto.

PLAN OF FINANCE

The District will issue the 2008 Series A Bonds to finance capital improvements to the Electric System pursuant to the District's Capital Improvement Program. The 2008 Series A Bonds will be issued under the Resolution. See "Appendix B — Summary of the Resolution" attached hereto. A portion of the proceeds of the 2008 Series A Bonds also will be used to pay the cost of issuance. See "SOURCES AND USES OF PROCEEDS" herein.

THE 2008 SERIES A BONDS

General

The 2008 Series A Bonds will be issued in the principal amount of \$816,650,000 and will be dated and bear interest from the date of delivery. The 2008 Series A Bonds will mature on the dates and in the principal amounts, and bear interest, payable on January 1 and July 1 of each year, commencing July 1, 2008, at the respective rates shown on the inside cover page of this Official Statement. The principal of, redemption price, if any, and interest on the 2008 Series A Bonds are payable by U.S. Bank National Association (the "Trustee"), and interest thereon will be payable by check mailed by the Trustee to the registered owner of each 2008 Series A Bond as of the immediately preceding December 15 or June 15.

Book-Entry Only System

The 2008 Series A Bonds will be issued in fully registered form and, when issued, will be registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York ("DTC"). DTC will act as securities depository for the 2008 Series A Bonds. Individual purchases of interests in the 2008 Series A Bonds will be made in book-entry form only, in the principal amount of \$5,000 or any integral multiple thereof. Purchasers of such interests will not receive certificates representing their interests in the 2008 Series A Bonds. So long as Cede & Co. is the registered owner of the 2008 Series A Bonds, the Trustee will make payments of principal and redemption price, if any, of and interest on the 2008 Series A Bonds directly to DTC, which will remit such principal, redemption price, if any, of and interest to the Beneficial Owners (as hereinafter defined in "Appendix D — Form of Continuing Disclosure Agreement") of the 2008 Series A Bonds, as described herein. See "Appendix E — Book-Entry Only System" attached hereto.

Redemption

Mandatory Sinking Fund Redemption — 2008 Series A Bonds. The 2008 Series A Bonds maturing on January 1, 2033 are subject to mandatory redemption prior to maturity, upon random selection within a maturity by the Trustee, by operation of the Debt Service Fund to satisfy the Sinking Fund Installments required by the Series Resolution, on and after January 1, 2029 at 100% of the principal amount of such 2008 Series A Bonds to be redeemed together with accrued interest up to, but not including, the redemption date. Such Sinking Fund Installments will be sufficient to redeem such 2008 Series A Bonds on the dates and in the principal amounts shown below.

| Sinking Fund Payment Date (January 1) | Principal Amount |
|--|---------------------|
| 2029..... | \$35,420,000 |
| 2030..... | 28,415,000 |
| 2031..... | 42,915,000 |
| 2032..... | 14,340,000 |
| 2033..... | 24,890,000* |

* Payment at Maturity

Mandatory Sinking Fund Redemption — 2008 Series A Bonds. The 2008 Series A Bonds maturing on January 1, 2038 are subject to mandatory redemption prior to maturity, upon random selection within a maturity by the Trustee, by operation of the Debt Service Fund to satisfy the Sinking Fund Installments required by the Series Resolution, on and after January 1, 2034 at 100% of the principal amount of such 2008 Series A Bonds to be redeemed together with accrued interest up to, but not including, the redemption date. Such Sinking Fund Installments will be sufficient to redeem such 2008 Series A Bonds on the dates and in the principal amounts shown below.

| Sinking Fund Payment Date (January 1) | Principal Amount |
|--|---------------------|
| 2034..... | \$ 55,020,000 |
| 2036..... | 59,250,000 |
| 2038..... | 259,840,000* |

* Payment at Maturity

The District may satisfy the Sinking Fund Installments by delivering to the Trustee 2008 Series A Bonds of such maturities purchased by the District. In addition, the District may specify the Sinking Fund Installments to be credited if there is any redemption or purchase of 2008 Series A Bonds for which sinking fund installments have been established other than with amounts on deposit in the Debt Service Account.

Optional Redemption. The 2008 Series A Bonds maturing on and after January 1, 2020 are subject to redemption prior to their stated maturity, at the election of the District, in whole or in part, by random selection within a maturity with the same coupon by the Trustee from maturities selected by the District, at any time on or

after January 1, 2018 at the redemption price of 100% of the principal amount of the 2008 Series A Bonds, or portion thereof to be redeemed, together with accrued interest on, but not including the redemption date.

For so long as book-entry only system of registration is in effect with respect to the 2008 Series A Bonds, if less than all of the 2008 Series A Bonds of a particular maturity (and, if applicable, interest rate within a maturity) is to be redeemed, the particular Beneficial Owner(s) (as defined in Appendix E hereto) to receive payment of the redemption price with respect to beneficial ownership interests in such 2008 Series A Bonds shall be selected by DTC and the Direct Participants and/or the Indirect Participants (as defined in Appendix E hereto). See "Book-Entry Only System" in Appendix E hereto.

Notice of Redemption. Notice of redemption will be given to the Bondholders by mail to the registered owners as of the date of the notice of the 2008 Series A Bonds to be redeemed, postage prepaid, not less than 25 days nor more than 50 days prior to the redemption date. Notice having been given in the manner provided in the Resolution, on the redemption dates so designated, then the District's 2008 Series A Bonds or portions thereof so called for redemption shall become due and payable on such redemption date at the redemption price, plus interest accrued and unpaid to, but not including, the redemption date.

Any notice of optional redemption given pursuant to the Resolution may state that it is conditional upon receipt by the Trustee of monies sufficient to pay the redemption price of the 2008 Series A Bonds or upon the satisfaction of any other condition, or that it may be rescinded upon the occurrence of any other event, and any conditional notice so given may be rescinded at any time before payment of such redemption price if any condition so specified is not satisfied or if any such other event occurs. Notice of such rescission shall be given by the Trustee to the registered owners of any 2008 Series A Bonds so affected as promptly as practicable upon the failure of such condition or the occurrence of such event. Failure to give notice of redemption by mail, or any defect in such notice, will not affect the validity of the proceedings for the redemption of any other Electric System Revenue Bonds.

Registration and Transfer Upon Discontinuation of Book-Entry Only System

U.S. Bank National Association will act as bond registrar ("Bond Registrar") and transfer and paying agent for the 2008 Series A Bonds. If the book-entry only system were discontinued, the following provisions would apply. A 2008 Series A Bond may be transferred on the bond register maintained by the Bond Registrar upon surrender of the 2008 Series A Bond at the principal corporate trust office of the Bond Registrar, accompanied by a written instrument of transfer, in form satisfactory to the Bond Registrar, signed by the registered owner or a duly authorized attorney for the registered owner. Upon surrender for transfer at the principal corporate trust office of the Bond Registrar, any 2008 Series A Bond may be exchanged for 2008 Series A Bonds of the same aggregate principal amount, maturity date and interest rate, of any authorized denomination. The Bond Registrar will not be obligated to transfer or exchange any 2008 Series A Bonds during the 15 days preceding the date on which notice of redemption of a 2008 Series A Bond is to be mailed or any 2008 Series A Bond that has been called for redemption except the unredeemed portion of any 2008 Series A Bond being redeemed in part.

SOURCES AND USES OF PROCEEDS

The sources and uses of funds with respect to the 2008 Series A Bonds, are as follows:

| | |
|---|--------------------------|
| Sources of Funds | |
| Principal Amount of 2008 Series A Bonds | \$ 816,650,000.00 |
| Net Original Issue Premium | \$ 3,386,287.15 |
| Total Sources of Funds | <u>\$ 820,036,287.15</u> |
| Uses of Funds | |
| Deposit to District General Fund | \$ 350,000,000.00 |
| Deposit to Debt Reserve | 15,659,776.86 |
| Construction Fund | 450,004,298.51 |
| Cost of Issuance (including Underwriters' Discount) | \$ 4,372,211.78 |
| Total Uses of Funds | <u>\$ 820,036,287.15</u> |

SECURITY FOR 2008 SERIES A BONDS

General

The Revenue Bonds, including the 2008 Series A Bonds, are payable from and secured by a pledge of and lien on Revenues. Revenues are defined in the Resolution as (i) all revenues, income, rents and receipts derived by the District from the ownership and operation of the Electric System and the proceeds of any insurance covering business interruption loss relating to the Electric System and (ii) interest received on any moneys or securities (other than in the Construction Fund) held pursuant to the Resolution and paid into the Revenue Fund, but not including any such income or receipts attributable directly or indirectly to the ownership or operation of any Separately Financed Project and not including any federal or state grant monies the receipt of which is conditioned upon their expenditure for a particular purpose.

In addition, the Revenue Bonds, including the 2008 Series A Bonds, are also secured by all funds held under the Resolution. Such pledge created by the Resolution is subject only to the provisions of the Resolution permitting the application of Revenues for the purposes and upon the terms and conditions set forth in the Resolution.

The 2008 Series A Bonds will not constitute general obligations of the District or obligations of the State of Arizona, and no holder of Revenue Bonds, including the 2008 Series A Bonds, will ever have the right to compel any exercise of the taxing powers of the District to pay the Revenue Bonds or the interest thereon.

SRP's financial statements are presented on a combined basis. Management believes the financial information presented is not materially different from the presentation of the District on a stand-alone basis.

Debt Reserve Account

The Debt Reserve Account is a reserve fund for the equal benefit of all Revenue Bonds Outstanding under the Resolution. Monies in the Debt Reserve Account (except any excess over the Debt Reserve Requirement that the District may allocate and apply in the same manner as Revenues) will be used solely for the purpose of curing any deficiency in the Debt Service Fund for the payment of principal, interest or Sinking Fund Installments pursuant to the Resolution.

In the past, the District, though not required to do so, has followed the practice of depositing moneys into the Debt Reserve Account at the time of issuance of additional Revenue Bonds to equal the Debt Reserve Requirement. At December 31, 2007, the balance in the Debt Reserve Account was \$67,706,036, which exceeded the Debt Reserve Requirement. Upon issuance of the 2008 Series A Bonds, the Debt Reserve Account will continue to exceed the Debt Reserve Requirement.

Rate Covenant

The District covenants in the Resolution that it will charge and collect rates, fees and other charges for the sale of electric power and energy and other services, facilities and commodities of the Electric System as shall be required to provide revenues and income (including investment income) at least sufficient in each fiscal year for the payment of the sum of (i) Operating Expenses during such fiscal year, including reserves, if any, provided therefor in the Annual Budget for such year; (ii) an amount equal to the Aggregate Debt Service for such fiscal year; (iii) the amount, if any, to be paid during such fiscal year into the Debt Reserve Account in the Debt Service Fund; and (iv) all other charges or liens whatsoever payable out of revenues and income during such fiscal year and, to the extent not otherwise provided for, all amounts payable on Subordinated Indebtedness. See "ELECTRIC PRICES" herein.

Limitations on Additional Indebtedness

The District has covenanted in the Resolution not to issue any bonds or other obligations or create any additional indebtedness, which would have priority over the charge and lien on the Revenues pledged to the Revenue Bonds except for U.S. Government Loans heretofore or hereafter incurred. The Resolution does not restrict the amount of U.S. Government Loans the District may incur, which would have a prior lien on Revenues. There are no outstanding U.S. Government Loans.

The District may issue additional parity Revenue Bonds in compliance with the Resolution if, among other things, (i) Revenues Available for Debt Service, as the same may be adjusted, of any 12 consecutive calendar months out of the 24 calendar months next preceding the issuance of such additional Revenue Bonds are not less than 1.10 times the maximum total Debt Service for any succeeding fiscal year on all Revenue Bonds that will be outstanding immediately prior to the issuance of the additional Revenue Bonds, and (ii) estimated Revenues Available for Debt Service, as the same may be adjusted, for each of the five fiscal years immediately following the issuance of such additional Revenue Bonds are not less than 1.10 times the total Debt Service for each such respective fiscal year on all Revenue Bonds outstanding immediately subsequent to the issuance of such additional Revenue Bonds.

Subordinated Indebtedness

The District may, at any time, or from time to time, issue evidences of indebtedness which are payable out of Revenues and which may be secured by a pledge of Revenues provided, however, that such pledge shall be and shall be expressed to be, subordinate in all respects to the pledge of the Revenues, monies, securities and funds created by the Resolution. See "Appendix B — Summary of the Resolution" attached hereto.

Other Covenants

In addition to the rate covenant described above, the Resolution includes covenants by the District with respect to the sale and/or lease of the Electric System, the operation and maintenance of the Electric System, and certain other matters. See "Appendix B — Summary of the Resolution" attached hereto.

THE DISTRICT

General

The District is an agricultural improvement district organized in 1937 under the laws of the State of Arizona. It operates the Salt River Project (the "Project"), a federal reclamation project, under contracts with the Salt River Valley Water Users' Association (the "Association"), by which it assumed the obligations and assets of the Association, including its obligations to the United States of America for the care, operation and maintenance of the Project. The District owns and operates an electric system (hereinafter described) which generates, purchases, transmits and distributes electric power and energy, and provides electric service to residential, commercial, industrial and agricultural power users in a 2,900 square mile service territory in parts of Maricopa, Gila and Pinal Counties, plus mine loads in an adjacent 2,400 square mile area in Gila and Pinal Counties. The Association operates an irrigation system as the District's agent.

History

The Association, predecessor of the District, was incorporated under the laws of the Territory of Arizona in February 1903 to represent the owners and occupants of lands to be benefited by the Project, which was one of the first projects authorized under the Federal Reclamation Act of 1902. In 1904, the Association and the United States entered into a contract in which the United States agreed to construct and operate dams, power plants and other facilities incident to the operation of irrigation and power works and improvements, and the Association agreed to repay the cost thereof. Initially, the United States constructed, operated and maintained Roosevelt Dam and Granite Reef Dam, which diverted impounded water into a canal system to supply irrigation water to the irrigable lands within the Project. In 1917, the Association entered into a contract with the United States to assume the care, operation and maintenance of the Project (the "1917 Agreement").

On January 25, 1937, the District was formed to secure for the Project the rights, privileges and exemptions granted to political subdivisions of the State of Arizona. Pursuant to a contract approved by the Secretary of Interior in 1937 (the "1937 Agreement"), the Association transferred all of its right, title and interest in and to the works and facilities of the Project to the District. The District agreed to assume the debt of the Association and to issue District bonds to finance capital improvements. The Association agreed to continue to operate and maintain the water supply and irrigation system and the Electric System. In 1949, the 1937 Agreement was amended to provide that the District would assume responsibility for the construction, operation and maintenance of the Electric System and the

irrigation and water supply system. The District delegated to the Association, as agent of the District, the direct operation and maintenance of the irrigation system of the Project.

The United States retains a paramount right or claim in the Project that arises from the original construction and operation of certain of the Project's electric and water facilities as a federal reclamation project. Although title to a substantial portion of the District's property, including those properties acquired pursuant to the 1917 Agreement, resides in the United States, the District possesses contractual rights to the use, possession and revenues of these properties through its agreement with the Association, the 1917 Agreement, subsequent contractual arrangements with the United States, and applicable federal reclamation law. From time to time, the Department of Interior performs audits of the Project. In addition, the District seeks approval from the Department of Interior for certain transactions such as the issuance of revenue bonds and the payment of in-lieu taxes.

Generation and sale of electrical power and energy represent the major portion of the District's investment and revenues. Following a long-standing reclamation principle, a portion of electric revenues available after the payment of Operating Expenses and Debt Service required under the Resolution is used to provide partial support for water and irrigation operations, thereby keeping water storage, distribution and delivery charges at reasonable levels.

Organization, Management and Employees

The District and the Association are each governed by a Board and a Council. The Boards establish the policies for management and conduct of the business affairs of the District and the Association. The Councils enact and amend by-laws relating to management and act as a liaison with the landowners. The General Manager of the District has management responsibilities for both the District and the Association.

The Board of Governors of the Association, elected from among the shareholders (landowners), consists of the President and ten other members, half being elected biennially for four-year terms. The Board of Directors of the District, elected from among the electors (landowners) for four-year terms, consists of the President and fourteen other members, half being elected biennially for four-year terms. The President and Vice President are elected at large by electors of the District. Ten of the District's Board members, the President, and the Vice President are elected by votes weighted in proportion to the amount of land owned by each elector. The remaining four Board members are elected at large, with each elector (landowner) being entitled to one vote.

The Councils for the Association and the District each consist of thirty members. Three Council members from each of the ten district areas of the Association, and three Council members from each of the ten division areas of the District, are elected biennially for four-year terms. One half of each of the Association and the District Councils are elected biennially. All Council members are elected by votes weighted in proportion to the amount of land owned by each shareholder (Association) or elector (District).

As of November 1, 2007, District and Association full-time employees (full-time equivalent) totaled approximately 4,482, including approximately 1,899 hourly employees represented by the International Brotherhood of Electrical Workers, Local 266. The present labor contracts expire on November 15, 2009.

Economic and Customer Growth in the District's Service Area

The District serves approximately 55% of the population living in the Phoenix-Mesa Metropolitan Statistical Area ("Phoenix-Mesa MSA"). As the governmental and economic center of Arizona, the Phoenix-Mesa MSA continues to attract the largest percentage of the state's residents, businesses, and income. It contains approximately 65% of the state's population, and over two-thirds of its total employment and total personal income.

The Phoenix-Mesa MSA has experienced strong economic growth since the recession of the early 1990's. The 2000 Census revealed that growth was higher than previously estimated. From 1990 to 2000, population in Maricopa County increased by 950,000, a 45% growth rate. This growth was fueled by positive net migration due to the area's healthy growth in jobs. While there was some slowing in job growth during 2001 and 2002, the Phoenix-Mesa MSA continues to benefit from strong population growth, with an estimated additional 957,000 people moving to the metropolitan area between 2000 and 2007. The Valley weathered the 2001 recession relatively well, with employment growth dipping by only a tenth of a percent in 2002, and positive growth returning

in 2003. Job growth was strong in 2005 and 2006, growing 6.2% and 6.0% respectively. While 2007 slowed, preliminary indications are that jobs grew 3.2%. Population growth is expected to decline gradually to approximately 3.3% annually from the 4.3% range seen in the past few years.

Table 1 summarizes several key economic statistics over recent years.

TABLE 1 — Historical Growth Statistics

| Year | State of Arizona Population (thousands)(1) | Phx-Mesa MSA Population (thousands)(1) | Phx-Mesa MSA Non-Agricultural Wage & Salary Employment (thousands)(2) | Phx-Mesa MSA Residential Permits(3) | Phx-Mesa MSA Personal Income (\$ billions)(4) |
|-----------|--|---|---|--|---|
| 2002..... | 5,471 | 3,486 | 1,596 | 47,899 | 100.8 |
| 2003..... | 5,643 | 3,609 | 1,620 | 54,860 | 105.5 |
| 2004..... | 5,845 | 3,755 | 1,684 | 65,259 | 114.9 |
| 2005..... | 6,078 | 3,928 | 1,788 | 62,617 | 125.7 |
| 2006..... | 6,305 | 4,093 | 1,895 | 44,280 | 137.0 |
| 2007..... | 6,500 | 4,235 | 1,955 | 36,963 | N/A |

(1) Arizona Department of Economic Security and Maricopa County Association of Governments; numbers are estimates as of July 1st each year.

(2) Arizona Department of Economic Security; 2007 preliminary.

(3) U.S. Census Bureau, "Housing Units Authorized by Building Permits"; 2007 preliminary.

(4) U.S. Bureau of Economic Analysis; 2006 preliminary.

After growing very rapidly through 2005 and 2006, the metropolitan Phoenix economy slowed in 2007 and trended toward its long-term growth pace, which remains stronger than the nation as a whole. Through November 2007, the Phoenix-Mesa MSA's job growth ranked 125th among the nation's 369 metropolitan areas. The 32,000 jobs created in the Phoenix during the 12-month period ending November 2007 ranked 10th in the nation. The November 2007 unemployment rate was 5th lowest in the nation. This strong relative performance, combined with the relatively affordable cost of living, continues to drive local population growth.

Employment growth in the area has historically compared favorably to national figures. From 2000 through 2007, employment increased an estimated 24% for the Phoenix-Mesa MSA and 21% for the state, while the national figure was only 4.7%. Unemployment rates for the Phoenix-Mesa MSA are typically below the national average. Seasonally adjusted unemployment rates for the Phoenix-Mesa MSA, Arizona, and the United States are listed below:

Comparative Unemployment Rates

| | <u>December 2007</u> | <u>December 2006</u> | <u>December 2005</u> |
|-----------------------|----------------------|----------------------|----------------------|
| Phoenix-Mesa MSA..... | 4.1% | 3.5% | 3.9% |
| Arizona | 4.7% | 4.1% | 4.5% |
| United States | 5.0% | 4.4% | 4.8% |

Source: US Department of Labor, Bureau of Labor Statistics. Rates are seasonally adjusted.

While Professional and Business Services, Trade, Transportation, and Utilities, and Government make up the majority of local employment, Construction and Financial Activities accounted for a large percent of job growth over the real estate boom the past few years. In 2007, this employment growth dramatically slowed, even ending the year with negative growth in the Construction sector. The District expects to see continued weakness in these areas, along with softness in Manufacturing and Information. Relatively strong growth in the remaining sectors is keeping total job growth afloat.

**Phoenix-Mesa MSA Employment

Source: State of Arizona, Department of Economic Security.

The Phoenix-Mesa MSA is home to several corporate headquarters: US Airways Group, Inc., ASARCO, Allied Waste, AVNET, Best Western International, Del Webb Corporation, Insight Enterprises, PetSmart, Phelps Dodge, U-Haul, and Viad. In addition, American Express Company, The Prudential Insurance Company of America, State Farm Mutual, Sentry Insurance Co. and Southwest Airlines have regional offices in the Phoenix-Mesa MSA.

Strong population growth continues to drive the retail market although indications of the slow down are starting to manifest in vacancy rates. Retail space vacancy rates declined from 16.3% for 1990 to 5.3% for 2000. Vacancy rates rose during the recession, dropped to another low around 2006, and now stand at about 6.0%. Retail construction and net absorption were strong in 2007, but at a slightly slower pace than in the past couple years. Office vacancy rates dropped below 10% in 2000 from highs in the mid-twenty percent range in the early 1990s. The slowing economy raised office vacancy rates for a few years, but the rates have since fallen, with 2006 seeing near record-low vacancy rates. During 2007, rates moderated and settled in around 14% vacancy. Industrial real estate activity was also strong in 2006, with high levels of absorption and activity, and vacancy rates around 6.0%. In 2007, vacancy rates rose slightly, and are now around 8.0%.

The Phoenix real estate market has been a large driver of economic activity over the past several years. Permits for new homes hit a peak in 2004, and have since retreated as builders work through existing inventories. The District predicts that the housing market will remain soft for the next year or two before returning to an upward path. Softening housing prices will encourage population inflows as long as regional job growth remains at or above the national average.

See "SELECTED OPERATIONAL AND FINANCIAL DATA — Customers, Sales, Revenues and Expenses" herein.

Irrigation and Water Supply System

An historic and continuing justification of the Project lies in providing a stable and economic water supply. Agriculture in the plains and valleys of south-central Arizona almost wholly depends upon irrigation due to the low annual rainfall.

The Project provides the water supply for an area of approximately 248,200 acres located within the major portions of the Cities of Phoenix, Avondale, Glendale, Mesa, Tempe, Chandler, Gilbert, Peoria, Scottsdale and Tolleson.

The water supply for the water service area of the Project is primarily runoff from a watershed consisting of 13,000 square miles which is stored in six reservoirs operated by the Association, four of which are located on the Salt River and two on the Verde River. Additional water is provided by the Association's deep-well pumps located within the boundaries of the Project's water service area.

The available water supply is important due to its influence on the economy in the area. Since the construction of the dam and reservoir system, the Project has always had sufficient water supply to meet the demands for urban, industrial and agricultural uses within its boundaries. The District's management believes that under established water rights relating to water use and assuming a continuation of historical precipitation and usage patterns, the area within the Project water service boundaries has a dependable and assured water supply.

For the past several years, the Southwest, including the Project's watershed, has experienced serious drought conditions. Under its contingency plan to manage supply and demand in periods of water shortage, the Association has utilized increased groundwater pumping and reductions in water allocations. Additionally, during the current drought, the Association has been able to supplement its water supplies through the use of water from the Central Arizona Project, which has been available for purchase or exchange. Even so, due to the severity of the drought in the Southwest, the Association reduced the allocation of water to its shareholders and to the valley cities by one-third for calendar years 2003 and 2004. In 2005, abundant winter watershed precipitation and runoff refilled reservoirs sufficiently to allow the Association to make full surface water-only deliveries to its shareholders. Winter rain and snow failed to materialize in the winter of 2006 and 2007, suggesting that drought conditions were continuing as anticipated; however, the winter of 2008 is providing abundant rain and snow which will result in full surface water deliveries to Association shareholders once again. Whether drought conditions will return or not in subsequent winters remains to be seen.

The cities of Prescott and Prescott Valley, together with the Town of Chino Valley, have announced plans to withdraw groundwater from the Big Chino Groundwater Sub-Basin and transport the water to their respective service areas for municipal and industrial uses. SRP opposes these plans because it believes that such pumping would deplete the base flow of the Verde River, which is captured and stored by two reservoirs on the Verde River for delivery to Association shareholders. This dispute is still in its early stages and the District cannot predict the outcome at this time. However, the District does not believe the dispute will have a significant financial impact on the District or the Association.

The Association also operates about 250 wells under a permit issued by the Arizona Department of Environmental Quality (ADEQ) pursuant to the permit program for the Arizona Pollutant Discharge Elimination System. The permit restricts the use of wells having chemical contamination above the permit levels. The number of restricted wells may vary by two or three each year as contamination plumes move or new contamination is discovered. Approximately 6% of Association wells are not in operation for various reasons, including permit restrictions, and pursuant to a voluntary agreement to cease pumping to facilitate the study and remediation of contaminated groundwater in the area.

See "THE ELECTRIC SYSTEM — Existing and Future Resources — *Mohave Generating Station*" and "LITIGATION — Water Rights" for a discussion of additional matters relating to irrigation and water supply.

Telecommunication Facilities

The District has installed approximately 53,000 strand-miles of fiber optic cable to support communication activities for its water and electric utility operations. Approximately 60% of the available capacity in this system is surplus to its needs. The District has also acquired, through exchanges with other utilities and telecommunications carriers, other fiber optic capacity and has entered into license agreements with telecommunications carriers, such as Qwest, Integra Telecom, AT&T, Level 3 and AboveNet, among others, as well as with certain enterprise customers to market this excess capacity, and receives approximately \$7.0 million per year in revenue from this activity.

Additionally, the District makes available certain electric facilities for the purpose of co-locating wireless antenna systems of commercial wireless communications service providers. The District also provides a number of related services to such service providers in conjunction with this activity. The District generates approximately \$6.5 million per year from this activity.

Papago Park Center

Papago Park Center is a mixed-use commercial development located on land owned by the District adjacent to its administrative offices. The District accumulated this land over a number of years for use by the District. The District constructed a 360,000 square foot facility in Papago Park Center, which is utilized principally by personnel and equipment in the information systems, planning, marketing and financial services departments of the District. The 2009 through 2014 Capital Improvement Program does not include funds for additional office buildings. The District's long-range plan includes the private development of portions of Papago Park Center (the "Private Development Area").

The District has entered into a 100-year lease of a portion of the Private Development Area with Papago Park Center, Inc. ("PPCI"), a wholly-owned, incorporated, and taxable subsidiary of the District. Development activity in the Private Development Area has steadily increased since 1996. Lease payments to the District were \$2.18 million and \$2.02 million in fiscal years 2007 and 2006, respectively.

New West Energy Corporation

In 1997, the District established a wholly-owned, taxable subsidiary, New West Energy Corporation ("New West Energy"), to market, at retail, energy available to the District that was surplus to the needs of its retail customers, and energy that might have been rendered surplus in Arizona by retail competition in the supply of generation. However, as a result of the turmoil in the western energy markets, New West Energy discontinued marketing excess energy in 2001, and is now largely inactive.

THE ELECTRIC SYSTEM

Area Served

The District provides electrical service to major populated sections of Maricopa County, as well as portions of Pinal and Gila Counties. Except the City of Mesa, which operates its own system, all of the cities within the District's service areas are served in part by the District and in part by Arizona Public Service Company ("APS"). By agreement between the District and APS, the urban areas and the adjacent suburban areas now served by the District's distribution system will continue to be so served even though the latter may be annexed to a city in the future. The District also provides power directly for mining load requirements, principally in Pinal and Gila Counties.

See "CERTAIN FACTORS AFFECTING THE ELECTRIC UTILITY INDUSTRY — Competition in Arizona" herein for a discussion of legislation permitting competition in generation service, billing, metering, and meter reading.

Projected Peak Loads and Resources

The District annually estimates its future sales of energy by taking into account customer growth, changes in customer usage patterns and historic, as well as projected, weather data. The resource portfolio is examined to determine the expected sources of power and energy that may be used to supply the estimated system requirements.

The projections in Table 2 represent the District's estimate of the most probable components of system peak loads and resources for fiscal years 2009 through 2014. The projections reflected therein are consistent with industry-wide experience and provide the basis for the District's current year operating budget. However, they are based on certain assumptions that, if not realized, may adversely affect such projections.

The projections shown in Table 2 do not reflect any sales of excess capacity other than sales pursuant to existing agreements. The resources in excess of peak load are expected to be generally gas- and oil-fired resources, which are the District's most expensive resources to operate.

TABLE 2 — Projected Peak Loads and Resources (MW)

| | Fiscal Years Ending April 30, | | | | | |
|--|-------------------------------|-------------|-------------|-------------|-------------|-------------|
| | <u>2009</u> | <u>2010</u> | <u>2011</u> | <u>2012</u> | <u>2013</u> | <u>2014</u> |

| Planned Reserve Percentage(10)..... | 12.3 | 12.2 | 12.3 | 12.4 | 12.4 | 12.3 |

- (1) The forecasts were made in the fall of 2007, which was the beginning of the annual planning period.
- (2) Peak normally occurs in the June through September months of the prior calendar year (the beginning months of the fiscal year).
- (3) The non-discriminatory access language in the Electric Power Competition Act requires the District to be able to meet all distribution area loads under 100,000 kWh, even if some retail customers elect to be served by others. No District retail customers are being served by others.
- (4) Peak demand has been reduced by the cumulative impact of conservation programs that the District has sponsored for more than a decade.
- (5) Interruptible loads are not included in Service Territory System Requirements or in the reserves calculation because these loads are not expected to be on line during the peak.
- (6) The peak load value is the total peak load occurring coincident with the District's system peak requirements.
- (7) Navajo Surplus is electrical capacity and energy made available to the District from the entitlement in Navajo Generating Station that the United States Bureau of Reclamation holds for the purpose of supplying the power requirements of the Central Arizona Project when such amount is surplus. The current contract term extends through September 30, 2011. A new long-term contract for 300 MW has been executed that will extend the contract 20 years. The 300 MW contract extension is included in the forecast shown.
- (8) An agreement is in place with TEP to extend the 100 MW long-term contract to May 31, 2016. The 100 MW contract extension is included in the forecast shown.
- (9) The District has a 30-year agreement with Tri-State to purchase 100 MW of capacity from Springerville Unit 3. Commercial operation of Unit 3 began on September 1, 2006.
- (10) Cannot be derived solely from the information set forth in Table 2.

Reserve Targets

The District plans the addition of new generation based on a 12% reserve target. Because of the restructuring of the electric utility industry and the significant financial exposure associated with carrying excess reserves, the District has decided that a 12% reserve target represents an optimal planning target that balances both economics and reliability.

Existing and Future Resources

The District has various resources available to it that permit it to provide electricity in its service area. The resources include the generating facilities owned solely by the District, generating facilities in which the District has an ownership interest, and the District's ability to enter into agreements with others to purchase power.

Economic Viability of Existing Generation Assets. The existing generation assets have been and will continue to be an integral part of the District's long-term resource plans. These generating stations historically have achieved high availability and low forced outage rates as compared to industry averages. This performance can largely be attributed to prudent operational and maintenance practices. Sustaining and improving this performance will be achieved by continuing a focused effort on preventative, predictive and corrective maintenance activities. By combining these practices with the ongoing application of engineering and technology improvements the District will ensure that the future economic and operational value of existing assets is maintained.

Summary of Existing Power Sources during the fiscal year ended April 30, 2007. The District's largest source of energy during the fiscal year ended April 30, 2007 was thermal generating facilities, which supplied approximately 69.9% of the District's total production. Hydroelectric generation provided approximately 2.6% of production with 1.2% coming from the District's own hydroelectric plants and 1.4% coming from purchases from the Arizona Power Authority ("APA") and the United States Department of Energy, Western Area Power Administration ("WAPA"). The remaining 27.5% came from various other purchases and renewable resources. Table 3 provides more detail on District power sources.

TABLE 3 — Fiscal Year 2007 District Power Sources

| | Capability (MW)(1) | % of Total | Net Production Amount (MWh)(2) | % of Total |
|--|-----------------------|---------------|--------------------------------------|---------------|

(1) Load capability during summer system peak. Winter capability may be greater.

(2) Actual net production during the fiscal year ended April 30, 2007. Energy for pumped storage is not deducted.

(3) Fuel Cell capacity is 250 kW.

(4) Mohave suspended operations at the end of 2005. It is unlikely that the plant will return to service as a coal-fired facility. See "THE ELECTRIC SYSTEM — Existing and Future Resources — Mohave Generating Station" for additional discussion of matters relating to Mohave.

(5) Purchase and receipt capabilities vary month to month. Listed are the capabilities for the peak month.

(6) Includes 38 MW wheeled for certain electrical/irrigation districts.

- (7) Includes 43 MW wheeled for certain electrical/irrigation districts.
- (8) Includes 17 MW wheeled for SCIP.
- (9) Net of CAWCD pumping load and losses totaling 58 MW that occurred coincident with system peak.
- (10) These resources became available after the summer system peak. Future capability is expected to be 100MW.
- (11) These resources became available after the summer system peak.
- (12) Short term purchases excluding 200 MW and 2,634,191 MWh of bookouts.
- (13) Totals may not add correctly due to rounding.

Desert Basin Generating Station. The District had a ten-year Power Purchase Agreement (“DBPPA”) that commenced on or about November 2001 with Reliant Energy Desert Basin, LLC (“Reliant”) for the purchase of 575 MW of capacity produced at the Desert Basin Generating Station (“Desert Basin”) located in central Arizona. In 2003, the District acquired Desert Basin and transferred title to Desert Basin Independent Trust (“DBIT”), a Delaware statutory trust, pursuant to a Lease Purchase Agreement (the “Lease Purchase Agreement”) to provide a portion of the permanent financing for Desert Basin. In a concurrent transaction, DBIT issued \$282,680,000 aggregate principal amount of Certificates of Participation (“Certificates”) evidencing direct undivided interests in rental payments made by the District pursuant to the Lease Purchase Agreement. A portion of the proceeds from the sale of the Certificates was used to satisfy the bridge loan used to acquire Desert Basin. The acquisition of Desert Basin resulted in the cancellation of the DBPPA and the District operates Desert Basin consistent with its other thermal resources. See “SELECTED OPERATIONAL AND FINANCIAL DATA — Additional Financial Matters” for further discussion of the financing of Desert Basin.

Santan Generating Station. In 2001, the Arizona Corporation Commission (“ACC”) approved a certificate of environmental compatibility (“CEC”) for a proposed expansion of the District’s Santan Generating Station in the Town of Gilbert. The first of the two additional units was placed into commercial operation on April 1, 2005, and the second unit became commercial on March 1, 2006. The total, combined capability of these units is a nominal 825 MW.

Jointly Owned Generation Facilities. The District has an ownership interest in six generating facilities. The percent participation of the District and the other participants in these facilities is set forth in Table 4. Additional information about each facility follows Table 4.

TABLE 4 — District Participation Interests in Existing Generating Facilities (1)

- (1) Generally, if a default by any participant in the payment or performance of an obligation under a participation agreement continues without having been cured or without the participant having commenced and continued to cure the default, then the non-defaulting participants may suspend the right of the defaulting participant to receive its capacity entitlement. In case of default, (1) each non-defaulting participant will bear a portion of the operation and maintenance costs otherwise payable by the defaulting participant in the ratio of the non-defaulting participant's respective capacity entitlement to the total capacity entitlement of all non-defaulting participants, and (2) the defaulting participant will be liable to the non-defaulting participants for all costs incurred by the non-defaulting participants pursuant to (1) and for all costs in operating the project at a reduced level of generation brought about by the reduction of the capacity entitlement of the defaulting participant. USBR's participation interest in the Navajo Generating Station is not subject to these suspension procedures, but USBR is obligated to bear its proportionate share of the operation and maintenance costs of any defaulting participant in the Navajo Generating Station. Currently there are no defaulting participants.
- (2) Mohave Generating Station suspended operations at the end of 2005 and it is unlikely the plant will return to service as a coal-fired facility. See "THE ELECTRIC SYSTEM — Existing and Future Resources — *Mohave Generating Station*" for additional discussion of matters relating to Mohave.
- (3) Amount shown is maximum capability. Normal continuous load capability is 1,500 MW.
- (4) Amount shown is maximum capability. Normal continuous load capability is 1,400 MW.
- (5) Amount shown is maximum capability. Normal continuous load capability is 3,942 MW.
- (6) The District holds legal title to this percentage of the Navajo Generating Station for the use and benefit of USBR.

Craig Generating Station Units 1 & 2. The District owns 29% of Craig Generating Station Units 1 & 2, which are operated by Tri-State. The two 428 MW coal-fired generating units commenced operations in 1981 and 1979, respectively. The Craig Generating Station Units 1 & 2 are located in the Yampa Valley near the City of Craig in northwestern Colorado. The District's entitlement to power and energy from Craig Generating Station Units 1 & 2, like the power and energy from Four Corners Generating Station Units 4 & 5 and Hayden Generating Station Unit 2, is subject to a displacement arrangement with WAPA. Power and energy is delivered to WAPA and used for WAPA's customers located in Colorado, New Mexico, Utah and Wyoming. WAPA delivers a similar amount of power and energy to the District from the Glen Canyon Hydroelectric Generating Station. This is a displacement arrangement that reduces transmission investment, operating expenses and energy losses both for WAPA and for the District.

See "THE ELECTRIC SYSTEM — Existing and Future Resources — *Coal*" for comments relating to the coal supply for the Craig Generating Station Units 1 & 2.

Four Corners Generating Station Units 4 & 5. The Four Corners Generating Station Units 4 & 5, operated by APS, are located on the Navajo Indian Reservation near Shiprock, New Mexico. The District owns 10% of Units 4 and 5, two 785 MW (maximum capability) coal-fired generating units, which commenced operations in 1969 and 1970, respectively. Coal comes from area mines located on the Navajo Indian Reservation.

See "THE ELECTRIC SYSTEM — Existing and Future Resources — *Coal* " for comments relating to the coal supply for the Four Corners Generating Station Units 4 & 5.

See "THE ELECTRIC SYSTEM — Environmental Matters — *Navajo Generating Station and Four Corners Generating Station Units 4 & 5*" for a discussion of administration of federal environmental laws by Indian tribes.

See "LITIGATION — Environmental Issues" for a discussion of certain Navajo environmental laws.

Hayden Generating Station Unit 2. The District owns 50% of Hayden Generating Station Unit 2, a 262 MW coal-fired generating unit, which commenced operations in 1976 and is located in Hayden, Colorado. Public Service Company of Colorado ("PSCo") is the operating agent. PSCo is an operating company within Xcel Energy.

See "THE ELECTRIC SYSTEM — Existing and Future Resources — *Coal* " for comments relating to the coal supply for the Hayden Generating Station Unit 2.

Navajo Generating Station. The Navajo Generating Station ("NGS"), located on the Navajo Indian Reservation near Page in Northern Arizona, consists of three 750 MW coal-fired, steam-electric generating units. The units commenced commercial operations in 1974, 1975 and 1976, respectively. The facility also includes an electric railroad for fuel delivery and 500 kV transmission lines and switching stations to deliver the power and energy to the various participants. The District owns 21.7% of NGS and is the operating agent of the generating station and the railroad. The NGS coal supply is surface-mined and delivered from the Kayenta Mine, which is located on the Navajo and Hopi Indian Reservations in Northern Arizona.

See "THE ELECTRIC SYSTEM — Environmental Matters — *Navajo Generating Station and Four Corners Generating Station Units 4 & 5*" for a discussion of environmental considerations with respect to NGS, and administration of federal environmental laws by Indian tribes.

See "THE ELECTRIC SYSTEM — Existing and Future Resources — *Coal* " and "LITIGATION — Coal Supply" for discussions relating to the NGS coal supply, and "LITIGATION — Environmental Issues" for a discussion of certain Navajo environmental laws.

Mohave Generating Station. The District owns 20% of the Mohave Generating Station ("Mohave"), which consists of two 790 MW coal-fired units. Mohave commenced operations in 1971 and is located in Clark County, Nevada, on the Colorado River. SCE is the operating agent. Fuel is supplied by a slurry pipeline from the Black Mesa Mine located on the Navajo and Hopi Indian Reservations in Northern Arizona. Peabody Western Coal Company ("Peabody") operates the mine under leases with both tribes.

In 1999, SCE, the District, NPC, and LADWP (the "Mohave Participants") entered into a settlement with the Sierra Club, the Grand Canyon Trust and the National Parks Conservation Association that required the installation of certain pollution abatement equipment by the end of 2005 for the plant to continue operating as a coal-fired electric generating facility. In addition, the initial term of the agreement with Peabody to supply coal to Mohave expired at the end of 2005 and the Navajo Nation and the Hopi Tribe demanded that the pumping of water from the Navajo Aquifer for the slurry pipeline serving Mohave cease. The Mohave Participants refused to commit to install the pollution abatement equipment without reasonable assurance that water would be available to enable the delivery of coal to the plant. Consequently, the plant suspended operations at the end of 2005. The Mohave Participants, the Navajo Nation, the Hopi Tribe and Peabody participated in mediation for an alternative source of water for the mine and the slurry pipeline if the life of Mohave were extended, and to resolve other related issues. However, SCE, as well as the other two participants, LADWP and NPC, advised the District in June 2006 that they did not intend to proceed with efforts to extend the life of Mohave. The mediation efforts continued, but subsequent efforts of SCE to

sell the plant as a coal-fired plant, and the District's efforts to acquire the other participants' interests in the plant, were unsuccessful. Although the District continues to evaluate its options, it is unlikely that the plant could return to service as a coal-fired generation source. See "LITIGATION — Coal Supply" for a discussion of the other pending issues. See "THE ELECTRIC SYSTEM — Projected Peak Loads and Resources — Table 2, Footnote 7" for a discussion of matters relating to Mohave.

The District has included funding in its Capital Improvement Program to cover the costs of alternate resources and has already replaced a portion of the energy it would have received had Mohave continued operations. The District is considering several options for replacing the balance of its energy supply from Mohave including self-build options and purchases from others.

During fiscal year 2003, faced with the complex and contentious issues involved in the mediation noted above, and the potential closure of the plant at the end of 2005, the Board authorized the recovery of the balance of the District's investment in Mohave in its revenue requirements prior to the closure of the plant. In accordance with accounting standards for rate-regulated enterprises (SFAS No. 71), a Mohave regulatory asset was established for \$78.0 million during the fiscal years ended April 30, 2003, 2004 and 2005, and is being recovered over a ten-year period which began in fiscal year 2006. At April 30, 2007, the Mohave net regulatory asset was \$67,600,000.

See "THE ELECTRIC SYSTEM — Existing and Future Resources — Coal " and "LITIGATION — Coal Supply" for a discussion of matters relating to the coal supply for Mohave.

Palo Verde Nuclear Generating Station. The District owns 17.49% of the Palo Verde Nuclear Generating Station ("PVNGS"), located near Wintersburg, Arizona. PVNGS originally consisted of three nominally sized 1,270 MW pressurized water nuclear generating units. APS is the project manager and operating agent. The District declared Units 1, 2 and 3 in commercial operation in 1986, 1986, and 1988, respectively.

The Nuclear Regulatory Commission (the "NRC") has reviewed the operations at PVNGS and, in a public meeting held at the plant in December 2007, reported that the plant needs improvement in several areas following a decline in performance since 2003. In February 2008, the NRC issued its final Inspection Report documenting the areas of degraded performance and a revised Confirmatory Action Letter ("CAL") detailing the corrective actions needed by PVNGS to return the plant to normal regulatory oversight. It may take an additional 18 – 24 months for these actions to be completed to the point that the NRC will close the CAL and return the plant to normal oversight. In the mean time, PVNGS will remain one of the most regulated nuclear plants in the country and will continue to face increased NRC oversight and inspections.

The steam generators have been replaced in all three units resulting in an increase of about 55 MW net output (9.5 MW as the SRP share) in each of Units 1 and 2. An increase of approximately 55 MW net output is expected in Unit 3, which returned to service in January 2008.

See "CERTAIN FACTORS AFFECTING THE ELECTRIC UTILITY INDUSTRY — Nuclear Plant Matters" for a discussion of liability issues.

Purchased Power. The District supplies a portion of its energy and demand requirements with purchased power from several sources as shown in Table 3. In fiscal year 2007, approximately 14.4% of the District's energy requirements were met with long-term power purchases. An additional 14.5% was met with short-term purchases.

The District has multiple long-term contracts to purchase power from WAPA including a new contract executed September 28, 2007, to purchase Navajo Surplus power with deliveries to begin June 1, 2012. This purchase is for 300 MW during the eight super-peak hours of every day, June through August, and the term runs through September 30, 2031. This purchased power agreement is included in the "Purchased: CAWCD/Navajo Surplus" category of Table 2. The expiration dates of these contracts span the period from September 30, 2011 to September 30, 2031. In fiscal year 2007, a total of 899 MW peak capacity was available under various contracts with APA, CRSP, the Parker-Davis Project, and the CAWCD.

The District has individual long-term power purchase contracts with AEPCO and TEP. Each contract provides for the District to purchase 100 MW of firm power. These contracts will expire in fiscal years 2011 and 2012,

respectively. The District has an agreement with TEP for a five-year extension of its contract to 2016 with a further extension to 2021, if certain conditions are met.

See "SELECTED OPERATIONAL AND FINANCIAL DATA — Customers, Sales, Revenues and Expenses — Contractual Obligations Relating to Bonds of Other Political Subdivisions" herein.

See "LITIGATION — Gas Supply" for a discussion of fuel supply issues.

Future Resources. The District evaluates its options for obtaining reliable resources on a lowest possible cost basis. In addition to the potential future resource options described below, the District balances short- term and long-term energy purchases, refinements to its conservation programs, building its own new generation and ventures with other plant developers to acquire the output from other plants being constructed. Arizona and many other western states have either deferred or re-examined the implementation of deregulation of the electric industry. As a result, certain merchant generators are seeking buyers for sales of power from, or purchases of, their plants, both in operation or under construction. Consistent with its acquisition of the Desert Basin Project, the District continues to evaluate these developments, which could include the acquisition of other existing generation facilities.

Springerville Generating Station. In 2001 the District entered into an agreement with UniSource Energy Development Company ("UniSource") for the joint development of two additional coal-fired generating units (Units 3 and 4), approximately 400 MW each in size, to be located at the existing Springerville (Arizona) Generating Station. Under an amendment to the agreement, dated October 20, 2003, the District entered into a 30-year power purchase agreement (the "PPA") to purchase 100 MW of capacity from Unit 3, which was developed by Tri-State and placed in service in 2006. In addition, the District received the right to construct the fourth unit (Unit 4) at any time during the term of the PPA. The District originally held such rights in a wholly-owned, taxable limited liability company, Springerville Four, LLC, but such rights were assigned to the District on February 1, 2007 and Springerville Four was dissolved in April 2007. The District has begun construction of Unit 4 and expects it to be in service by the end of calendar year 2009. Construction of Unit 4 is anticipated to cost approximately \$1 billion. UniSource's affiliate, TEP, operates Units 1, 2 and 3 and will operate Unit 4 upon completion. A portion of the proceeds of the 2008 Series A Bonds is expected to be applied to the payment of such costs. The balance of such costs is expected to be funded from internally generated funds. (See "Capital Improvement Program")

Transmission. Electricity from the District's diversified generation resource mix is delivered to customers over a complex and reliable transmission system, which is integrated into the grid that connects transmission lines in the West. The District owns transmission systems that deliver electricity from its generating resources to its loads. However, whenever it was not prudent to build a new transmission system, the District acquired contract rights on transmission systems owned by others. In addition to utilizing its transmission system to deliver electricity from its generating resources, the District uses its transmission system to access generation resources produced by others to sell excess electricity, and to transmit energy for others when surplus transmission capacity is available.

The District, along with other utilities in Arizona, New Mexico, Colorado, Wyoming, Nevada, Southern California and West Texas, has developed a regional transmission organization known as WestConnect to focus on the design and implementation of regional wholesale market and transmission enhancements. The utilities in WestConnect include both Federal Energy Regulatory Commission ("FERC") jurisdictional and non-jurisdictional entities. They have developed and implemented wesTTrans.net, a common computer web site for transmission reservation used by 23 utilities throughout the West, an extensive regional transmission planning process, and a process for periodic review of transmission providers' transmission transfer capability methodology and calculations.

Fuel Supply. The District's projected use of fuel and other energy sources by type is shown on the following table, which summarizes the District's various sources of energy assuming the most efficient utilization of the facilities expected to be available for the dates indicated.

TABLE 5 — Summary of Projected Energy Sources
(expressed as a percentage of total sources)

| <u>Fiscal Year</u> <u>Ending April 30,</u> | <u>Hydro(1)</u> | <u>Gas/Oil</u> | <u>Coal</u> | <u>Nuclear</u> | <u>Renewables</u> | <u>Long Term</u> <u>Purchases</u> | <u>Other</u> <u>Purchases(2)</u> |
|---|-----------------|----------------|-------------|----------------|-------------------|--------------------------------------|-------------------------------------|
| 2009 | 3.1% | 17.8% | 34.3% | 13.2% | 0.1% | 11.3% | 20.2% |
| 2010 | 3.0% | 16.7% | 35.2% | 12.8% | 0.1% | 11.0% | 21.2% |
| 2011 | 2.9% | 16.3% | 40.0% | 12.7% | 0.1% | 10.0% | 18.0% |
| 2012 | 2.8% | 21.7% | 39.1% | 12.4% | 0.1% | 5.0% | 18.9% |
| 2013 | 2.8% | 24.3% | 38.9% | 12.0% | 0.1% | 2.4% | 19.5% |
| 2014 | 2.7% | 27.2% | 36.8% | 11.7% | 0.1% | 2.5% | 19.0% |

(1) Includes hydro purchases.

(2) Includes renewable energy purchases.

Coal. Hayden Generating Station Unit 2, NGS, Four Corners Generating Station Units 4 & 5, Mohave, and Craig Generating Station Units 1 & 2 are coal-fired generating units. The coal supply contract for the Four Corners Generating Station has been extended to July 2016. The coal supply contract for NGS will expire in April 2011, and for the Hayden Generating Station at the end of 2011. The two coal supply contracts for the Craig Generating Station expire July 1, 2014 and December 31, 2017, respectively. The District believes it will be able to obtain coal from these or other sources for the remainder of the depreciable life of each plant. Approximately 20% of the coal requirements for Units 1 & 2 of the Craig Generating Station are purchased periodically through spot market solicitations. The District expects to solicit proposals for coal supplies for Springerville Unit 4 in early 2008. See "THE ELECTRIC SYSTEM — Existing and Future Resources — *Mohave Generating Station*" for further discussion of the Mohave Generating Station.

For years 2007 through 2015, Rio Tinto Energy America formerly known as Kennecott Energy, will provide the coal required by the Coronado Generating Station ("CGS"), up to an 81% capacity factor, with anything above that being obtained from the spot market. The District believes it can continue to meet the coal requirements for CGS.

Except for Mohave, whose coal supply contract expired at the end of 2005, the stockpiles of coal for all coal-fired generating stations are at or above acceptable levels for normal operations.

There are a number of disputes involving either litigation or arbitration concerning the coal supply agreements at the NGS and Mohave. The District does not believe that these disputes will have material adverse effects on its operations or financial condition. However, final resolution of any of these disputes cannot be predicted at this time. See "LITIGATION — Coal Supply" for additional discussion of coal supply litigation or arbitration.

Natural Gas. The District utilizes natural gas almost exclusively to fuel its oil or gas-fired units in the Phoenix-Mesa MSA and plans to continue to do so as long as natural gas remains available at costs that are economically favorable over other alternatives. The District purchases natural gas pursuant to energy risk management policies and trading strategies designed to minimize financial and operational risk while ensuring that sufficient gas is available to serve the customers of the District.

Natural gas price hedging is primarily accomplished through the use of financial instruments such as exchange-traded futures and options contracts and "over the counter" swaps and options contracts. Hedging activities focus on a rolling two to three year period into the future relative to the District's retail customer demand. See "CERTAIN FACTORS AFFECTING THE ELECTRIC UTILITY INDUSTRY — District's Position Regarding Utility Industry Developments — Energy Risk Management Program" herein, for a discussion of the District's Risk Management Program.

Natural gas storage contracts are utilized to balance supply and demand as well as help manage price risk and ensure reliable delivery. Natural gas is delivered to the District's generating facilities via transportation contracts with El Paso Natural Gas Company. In addition, the District has entered into a fifteen-year transportation contract with Transwestern Pipeline Company ("Transwestern") and will start transporting a portion of the District's natural gas supply under that contract in 2008. Additionally, the District encourages parties to consider development of natural gas storage fields in Southern Arizona.

In October 2007, the District entered into a 30-year gas purchase agreement with the Salt Verde Financial Corporation, an Arizona nonprofit corporation, to purchase approximately 20% of its projected natural gas requirements needed to serve retail customers. The District is obligated to pay only for the gas delivered under this contract.

Nuclear. The nuclear fuel cycle for PVNGS is comprised of the following stages: the mining and milling of uranium ore to produce uranium concentrates; the conversion of uranium concentrates to uranium hexafluoride; the enrichment of uranium hexafluoride; the fabrication of fuel assemblies; the utilization of fuel assemblies in reactors; and the storage and disposal of spent fuel. APS, on behalf of APS, the District, EPE, SCE, PNM, SCPPA, and LADWP (the "Palo Verde Participants"), has procured under contract 100% of the materials and services required to provide uranium concentrates through the year 2008, 100% of the requirements for conversion services through 2008, 100% of the requirements for the enrichment services through 2010, and 100% of the requirements for fabrication services through 2016. APS is examining uranium supplies and fuel conversion and enrichment services to reduce risks associated with any single component of the supply chain and to better position the Palo Verde Participants when the existing contracts begin to expire.

See "CERTAIN FACTORS AFFECTING THE ELECTRIC UTILITY INDUSTRY — Nuclear Plant Matters" herein, which includes further discussion on spent nuclear fuel.

Insurance and Liability Matters

The liability exposure of electric utilities has generally increased over time as the diversity and number of claims and resulting awards have increased. Electric utility insurance needs have increased accordingly in the areas of coverage and policy limits. In general, over the long-term, the commercial insurance market has not satisfied these increased needs. The commercial insurance market is highly cyclical, with cycles characterized by periods of increasing limits and coverage with lower deductibles, followed by periods of coverage and limit restrictions, higher deductibles and, in some cases, non-renewals or cancellations. As a result, several industry mutual companies have been formed to serve the coverage and limit requirements of the industry, and the District has placed a majority of its liability and directors and officers insurance with such mutual carriers to ensure long-term stability of its insurance programs. The District does continue to place some liability coverages in the commercial market. Additionally, in 2004 the District established SRP Captive Risk Solutions, Limited, a wholly-owned subsidiary, to provide insurance coverage for claims in excess of \$1,000,000, and for terrorist risks.

Insurance for boiler and machinery and property risks in the past was obtained primarily from the commercial market, but an increasing portion of that coverage is now being placed with industry mutual companies. The District believes it has adequate coverage and limits, although insurer competition in the commercial market has been declining due to increasing utility loss experience, consolidation of insurers and declining investment income. These factors, as well as catastrophic losses such as the destruction of the World Trade Center and natural disasters such as Hurricane Katrina, have periodically resulted in higher premiums and deductibles and restricted limits and coverage. The District intends to continue the use of commercial carriers to insure machinery and property risks and to expand the use of industry mutual insurance companies to the extent adequate capacity is available. In response to the tragic events at the World Trade Center in New York on September 11, 2001, the District has taken additional security measures to protect its Electric System and other assets.

Environmental Matters

General. The District's policy is to conduct its operations in compliance with all applicable federal, state, tribal, and local laws, regulations, and rules relating to the environment. The District has implemented a comprehensive compliance assurance program, including audits, to meet that goal. However, due to continued changes resulting from legislative, regulatory and judicial actions, there is no assurance that facilities owned by the District will remain subject to the regulations currently in effect, will always be in compliance with future regulations, or will always be able to obtain all required operating permits. An inability to comply with environmental regulations could result in additional capital expenditures to comply, reduced operating levels, or the complete shutdown of individual electric generating units not in compliance.

See "CERTAIN FACTORS AFFECTING THE ELECTRIC UTILITY INDUSTRY – Environmental" for further discussion of environmental issues.

See "THE ELECTRIC SYSTEM — Environmental Matters — *Navajo Generating Station and Four Corners Generating Station Units 4 & 5*" below for a discussion of administration of federal environmental laws by Indian tribes.

Waste Management. Many normal activities in connection with the operation of the Project generate hazardous and non-hazardous wastes. Federal, state, and local laws and regulations governing waste management impose strict liability for cleanup costs and damages resulting from hazardous substance release or contamination, regardless of time or location, on those who generate, transport, store, treat, or dispose of hazardous wastes. At any given time, various Project facilities may be subject to inspection by federal, state, or local regulatory authorities to determine compliance with laws and regulations pertaining to hazardous and non-hazardous waste management, and Project facilities may be included in studies of contaminated sites by federal and state regulatory authorities. The District has established a plan for managing hazardous waste to ensure compliance with applicable laws and regulations, and independently assesses its facilities to determine whether there is any contamination resulting from its activities. From time to time the District and the Association receive inquiries from regulatory authorities about the status of various contaminants at the District's facilities, and respond as appropriate.

Water Quality. Arizona has an extensive regulatory system governing water quality, including permit programs for discharges to surface water and to groundwater, and a superfund program to clean up groundwater contamination. Twelve state superfund sites and seven federal superfund sites have been established within the greater Phoenix metropolitan area. The Association has agreed with other responsible parties to clean up one federal superfund site, and preliminary reports have identified one District facility as a possible source of contamination for another federal superfund site. The full impact, in terms of cost and operational problems, to the District of the reports or laws and regulations pertaining to water quality cannot be quantified at this time.

See "THE DISTRICT — Irrigation and Water Supply System" above for a discussion of well remediation activities.

See "THE ELECTRIC SYSTEM — Environmental Matters — *Navajo Generating Station and Four Corners Generating Station Units 4 & 5*" below for a discussion of administration of federal environmental laws by Indian tribes.

See "LITIGATION — Environmental Issues — *Superfund Site*" for discussion of the Motorola 52nd Street Superfund site.

Air Quality. In common with other electric utilities and industries, the District is subject to federal, state, and local standards to control emissions to protect air quality. At the locations of the principal coal-fired generating units now in operation, the federal agencies place a high emphasis on preserving air quality and visibility at large national parks, monuments, wilderness areas and Indian reservations; since many of the District's coal-fired generating stations are located in the vicinity of these federal lands, those generating stations may be subject to particularly stringent control standards. These standards substantially increase the cost of, and add to the difficulty of siting, constructing, and operating electric generating units. Environmental requirements regarding air emissions have been changing and are anticipated to change substantially in the future. Possible future legislative or regulatory mandates related to "Clear Skies" or other federal Clean Air Act legislation and climate change initiatives may result in requirements for further reductions of emissions that are currently regulated, like SO₂, NO_x, particulate matter and mercury, as well as reductions of emissions of gases and substances not presently regulated, like CO₂. Additionally, regional climate change initiatives may drive state-level regulation. For example, in February 2007, the Governor of Arizona, along with the governors of five other western states, as well as several Canadian provinces, launched the Western Climate Initiative to establish a regional greenhouse gas reduction goal and develop market-based strategies to achieve emissions reductions. Management is aggressively pursuing strategies to develop facilities to provide renewable and low-carbon intensity generation capacity and continues to monitor legislative and regulatory developments and provide comments.

Based on currently available information, the District cannot estimate or predict its costs to comply with these proposals and goals, but believes that such costs could be material. See "CERTAIN FACTORS AFFECTING THE ELECTRIC UTILITY INDUSTRY – Environmental".

See "THE ELECTRIC SYSTEM — Environmental Matters — Navajo Generating Station and Four Corners Generating Station Units 4 & 5" below for a discussion of administration of federal environmental laws by Indian tribes.

Navajo Generating Station and Four Corners Generating Station Units 4 & 5. Certain environmental laws, including the Clean Air Act (the "CAA"), the Clean Water Act, and the Safe Drinking Water Act, contain provisions pursuant to which Indian tribes may be treated as states for purposes of administering programs under those acts. The Navajo Nation has obtained EPA approval to administer programs under some of these laws. However, the EPA has not included NGS or the Four Corners Generating Station in the lands covered by approved tribal programs because of a dispute over the effect of covenants in the Leases and Grants between the Navajo Nation and the plants, which state that the Navajo Nation will not regulate the plants. The Arizona Department of Environmental Quality has advised the District that it is no longer regulating environmental matters relating to NGS since the plant is located on the Navajo Indian Reservation. In general, NGS and the Four Corners Generating Station are regulated by EPA Region IX in San Francisco, California, and comply with applicable federal regulations. However, the District and APS, as operating agents for these plants, have entered into a Voluntary Compliance Agreement with the Navajo Nation that establishes contractual authority for the Navajo Nation to issue permits and regulate air emissions at NGS and Four Corners under certain rules not stricter than those of the EPA. See "LITIGATION — Environmental Issues — *Navajo Environmental Laws*," for further discussion of the Navajo Nation's environmental laws and the related lawsuits.

ELECTRIC PRICES

Under Arizona law, the District's publicly elected Board has the authority to establish electric prices. While the Articles of Incorporation of the Association provide that the Secretary of the Interior may revise electric prices, the Secretary of the Interior has never requested any revision of the District's electric prices. The District is required to follow certain procedures for public notice and a special Board meeting before implementing any changes in the standard electric price plans.

The District is a summer peaking utility and for many years has made an effort to balance the summer-winter load relationships through seasonal price differentials. In addition, the District prices on a time-of-day basis for large commercial and industrial, and certain residential and small commercial, users.

The District historically operated in a highly regulated environment in which it had an obligation to deliver electric service to customers within its service area. In 1998 the Arizona Electric Power Competition Act (the "Competition Act") authorized competition in the retail sales of electric generation, recovery of stranded costs, and competition in billing, metering and meter reading. While retail competition was available to all customers by 2001, there were only a few customers who chose an alternative energy provider. Those customers have since returned to their incumbent utilities. At this time, there is no active retail competition within the District's service territory or, to the knowledge of the District, within the State of Arizona. However, during the past two years, two retail energy service providers, one meter reading service provider and one meter service provider have reapplied to the Arizona Corporation Commission for authorization to sell energy in Arizona. These cases are pending.

The District has a Fuel & Purchased Power Adjustment Mechanism ("FPPAM") to allow for semi-annual rate adjustments to recover increases in actual fuel costs and a Transmission Cost Adjustment Factor ("TCAF") to recover costs the District would incur if the District were required to participate in regional transmission organizations. The District Board last approved an FPPAM increase on October 1, 2007, which resulted in a 4.7% system average increase in prices, effective November 1, 2007. To date, no costs have been incurred or recovered through the TCAF.

In April 2005, the District Board authorized the creation of a Rate Stabilization Fund ("RSF") to be used in concert with the FPPAM to cover fuel related expenses and to stabilize future prices related to fuel. Since the time of initial authorization, the District has funded the RSF three times and transferred \$165 million, plus interest, from the RSF to the District's General Fund to address a portion of fuel and purchased power expenses for fiscal years 2007 and 2008.

On January 4, 2008, SRP management initiated a public process to increase overall price levels by 3.9% and implement design changes to the price plans. The District Board will consider management's proposal at two Board

meetings in March 2008. The price increase and design changes, if approved, are proposed to be effective May 1, 2008.

CAPITAL IMPROVEMENT PROGRAM

The Capital Improvement Program is a moving six-year forecast of all District construction expenditures, and is subject to change from time to time for several reasons, including changes in construction costs, projects being added, deleted, deferred or completed and changes in the period covered by the forecast.

The 2009 through 2014 Capital Improvement Program totals approximately \$6.1 billion. Of this total, approximately \$5.8 billion is for construction (including contingencies), \$110.3 million is for capitalized administrative and general expenses, \$1.6 million is for capitalized voluntary contributions in lieu of taxes, and \$201.3 million is for capitalized interest. In the past, the District has paid a portion of the cost of the Capital Improvement Program from internally generated funds and a portion from the proceeds of Revenue Bonds. The District anticipates funding approximately 57% of the 2009 through 2014 Capital Improvement Program from internally generated funds. The remainder is anticipated to be funded by Revenue Bonds, other forms of indebtedness and third party contributions.

The Capital Improvement Program is driven by the need to expand the generation, transmission and distribution systems of the District in order to meet growing customer electricity needs and to maintain a satisfactory level of service reliability. Of the approximately \$6.1 billion Capital Improvement Program, approximately \$2.7 billion is directed to generating projects. These include the construction of Springerville Unit 4 Generating Station, the addition of a gas peaking plant and other future generation facilities. Approximately \$1.6 billion is planned for expansion of the electrical distribution system to meet new growth and to replace aging underground cable. The addition of new 69kV transmission facilities and the construction of a new high voltage transmission line account for part of the \$620 million planned expenditures for transmission.

To provide for uncertainties in construction costs (including possible schedule changes, and other factors that may affect construction costs) and to provide a scope allowance for projects that may be needed in the future but are not yet identified, the District has included a general contingency allowance in the 2009 through 2014 Capital Improvement Program in addition to specific contingency allowances provided for major construction projects. No assurance is given that the estimated costs and contingency allowance will be adequate for their purposes.

Table 6 summarizes the District's 2009 through 2019 Capital Improvement Program.

TABLE 6 — 2009 through 2014 Capital Improvement Program

SELECTED OPERATIONAL AND FINANCIAL DATA

Customers, Sales, Revenues and Expenses

Classification of Customers. The District has a diversified customer base. No one retail customer represents more than 1.2% of operating revenues. The classifications of the District's electric customers are shown in Table 7.

Unless otherwise indicated, the financial information included below pertains solely to the District and is not prepared on a combined basis consisting of the District and the Association.

TABLE 7 — Fiscal Year 2007 Customer Accounts, Sales, and Revenues

(1) Wholesale figure shown is adjusted to exclude bookouts.

(2) Totals may not add correctly due to rounding.

As has been historically the case, the residential group of customers accounted for the largest energy consumption. With 830,735 customers at April 30, 2007, this group serves as a solid base, bringing in approximately 45% of total retail electric revenues.

The second largest retail customer classification is the commercial and small industrial group; these customers numbered 79,435 at April 30, 2007 against 72,598 twelve months earlier. The commercial and small industrial group represents a highly diverse customer base, which includes businesses such as newspapers, dentists, cosmetics, fast food, repair shops, schools, apartments, and grocery stores. The remaining customer categories span a wide range of customers and industries, which include manufacturers, government contractors, gas and chemical producers, agricultural interests, and municipalities.

Historical Operating Statistics. The following table shows certain historical operating statistics of the District for the five years ended April 30, 2007.

TABLE 8 — Historical Operating Statistics

- (1) Includes inter-company sales and other electric revenue.
- (2) Excludes charges for water for power, depreciation on generation and railroad facilities, ad valorem taxes and voluntary contributions in lieu of taxes on railroad facilities.
- (3) Excludes depreciation on generation, transmission, distribution and general plant.
- (4) Applies to out-of-state properties owned by the District.
- (5) District operating expenses and net operating revenues as presented are not in accordance with generally accepted accounting principles ("GAAP") due to the exclusion of depreciation expense and voluntary contributions in lieu of taxes.
- (6) See "SELECTED OPERATIONAL AND FINANCIAL DATA — Customers, Sales, Revenues and Expenses — *Voluntary Contributions in Lieu of Taxes.*"
- (7) Includes sales for resale, remote losses and interruptible load transactions.
- (8) System load factor is the ratio of system energy requirements in kWh to the product of the system requirements times the number of hours in a year. These percentages reflect in major part the wide differential between the extreme summer cooling season and the moderate winter heating season.
- (9) Total operating revenues and fuel and purchased power have been adjusted for the effects of EITF 03-11 starting in fiscal year 2003 and SFAS No. 133 beginning in fiscal year 2002.

Voluntary Contributions in Lieu of Taxes. In accordance with permissive legislation, the District makes voluntary contributions each year to the State of Arizona, school districts, cities, counties, towns and other political subdivisions of the State of Arizona, for which property taxes are levied and within whose boundaries the District

has property devoted to furnishing electric service. As a political subdivision of the State of Arizona, the District is exempt from property taxation. The amount paid is computed on the same basis as ad valorem taxes paid by a private utility corporation with allowance for certain water-related deductions. Contributions based on the costs of construction work in progress are capitalized, and those based on plant-in-service are expensed.

The Arizona Department of Revenue (ADOR) challenged the District's exclusion of contributions in aid of construction (CIAC) in calculating the total value of District property for purposes of computing voluntary contributions in lieu of taxes ("in lieu contributions") paid by the District. While the District obtained a favorable ruling from the Arizona State Board of Equalization, the Arizona Tax Court subsequently rendered a favorable decision to the ADOR on appeal. The District appealed the decision of the Arizona Tax Court to the Arizona Court of Appeals. The Court of Appeals ruled in the District's favor on January 19, 2006. The ADOR filed a petition for review of this decision with the Arizona Supreme Court, which was denied. The denial ends the litigation.

At issue had been the District's liability for approximately \$13.8 million plus interest for fiscal years 2003 (four months), 2004 (12 months), and 2005 (8 months). For calendar years 2005 and forward, legislation was passed that codified the exclusion of CIAC from the in lieu contributions formula.

The Arizona Legislature also passed legislation that reduces the assessment ratio for calculation of in lieu contributions in Arizona beginning in calendar year 2006. The rate of 25% that was in effect prior to calendar year 2006 will be reduced to 20% over a 10-year period. Because the tax year is based on a calendar year, fiscal year 2007 will be the first full fiscal year for the District, with a continual reduction through fiscal year 2016, when the assessment ratio reaches 20%. The legislation reducing the assessment ratio to 20% is expected to produce a cumulative savings of approximately \$1.5 million per year.

Contractual Obligations Relating to Bonds of Other Political Subdivisions. The District has payment obligations under certain long-term contracts that secure Debt Service payable on bonds issued by another Arizona political subdivision. The District entered into power sales contracts in 1990 and 1991 with WAPA, USBR and CAWCD for the purchase of a total of 350 MW of peaking power. CAWCD's rights to receive payments from the District under these power sales contracts have been assigned to secure the payment of debt service on certain contract revenue bonds issued by CAWCD at varying interest rates per maturity and with a final maturity of 2011. The outstanding principal amount of these CAWCD bonds at December 31, 2007, was approximately \$41.2 million. As of December 31, 2007, payment by the District for the remainder of the power sales contracts with CAWCD totaled \$94.5 million. Payments under the power sales contracts will be made on a monthly basis for power available through September 30, 2011. The District is obligated under the power sales contracts with WAPA, USBR and CAWCD to pay each month for its allocated capacity at a capacity charge of \$6 per kilowatt per month for the period beginning on the date of initial service and ending September 30, 2011. The power sales contracts provide that this obligation of the District is absolute and unconditional and constitutes a general obligation of the District and not a special charge, lien, or pledge of the revenues of the Electric System. The power sales contracts also provide that the District may pay the capacity charge from the revenues of the Electric System as an operating expense so long as no "long-term forced outage" (as defined in the power sales contracts, being an outage or curtailment which reduces the District's contract capacity to 70% or less for an uninterrupted period exceeding 30 days) occurs and is continuing. During a long-term forced outage, the power sales contracts provide that the District will make the payments from its General Fund.

See "THE ELECTRIC SYSTEM — Existing and Future Resources — *Purchased Power*" herein.

Additional Financial Matters

Short-Term Promissory Notes and Credit Agreement Borrowings. The District's Board has authorized the issuance of up to \$475 million in short-term promissory notes (the "Promissory Notes"). The Promissory Notes are being sold in the tax-exempt commercial paper market. The Promissory Notes mature no more than 270 days from the date of issuance. The Promissory Notes are issued in minimum denominations of \$100,000, in bearer or registered form without coupons, and bear interest from their date at an annual interest rate not in excess of 15%.

The District has a revolving credit agreement (the "Agreement"), which may be used to support the Promissory Notes. The indebtedness of the District evidenced by the Promissory Notes or borrowings under the Agreement are unsecured obligations of the District payable from the general funds of the District lawfully available therefor,

subject in all respects to the prior lien of U.S. Government Loans, if any, revenue bonds and other indebtedness of the District secured by revenues or assets of the District. No specific revenues or assets of the District are pledged to the payment of the Promissory Notes or borrowings under the Agreement, and the Promissory Notes and such borrowings are not payable from taxes. Outstanding Promissory Notes and borrowings under the Agreement are accounted for by the District as long-term debt. The Agreement expires on December 7, 2009. At December 31, 2007, the District had no outstanding borrowings under the Agreement or prior credit agreements and had \$475 million of the Promissory Notes outstanding. The District has limited the total amount of indebtedness which may be outstanding at one time under the Agreement, or any agreement in substitution or replacement therefore, and in the tax-exempt commercial paper market to an aggregate of \$475 million. However, the District has the right to issue commercial paper in excess of \$475 million if it obtains additional liquidity/credit facility equal to such additional commercial paper.

On December 18, 2003, DBIT issued \$282,680,000 aggregate principal amount of Certificates of Participation (the "Certificates") evidencing direct undivided interests in rental payments made by the District pursuant to a Lease Purchase Agreement with DBIT for Desert Basin (the "Finance Lease"). The Certificates are unsecured obligations of the District, payable from lease payments to be made by the District from general funds of the District lawfully available therefor, subject in all respects to the prior lien of U.S. Government Loans, if any, revenue bonds and other indebtedness of the District secured by revenues or assets of the District. See "THE ELECTRIC SYSTEM — Existing and Future Resources — *Desert Basin Generating Station*" for further discussion of the funding of Desert Basin.

No Default. The District is not in default in the payment of the principal of or interest on any of its bonds, notes, or other debt obligations.

Eight Months Ended December 31, 2007 – Unaudited.

(1) Totals may not add due to rounding.

(2) Debt Service and Finance Lease payment amounts are for the years in which they accrue, not for the years in which they are paid, except for Capital Appreciation Bonds.

The following table shows the actual application of revenues and coverage of Debt Service requirements for fiscal years 2004, 2005, 2006 and 2007.

TABLE 12 — Historical Application of Revenues and Coverage of Debt Service Requirement
((\$000's - Unaudited))

| | Fiscal Years Ended April 30 | | | |
|--|-----------------------------|-------------------|-------------------|-------------------|
| | Actuals | | | |
| | <u>2007(1)</u> | <u>2006(1)</u> | <u>2005(1)</u> | <u>2004(1)</u> |
| Electric Revenues (2) | \$ 2,736,831 | \$ 2,794,025 | \$ 2,400,410 | \$ 2,156,754 |
| Operating Expenses (2) (3) (4) | 1,900,035 | 1,948,830 | 1,559,973 | 1,437,865 |
| Revenues from Operations | 836,796 | 845,195 | 840,437 | 718,889 |
| Interest and Other Income (Net) | 77,051 | 55,459 | 29,443 | 18,803 |
| Revenues Available for Debt Service | 913,847 | 900,654 | 869,880 | 737,692 |
| Rate Stabilization Funds | 25,599 | 1,892 | 55,000 | -- |
| Revenues Available for Debt Service on Revenue Bonds and Subordinated Debt | <u>888,248</u> | <u>898,762</u> | <u>814,880</u> | <u>737,692</u> |
| Debt Service Requirements Revenue Bonds | 241,546 | 337,980 | 322,383 | 360,704 |
| Debt Service Requirements Subordinated Debt | <u>46,378</u> | <u>33,844</u> | <u>18,733</u> | <u>8,278</u> |
| Total Debt Service | 287,924 | 371,824 | 341,116 | 368,982 |
| Coverage of Total Revenue Bond Debt Service (5) | 3.78 | 2.66 | 2.70 | 2.05 |
| Coverage of Total Debt Service (6) | 3.09 | 2.42 | 2.39 | 2.00 |
| Balance after Debt Service | 600,324 | 526,938 | 473,764 | 368,710 |
| Plus: Interest on Construction Fund | 11,705 | 3,388 | 107 | 988 |
| Less: Contribution in Lieu of Taxes | 61,636 | 69,220 | 72,100 | 64,818 |
| Less: Contributions to Water Operations | 34,792 | 34,161 | 56,672 | 62,925 |
| Less: Falling Water Charges (7) | <u>21,192</u> | <u>18,273</u> | <u>6,870</u> | <u>2,747</u> |
| Balance Available for Corporate Purposes | <u>\$ 494,409(8)</u> | <u>\$ 408,672</u> | <u>\$ 338,229</u> | <u>\$ 239,208</u> |

(1) Includes inter-company sales.

(2) Electric Revenues and Operating Expenses do not include the effects of EITF 03-11 and SFAS No. 133.

(3) Includes ad valorem taxes applicable to out-of-state properties owned by the District and payroll taxes. Excludes depreciation, voluntary contributions in lieu of taxes and inter-company charge for water for power and includes price increases.

(4) Operating expenses include costs on an accrual basis for post-retirement medical benefits and demand charges related to the contract for Navajo Surplus.

(5) Figures derived by dividing line "Revenues Available for Debt Service" by line "Debt Service Requirements Revenue Bonds."

(6) Figures derived by dividing line "Revenues Available for Debt Service on Revenue Bonds and Subordinated Debt" by line "Total Debt Service."

(7) The charges by the Association for water used in hydroelectric generation.

(8) May be reconciled with combined net revenues for 2007 (shown on page A4) as follows :

(\$000's -Unaudited)

| Amortization of bond accretion | (651) |
| Amortization of bond discount/premium, issuance, and refinancing expenses..... | <u>6,181</u> |
| Net Revenues before impact of SFAS No. 133 and gain on sale of available-for-sale securities..... | 320,560 |
| Impact of SFAS No. 133 implementation | 47,230 |
| Gain on sale of available-for-sale securities..... | -- |
| COMBINED NET REVENUES..... | <u>\$ 367,790</u> |

CERTAIN FACTORS AFFECTING THE ELECTRIC UTILITY INDUSTRY

General

The electric utility industry in general has been, and in the future may be, affected by a number of factors which could impact upon the business affairs, financial condition and competitiveness of an electric utility and the level of utilization of generating facilities, such as those of the District. One significant factor is the effort on national and local levels to restructure the electric utility industry from a heavily regulated monopoly to an industry in which there is open competition for power supply and transmission. Other factors include, among others, (i) effects of compliance with rapidly changing environmental, safety, licensing, regulatory and legislative requirements, (ii) changes resulting from conservation and demand-side management programs on the timing and use of electric energy, (iii) changes that might result from national energy policies, (iv) increased competition from independent power producers, (v) "self-generation" by certain industrial and commercial customers, (vi) issues relating to the ability to issue tax-exempt obligations, (vii) severe restrictions on the ability to sell to nongovernmental entities electricity from generation projects financed with outstanding tax-exempt obligations, (viii) changes from projected future electricity requirements, (ix) increases in costs, (x) shifts in the availability and relative costs of different fuels, (xi) effects of the financial difficulties confronting the power marketers, and (xii) costs resulting from attempts to change the way the transmission providers operate. Any of these factors (as well as other factors) could affect the financial condition of any given electric utility and likely will affect individual utilities in different ways.

The District cannot predict what effects these factors will have on its business, operations and financial condition, but the effects could be significant. The following is a brief discussion of certain of these factors. However, this discussion does not purport to be comprehensive or definitive, and these matters are subject to change subsequent to the date of this Official Statement. Extensive information on the electric utility industry is, and will be, available from sources in the public domain, and potential purchasers of the securities of the District should obtain and review such information.

Certain FERC Initiatives and Federal Legislation

In 1996, FERC, which regulates the wholesale electric utility industry under the authority of various statutes, issued Orders 888 and 889 requiring transmitting "public utilities" (as defined in the Federal Power Act), to provide nondiscriminatory transmission services to entities seeking to effect wholesale power transactions, and to grant equal access to information concerning the pricing and availability of transmission services. The District is not a public utility under the Federal Power Act but historically has complied with these requirements voluntarily. The Energy Policy Act of 2005 (the "Energy Policy Act") expanded FERC jurisdiction by granting FERC discretionary authority to regulate the non-rate terms and conditions, and to a lesser extent, rates, under which unregulated transmitting utilities (including the District) provide wholesale transmission services. The Energy Policy Act explicitly prohibits FERC from requiring unregulated transmitting utilities to take actions that would violate a private activity bond rule. In its Order 890, issued in February 2007, FERC declined to generically implement its discretionary authority over unregulated transmitting utilities (including the District). FERC determined the authority would be used on a case-by-case basis. The District does not expect Order 890 to result in significant adverse impacts on its operations. See "District's Position Regarding Utility Industry Developments" herein.

Competition in Arizona

The Electric Power Competition Act. In May 1998, the Arizona Legislature enacted the Competition Act, which applies to public power entities, like the District. The Competition Act authorized competition in the retail sale of electric generation, recovery of stranded costs, and competition in billing, metering and meter reading. While retail competition was available to all customers in 2001, there were only a few customers who chose an alternative energy provider. Those customers have since returned to their incumbent utilities. At this time, there is no active retail competition within the District's service territory or, to the knowledge of the District, within the State of Arizona.

The Arizona Corporation Commission. The ACC regulates investor-owned and cooperatively-owned utilities, called public service corporations in Arizona. The Arizona Legislature, in the Competition Act, directed the ACC to adopt rules for competition similar to what the Arizona Legislature had enacted for public power entities.

In 1999, the ACC issued its final rules for retail electric competition, which allowed customers to be eligible for competitive electric service based on certain phased-in schedules set by the ACC. The District Board had already adopted a resolution in December 1998 allowing electric service providers certificated by the ACC to market in the District's service territory. The rules and other aspects of competition by investor-owned utilities were challenged in the courts, and in January 2004, the Arizona Court of Appeals found numerous provisions of the ACC's rules to be invalid. The ACC has taken no action to modify its electric competition rules to address the ruling of the Court of Appeals. Nevertheless, during the past two years, two retail energy service providers, one meter reading service provider, and one meter service provider have applied to the Arizona Corporation Commission for authorization to sell energy in Arizona. These applications are pending.

District's Position Regarding Utility Industry Developments

Federal and State Deregulation. In response to FERC's rule for nondiscriminatory access to transmission, the District filed with FERC a transmission tariff which would ensure the District's access to the transmission systems of public utilities. The District has also entered into an agreement with other utilities in Southern California, Arizona, New Mexico, Nevada, far west Texas, Colorado and Wyoming, to facilitate development of wholesale market enhancements that would improve transmission and wholesale energy markets. See "THE ELECTRIC SYSTEM — Existing and Future Resources — *Transmission*."

Effective December 31, 1998, the District introduced unbundled pricing plans. For retail customers who were unable or unwilling to choose competitive electric generation, prices reflected a decrease of at least 10% over a 10-year period, apportioned among customer classes. For a more detailed discussion of pricing issues, see "ELECTRIC PRICES."

Strengths of the District/Competitive Business Strategy. The District has several strengths as well as a competitive business strategy, which positions it well to deal with the effects of the restructuring of the utility industry. The District has retained its existing vertically integrated infrastructure; it has retained 100% of its existing generation assets and is developing additional resources to keep up with its load growth. The fuel sources for existing generation are diversified, and planned additions include coal as well as gas resources. See "THE ELECTRIC SYSTEM — Existing and Future Resources" and "THE ELECTRIC SYSTEM — Projected Peak Loads and Resources" herein.

The District has prepared for increased competition in the utility industry for well over a decade. These results have been achieved through initiatives that included extensive debt refinancing, renegotiation of fuel supply agreements, staff reductions, implementation of numerous operating efficiencies and enhancing services provided to the District's customers. The District also has a diversified customer base and no single customer provides more than 1.2% of its operating revenues. See "SELECTED OPERATIONAL AND FINANCIAL DATA — Customers, Sales, Revenues and Expenses" herein.

The District is regulated by an independent, publicly-elected Board of Directors which approves its capital budgets and electric price structure. Together the Board and management developed various initiatives in response to the restructuring in the industry. See "THE DISTRICT — Organization, Management and Employees" herein.

The District has conducted studies, which have shown that customers with high loyalty rates are less likely to select another generation provider. Consequently, the District has implemented projects and programs geared towards enhancing "customer loyalty" by offering them a range of pricing and service options. Moreover, the District is one of the low-cost price leaders in the Southwest. See the discussion of price initiatives under "ELECTRIC PRICES." The District received the J.D. Power & Associates Award in 1999, 2000, 2002, 2003, 2004, 2005, 2006 and 2007 for the highest score for residential customer satisfaction in the West. The District also scored highest in customer satisfaction for business electric service among electricity providers in the western United States for 2004, 2005 and 2006.

Energy Risk Management Program. The cornerstone of the District's risk management approach is its mission to serve its retail customers. This means that the District builds or acquires resources to serve retail customers, not the wholesale market. However, as a summer peaking utility, there are times during the year when the District's resources exceed its retail load, thus giving rise to wholesale activity. The District has an Energy Risk Management Program to limit exposure to risks inherent in retail and wholesale energy business operations by identifying,

measuring, reporting, and managing exposure to market, credit, and operational risks. To meet the goals of the Energy Risk Management Program, the District uses various physical and financial instruments, including forward contracts, futures, swaps, and options. Certain of these activities are accounted for under Statement of Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended ("SFAS No. 133"). Under SFAS No. 133, derivative instruments are recorded in the balance sheet as either an asset or liability measured at their fair value. The standard also requires that changes in the fair value of the derivative be recognized each period in current earnings or other comprehensive income depending on the purpose for using the derivative and/or its qualification, designation and effectiveness as a hedging transaction. Most of the District's contractual agreements qualify for the normal purchases and sales exception allowed under SFAS No. 133 and are not recorded at market value.

The Energy Risk Management Program is managed according to a policy approved by the District's Board of Directors, and overseen by a Risk Oversight Committee. The Risk Oversight Committee is composed of senior executives. The District maintains an Energy Risk Management Department separate from the energy marketing area. The Energy Risk Management Department regularly reports to the Risk Oversight Committee. The policy established by the Risk Oversight Committee addresses market, credit and operational risks.

Environmental

Electric utilities are subject to federal, state and local environmental regulations which continually change due to legislative, regulatory and judicial actions. Consequently, there is no assurance that facilities owned by the District will remain subject to the regulations currently in effect, will always be in compliance with future regulations, or will always be able to obtain all required operating permits. The need to comply with environmental regulations could result in additional capital expenditures to comply, reduced operating levels, or the complete shutdown of individual electric generating units not in compliance.

The District is also closely monitoring climate change and global warming legislative and regulatory developments. Efforts to cap or tax emissions of carbon dioxide from fossil fuel power plants will substantially increase the cost of, and add to the difficulty of siting, constructing, and operating electric generating units. As a result of legislative and regulatory initiatives, the District is planning emission reductions at its coal-fired power plants. The full significance of air quality standards and emission reduction initiatives to the District in terms of cost and operational problems is difficult to predict, but it is possible that costly equipment will have to be added to units now in operation and that permit fees may increase significantly resulting in potentially material costs to the District.

The EPA issued final regulations for the control of mercury emissions from coal-fired generating stations in 2005. Arizona opted into the federal mercury program in 2006 and imposed additional mercury emissions limitations which would require the District to install additional controls at CGS and Springerville Unit 4 to achieve 90% mercury removal. In addition, the District has been participating with the EPA in the development of a rule to regulate mercury emissions on the Navajo Reservation, where the District owns an interest in two generating stations, NGS and Four Corners. However, on February 7, 2008, the U.S. Court of Appeals, D.C. Circuit, vacated the EPA rules in response to a suit by 11 states that had challenged the rules as not protective enough of public health and contrary to the CAA. If upheld, the court's action will require the EPA to promulgate new mercury rules and, while the District and other industry representatives are evaluating the implications of this ruling, additional controls ultimately will be required at all coal-fired plants in which the District has an interest. The District is still evaluating compliance options and cannot yet estimate the associated costs.

In June 2005, the EPA issued final amendments to its July 1999 regional haze rule. These amendments apply to the provisions of the regional haze rule that require emission controls known as Best Available Retrofit Technology ("BART") for coal-fired power plants and other industrial facilities that emit air pollutants that reduce visibility. The amendments include guidelines for states and tribes to use in determining which facilities must install controls and the types of controls that facilities must use. States and tribes were required to complete BART determinations for eligible facilities by the end of 2007, although Arizona did not meet that deadline and is expected to submit its determination in 2008. BART controls must be installed five years after the EPA has approved a state's BART determination. The District has financial interests in several coal-fired power plants that may be subject to the new BART requirements. The District submitted a BART analysis for NGS to the EPA in November 2007. BART analyses have also been completed for several other coal fired plants in which the District has a financial interest.

We cannot yet predict whether the State's BART determination will be approved when submitted to the EPA, and if so what its financial impact will be on the District.

California has enacted laws that could impact the District. Under one such law, the California Public Utilities Commission (the "CPUC") and the California Energy Commission ("CEC") must implement regulations that, among other things, prohibit procurement of electricity from a coal-fired power plant for five years or longer and restrict investments in coal-fired plants. The Los Angeles Department of Water and Power ("LADWP"), one of the participants in NGS, and SCE, a participant in Four Corners Units 4 and 5, are subject to the regulations and may be precluded from approving certain expenditures at the plants, including capital improvements.

The regulations except expenditures for "routine maintenance"; however, no definition is provided. Recently, SCE petitioned the CPUC to exclude financial contributions required under pre-existing contract obligations for Four Corners. The California Air Resource Board is also developing an economy wide cap-and-trade program for greenhouse gases. Recently, the CPUC and CEC released joint recommendations on how to regulate emissions from the electricity sector. The regulations could impact the District's ability to sell excess generation into California. If the implementing regulations prohibit or penalize the sale of energy generated by a coal-fired plant, the District could lose California as a market for its wholesale generation; however, the District has other options for marketing its wholesale generation.

The District is monitoring and participating in the development of these regulations to determine the full extent of their impact on the District and the plants in which it has an interest. Based on currently available information the District cannot estimate or predict the financial impact of the California laws on the District at this time.

Nuclear Plant Matters

In accordance with the Nuclear Waste Policy Act of 1982, APS contracted with the DOE for waste and spent fuel disposal services. The DOE was responsible for the selection and development of a repository for permanent storage and disposal of spent nuclear fuel not later than December 31, 1998. However, the DOE has delayed submitting an application to construct a permit repository at Yucca Mountain, Nevada until 2008. A decision on licensing is not expected until at least 2010 and the facility is unlikely to open until at least 2017. Because of the significant delays in the DOE's schedule, it cannot be determined when the DOE will accept waste from PVNGS or from the other owners of spent nuclear fuel. It is unlikely, due to PVNGS' position in DOE's queue for receiving spent fuel, that APS will be able to initiate shipments to DOE during the licensed life of the PVNGS. Accordingly, APS has constructed an on-site dry cask storage facility to receive and store PVNGS spent fuel. The facility stored its first cask in March 2003 and through November 2007, has 53 casks in storage.

The Nuclear Regulatory Commission ("NRC") has adopted decommissioning rules which require reactor operators to certify that sufficient funds will be available for decommissioning the contaminated portion of nuclear plants in the form of prepayments or external sinking funds, either of which must be segregated from the licensee's assets and outside its administrative control, or by the surety of insurance payable to a trust established for decommissioning costs. The District is collecting funds through its price plans to decommission its share of PVNGS Units 1, 2 and 3. The District projects that it will accumulate \$416.9 million in 2006 dollars over the life of PVNGS for this purpose. The decommissioning funds are maintained in an external trust in compliance with NRC regulations. The District anticipates being able to continue to collect decommissioning funds in a competitive generation market.

Summary

As discussed above, the electric utility industry is experiencing challenges in a number of areas. The District is unable to predict the extent to which its construction programs and operations will be affected by such factors, but they could result in incurrence of substantial additional costs and could adversely affect its revenues.

LITIGATION

At the time of delivery of and payment for the 2008 Series A Bonds, the law firm of Jennings, Strouss & Salmon, P.L.C., Phoenix, Arizona, legal advisors to the District, will deliver a no-litigation opinion stating substantially that, no litigation is now pending or, to its knowledge threatened, affecting or questioning the organization of the District or the titles or manner of election of the officers or directors of the District to their terms of office, respectively; and no litigation is now pending or, to its knowledge threatened, affecting or questioning the power and authority of the District to issue, execute and deliver the 2008 Series A Bonds or the pledge or application of any moneys or security provided for the payment thereof.

In the normal course of business the District is a defendant in various legal actions. In management's opinion, except as otherwise noted below, the ultimate resolution of these matters will not have a significant adverse effect on the District's financial position or operations.

Environmental Issues

Endangered Species Act. Several species listed under the Endangered Species Act ("ESA") have been discovered in and around Roosevelt and Horseshoe Dams. The District entered into formal negotiations for an Incidental Take Permit ("ITP") with the United States Fish and Wildlife Service ("USFWS"), and developed a Habitat Conservation Plan which would allow full operation of Roosevelt Dam and Reservoir, provided the District mitigates for "taking" of species by the establishment of habitat for the species in other areas or through other measures. The USFWS issued the District an ITP for operation of Roosevelt Dam in 2003. The District has reserved funds, which it believes will be sufficient to implement its Habitat Conservation Plan.

The District is engaged in similar negotiations with the USFWS to obtain an ITP for operation of Horseshoe and Bartlett Dams on the Verde River and anticipates receiving the permit by March 2008.

The USFWS designated "critical habitat" for one of the species affected by operation of the SRP Reservoirs, the Southwestern Willow Flycatcher. The final designation does not encompass lands in or near the SRP Reservoirs.

Navajo Environmental Laws. In 1995, the District, on behalf of the Navajo Generating Station Participants (the "NGS Participants"), filed a lawsuit in the Navajo Nation District Court against the Navajo Nation, its Environmental Protection Agency and the Agency's Director as a result of the defendants' attempts to apply three of the Navajo Nation's environmental laws against NGS and the NGS Participants. These laws are the Navajo Nation Air Pollution Prevention and Control Act, the Navajo Nation Safe Drinking Water Act, and the Navajo Nation Pesticide Act. The District contends that the NGS Plant Site Lease, the Section 323 Grants by the United States for the NGS Plant Site and Railroad, and federal law preclude application of these laws to NGS and the NGS Participants. APS, on behalf of the Four Corners Participants, filed a lawsuit challenging the same laws on similar grounds. Both actions have been served on the defendants; however, all parties agreed to stay the litigation pending settlement discussions.

In July 2000, the District filed a separate action in the Navajo Nation Supreme Court, requesting that the Court review final regulations that were issued by the Navajo Nation Environmental Protection Agency pursuant to the Navajo Air Quality Statute. APS filed a similar petition in a separate action with the Navajo Nation Supreme Court. The Court stayed these proceedings pending settlement discussions.

On May 18, 2005, the District and APS, as operating agents for the NGS and Four Corners Participants, entered into a Voluntary Compliance Agreement with the Navajo Nation to resolve and dismiss those portions of the above lawsuits relating to regulation of air pollution. The agreement establishes contractual authority for the Navajo Nation to regulate air emissions and issue air permits at NGS and Four Corners under rules not stricter than the EPA air rules. As a result, the District and APS have sought dismissal of the Navajo Nation Supreme Court Cases and the air quality counts of the Navajo Nation Tribal Court Cases. See "THE ELECTRIC SYSTEM — Environmental Matters — *Navajo Generating Station and Four Corners Generating Station Units 4 & 5*" for further discussion of Navajo Nation environmental laws.

Superfund Site. In September of 2003, the EPA notified the District that it might be liable under the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA") as an owner and operator

of a facility (the 16th St. Facility) within the Motorola 52nd Street Superfund Site Operable Unit 3. The District may be liable for past costs incurred and for future work to be conducted within the Superfund Site. Investigation and evaluation of this potential liability are in the preliminary stages, but initial soil vapor investigations indicate minimal contamination on site. The District has completed the soil investigation for the site and is preparing the Remedial Investigation (RI) Report for submittal to the EPA. The District is unable at this time to predict the outcome, but believes that it has adequate reserves for this potential liability.

New Source Review. The EPA is continuing its national enforcement initiative under the New Source Review ("NSR") provisions of the CAA. This initiative is focused on determining whether companies had failed to disclose major repairs or alterations to facilities that would have required the installation of new pollution control equipment. As part of this initiative, the District received four letters from the EPA, under the authority of Section 114 of the CAA, requesting information on CGS (the "Section 114 Letters"). In March 2004, the District entered into negotiations with the EPA regarding possible additional control technology to reduce emission levels from District generating units. To date, the EPA has taken no enforcement action against the District for alleged violations of NSR regulations at CGS. The District anticipates a resolution with the EPA that would require installation of additional controls at CGS. Any additional controls would also be consistent with BART requirements for the generating station.

Water Rights

Gila River Adjudication. The District and the Association are parties to a state water rights adjudication proceeding initiated in 1976 which encompasses the entire Gila River System (the "Gila River Adjudication"). This proceeding is pending in the Superior Court for the State of Arizona, Maricopa County, and will eventually result in the determination of all conflicting rights to water from the Gila River and its tributaries, including the Salt and Verde Rivers. The District and the Association are unable to predict the ultimate outcome of the proceeding.

Gila River Indian Community. The United States on behalf of the Gila River Indian Community ("GRI Community") filed a lawsuit in 1982 in the Federal District Court, District of Arizona, to protect the water right claims of the GRI Community. The Association is among the many defendants named in this lawsuit. The lawsuit claims that the defendants' use of surface water and groundwater violates the GRI Community's rights to water in certain specified areas, and requests a decree specifying the GRI Community's rights, injunctive relief to stop the alleged illegal use of water by the defendants, and damages for increased costs to the GRI Community from, among other things, having to deepen its wells. This lawsuit has been stayed pending the outcome of the Gila River Adjudication.

In 2004, the U.S. Congress enacted the Arizona Water Rights Settlement Act which, since it is now fully enforceable, resolves the claims of the GRI Community listed above as well as many of the claims in the Gila River Adjudication.

Little Colorado River Adjudication. In 1978, a water rights adjudication was initiated in the Apache County Superior Court with regard to the Little Colorado River System. The District has filed its claim to water rights in this proceeding, which includes a claim for groundwater being used in the operation of CGS. The District is unable to predict the ultimate outcome of this proceeding, but believes an adequate water supply for CGS will remain available.

Coal Supply

Navajo Nation v. Peabody (U.S. District Court, D.C. District, - RICO Case). In 1999, the Navajo Nation filed a lawsuit in the United States District Court in Washington D.C., in which the Hopi Tribe later was joined as a plaintiff. The lawsuit arises out of negotiations culminating in 1987 with amendments to the coal leases and related agreements. The Navajo Nation and the Hopi tribe allege that Peabody (the coal supplier for NGS and Mohave), SCE (operating agent for Mohave), the District (operating agent for NGS), and certain other defendants, had improperly induced the Department of the Interior to not approve the coal royalty rate proposed by the Navajo in violation of the federal racketeering statutes. They further alleged that the Department's failure to approve the rate caused the tribes to negotiate and settle upon a substantially lower royalty rate. The suit alleges \$600 million in damages. The plaintiffs also seek treble damages against the defendants, measured by amounts awarded under the racketeering statutes. In addition, the plaintiffs claim punitive damages of not less than \$1 billion. In 2001, the

claims of both the Navajo Nation and the Hopi Tribe were dismissed in their entirety with respect to the District, but the dismissal is appealable.

On February 9, 2005, the U.S. District Court granted a motion to stay the litigation until further order of the court while the parties were in mediation with respect to this litigation and related business issues. On November 9, 2007, the parties jointly filed a status report in the District Court, stating that they had failed to resolve the lawsuit and terminating the mediation. Hence, the parties have requested that the District Court terminate the stay and restore the case to the active docket.

In an earlier case filed in the Federal Court of Claims against the United States Government and based on similar allegations, the U. S. Court of Appeals for the Federal Circuit held that the Navajo Nation had a cognizable money-mandating claim against the United States for breach of trust and that the government had breached its duties. The Court of Appeals remanded the case to the Court of Claims for proceedings consistent with its ruling. The Court of Claims again found that the U.S. Government had not breached any compensable duty of trust owed to the Navajo Nation. On appeal, the Court of Appeals again reversed the Court of Claims. The U.S. Government then sought, but was denied, rehearing of the order of the Court of Appeals and is now deciding whether to petition for certiorari.

See "THE ELECTRIC SYSTEM — Existing and Future Resources — *Mohave Generating Station*" for additional discussion of matters relating to Mohave.

Peabody Legal Fees Cases. Peabody claims it is entitled to reimbursement under both the NGS Coal Supply Agreement and the Mohave Coal Supply Agreement for its costs associated with the defense of the challenges by the Navajo Nation and Hopi Tribe to the coal leases. (See the *RICO Case*, above.) Peabody has filed two separate lawsuits in the Superior Court of Arizona against the NGS and Mohave Participants, respectively, seeking recovery of these fees. The Mohave and NGS Participants dispute Peabody's attempt to recover its legal costs under the coal supply agreements.

In the NGS legal fees case, the Maricopa County Superior Court dismissed Peabody's claims for legal fees against the NGS Participants. The Arizona Court of Appeals affirmed the dismissal, and petition for review to the Arizona Supreme Court was denied. Thus the decision is final.

As for the Mohave legal fees case, the Mohave Participants and Peabody had executed a settlement agreement pursuant to which Peabody granted the Mohave Participants a waiver for fees incurred prior to January 2006. However, as described above, the lawsuit for fees arising after December 2005 remained until December 17, 2007, when the court granted the District's motion for summary judgment to the effect that the District was not responsible for Peabody's legal fees incurred in the *RICO Case*. At the request of SCE, the District is considering staying its prosecution of its counterclaim until completion of the *RICO Case*.

See "THE ELECTRIC SYSTEM — Existing and Future Resources — *Mohave Generating Station*" for additional discussion of matters relating to Mohave.

Peabody v. SRP (the St. Louis Case). In October 2004, Peabody also filed suit in St. Louis, Missouri against the District and the other owners of NGS asserting claims against both the NGS Participants and the District relating to liability issues associated with the *Navajo Nation v. Peabody* case; alleged breach of the NGS Coal Supply Agreement; breach of indemnity obligations owed to Peabody as the alleged agent of the NGS Participants; and claims of tortious interference with contracts and tortious interference with business expectancies against the District. The claim seeks \$500 million and unspecified compensatory damages, prejudgment interest, attorneys' fees and costs. This case is in its discovery phase and is still pending.

District v. Peabody (the RHCC/FRC Case). The NGS Participants are contesting their alleged liability for mine closing, final reclamation, mine decommissioning and environmental monitoring costs, and certain post-retirement health care and life insurance benefits that Peabody will pay or provide to its employees after termination of the NGS Coal Supply Agreement and associated closure of the Kayenta Mine. On December 3, 2007, the District approved and executed, on behalf of the NGS Participants, a proposed settlement and mutual release agreement with Peabody. To be effective the settlement must be approved by all of the Participants. To date one Participant has not yet approved the settlement. As a result, neither the District's responsibility nor the ultimate amount of liability, if any, can be determined at this time. The District has determined there is a range of possible outcomes and has

recorded losses at the lower end of the range. Additional exposure to the District could occur if the outcome is in the higher end of the range.

The District is unable to predict the likely outcome of these coal supply litigation matters at this time but does not believe that the final resolution of these matters will have material adverse effects on its operations or financial condition.

Natural Gas Supply

The District had a contract with El Paso Natural Gas Transportation Company for the transportation of natural gas on a full requirements basis. FERC converted the full requirements contract to a contract with monthly limits. A Phoenix area shipper, whose full requirements contract was also converted, asked FERC to reallocate transportation costs among all Phoenix area shippers. If the shipper was successful, the approximate impact to the District could have been as much as \$20 million. However, after further unsuccessful appeals, the shipper has withdrawn its request.

California Energy Market Litigation and Investigations

Numerous FERC proceedings are addressing various aspects of the California energy market “crisis” of 2000 through 2001. Several of these proceedings involve potential refunds. Because the District bought and sold power into the California energy market, the District has been drawn into many of the proceedings. However, the District was a net buyer in the California market during periods being scrutinized, and believes it is entitled to refunds if any are ordered. The District has received approximately \$26 million in refunds to date.

On March 17, 2006, the three California public utilities and the California Energy Oversight Board (collectively “the California Parties”) filed lawsuits in California federal court against numerous public power utilities, including the District, that made energy sales into the California Market in 2000 and 2001. The California Parties’ Notice of Claim preceding this lawsuit, alleged estimated damages of \$62.3 million, without consideration of offsets due to the District. Additionally, on December 30, 2005, the District received a Notice of Claim from the California Attorney General and the California Department of Water Resources with similar allegations and alleged damages of \$8.5 million, without consideration of offsets due to the District. No lawsuit on this Notice of Claim has been filed. The District believes it has offsets as a net buyer in the California Power Market which exceed the amount of the claims asserted against it. The California Parties, as well as the California Attorney General and the California Department of Water Resources, have executed a stand-still agreement with the District that resulted in a dismissal of the claims against the District, without prejudice, and preclude filing of litigation by the California Attorney General and the California Department of Water Resources.

U.S. Supreme Court Tax Case

In May 2007, the U.S. Supreme Court agreed to hear a case on the constitutionality of a state exempting from its income tax interest on bonds issued by it or one of its political subdivisions, but not interest on bonds issued by other states or their political subdivisions. Although this case involves the Commonwealth of Kentucky, the State of Arizona has similar exemptions, so the decision by the Supreme Court likely would affect Arizona and other states as well. The U.S. Supreme Court heard oral arguments in November 2007, but no decision in the case has been rendered. The District is unable to predict the outcome of this matter or the effect the decision would have on the District or the holders of its outstanding tax-exempt obligations.

Taxes

See “SELECTED OPERATIONAL AND FINANCIAL DATA — Customers, Sales, Revenues and Expenses — Voluntary Contributions in Lieu of Taxes” for a discussion of a challenge by the Arizona Department of Revenue to the District’s computation of total property value for purposes of its voluntary contributions in lieu of taxes.

LEGALITY OF REVENUE BONDS FOR INVESTMENT

Under the Act, the 2008 Series A Bonds constitute legal investments for savings banks, banks, savings and loan associations, trust companies, executors, administrators, trustees, guardians and other fiduciaries in the State of

Arizona and for any board, body, agency or instrumentality of the State of Arizona, or of any county, municipality or other political subdivision of the State of Arizona, and constitute securities which may be deposited by banks, savings and loan associations or trust companies as security for deposits of state, county, municipal and other public funds.

UNDERWRITING

The Underwriters have jointly and severally agreed, subject to certain conditions, to purchase all, but not less than all, of the 2008 Series A Bonds from the District at an aggregate purchase price, of \$816,139,075.37, reflecting a net original issue premium of \$3,386,287.15 and an underwriters' discount of \$3,897,211.78 from the initial public offering prices set forth on the inside cover page of this Official Statement.

TAX MATTERS

Federal Income Taxes

The Internal Revenue Code of 1986 (the "Code") imposes certain requirements that must be met at and subsequent to the issuance and delivery of the 2008 Series A Bonds for interest thereon to be and remain excluded from gross income for federal income tax purposes. Noncompliance with such requirements could cause the interest on the 2008 Series A Bonds to be included in gross income for federal income tax purposes retroactive to the date of issue of the 2008 Series A Bonds. The District has covenanted to comply with the provisions of the Code applicable to the 2008 Series A Bonds, and has covenanted not to take any action or permit any action that would cause the interest on the 2008 Series A Bonds to be included in gross income under Section 103 of the Code applicable to the 2008 Series A Bonds. In addition, the District has made certain representations and certifications in the Tax Certificate as to Arbitrage and the Provisions of Sections 141-150 of the Internal Revenue Code of 1986. Special Tax Counsel will not independently verify the accuracy of those certifications and representations.

In the opinion of Nixon Peabody LLP, Special Tax Counsel, under existing law and assuming compliance with the aforementioned covenants and the accuracy of certain representations and certifications made by the District described above, interest on the 2008 Series A Bonds is excluded from gross income for federal income tax purposes under section 103 of the Code. Special Tax Counsel is also of the opinion that such interest is not treated as a preference item in calculating the alternative minimum tax imposed under the Code with respect to individuals and corporations. Interest on the 2008 Series A Bonds is, however, included in the adjusted current earnings of certain corporations for purposes of computing the alternative minimum tax imposed on such corporations.

State Taxes

Special Tax Counsel is also of the opinion that, under existing law, interest on the 2008 Series A Bonds is exempt from income taxes imposed by the State of Arizona.

Original Issue Discount

Special Tax Counsel is further of the opinion that the difference between the principal amount of the 2008 Series A Bonds maturing on January 1, 2033 and on January 1, 2038; (collectively the "Discount Bonds") and the initial offering price to the public (excluding bond houses, brokers or similar persons or organizations acting in the capacity of underwriters or wholesalers) at which price a substantial amount of such Discount Bonds of the same maturity was sold constitutes original issue discount which is excluded from gross income for federal income tax purposes to the same extent as interest on the Bonds. Further, such original issue discount accrues actuarially on a constant interest rate basis over the term of each Discount Bond and the basis of each Discount Bond acquired at such initial offering price by an initial purchaser thereof will be increased by the amount of such accrued original issue discount. The accrual of original issue discount may be taken into account as an increase in the amount of tax-exempt income for purposes of determining various other tax consequences of owning the Discount Bonds, even though there will not be a corresponding cash payment. Owners of the Discount Bonds are advised that they should consult with their own advisors with respect to the state and local tax consequences of owning such Discount Bonds.

Original Issue Premium

The 2008 Series A Bonds maturing on January 1, 2016 through January 1, 2028 (collectively, the “Premium Bonds”) are being offered at prices in excess of their principal amounts. An initial purchaser with an initial adjusted basis in a 2008 Series A Bond in excess of its principal amount will have amortizable bond premium which is not deductible from gross income for federal income tax purposes. The amount of amortizable bond premium for a taxable year is determined actuarially on a constant interest rate basis over the term of each 2008 Series A Bond based on the purchaser’s yield to maturity (or, in the case of 2008 Series A Bonds callable prior to their maturity, over the period to the call date, based on the purchaser’s yield to the call date and giving effect to any call premium). For purposes of determining gain or loss on the sale or other disposition of a 2008 Series A Bond, an initial purchaser who acquires such obligation with an amortizable bond premium is required to decrease such purchaser’s adjusted basis in such 2008 Series A Bond annually by the amount of amortizable bond premium for the taxable year. The amortization of bond premium may be taken into account as a reduction in the amount of tax-exempt income for purposes of determining various other tax consequences of owning such 2008 Series A Bonds. Owners of the 2008 Series A Bonds are advised that they should consult with their own advisors with respect to the state and local tax consequences of owning such 2008 Series A Bonds.

Ancillary Tax Matters

Ownership of the 2008 Series A Bonds may result in other federal tax consequences to certain taxpayers, including, without limitation, certain S corporations, foreign corporations with branches in the United States, property and casualty insurance companies, individuals receiving Social Security or Railroad Retirement benefits, individuals seeking to claim the earned income credit, and taxpayers (including banks, thrift institutions and other financial institutions) who may be deemed to have incurred or continued indebtedness to purchase or to carry the Bonds.

Commencing with interest paid in 2006, interest paid on tax-exempt obligations such as the Bonds is subject to information reporting to the Internal Revenue Service (the “IRS”) in a manner similar to interest paid on taxable obligations. In addition, interest on the 2008 Series A Bonds may be subject to backup withholding if such interest is paid to a registered owner that (a) fails to provide certain identifying information (such as the registered owner’s taxpayer identification number) in the manner required by the IRS, or (b) has been identified by the IRS as being subject to backup withholding.

Special Tax Counsel is not rendering any opinion as to any Federal tax matters other than those described under the caption “Tax Matters”. Prospective investors, particularly those who may be subject to special rules described above, are advised to consult their own tax advisors regarding the federal tax consequences of owning and disposing of the 2008 Series A Bonds, as well as any tax consequences arising under the laws of any state or other taxing jurisdiction.

Changes in Law and Post Issuance Events

Legislative or administrative actions and court decisions, at either the federal or state level, could have an adverse impact on the potential benefits of the exclusion from gross income of the interest on the 2008 Series A Bonds for Federal or state income tax purposes, and thus on the value or marketability of the 2008 Series A Bonds. This could result from changes to Federal or state income tax rates, changes in the structure of Federal or state income taxes (including replacement with another type of tax), repeal of the exclusion of the interest on the Bonds from gross income for Federal or state income tax purposes, or otherwise. It is not possible to predict whether any legislative or administrative actions or court decisions having an adverse impact on the Federal or state income tax treatment of holders of the 2008 Series A Bonds may occur. Prospective purchasers of the 2008 Series A Bonds should consult their own tax advisers regarding such matters.

On November 5, 2007, the U.S. Supreme Court heard oral argument on *Davis v. Kentucky Dep’t Of Revenue of The Finance and Admin. Cabinet*, 197 S.W.3d 557 (2006), a case that has questioned the permissibility under the U.S. Constitution of the Commonwealth of Kentucky providing for a state income tax exemption for interest on obligations issued by Kentucky or its subdivisions while taxing interest on obligations of other states or their subdivisions. The laws of the state of Arizona currently result in such differing treatment, by exempting interest on

obligations of Arizona and its subdivisions and instrumentalities while taxing the interest on obligations issued by other states or their subdivisions or instrumentalities.

Special Tax Counsel has not undertaken to advise in the future whether any events after the date of issuance and delivery of the 2008 Series A Bonds may affect the tax status of interest on the Bonds. Special Tax Counsel expresses no opinion as to any Federal, state or local tax law consequences with respect to the 2008 Series A Bonds, or the interest thereon, if any action is taken with respect to the 2008 Series A Bonds or the proceeds thereof upon the advice or approval of other counsel.

APPROVAL OF LEGAL MATTERS

Legal matters incident to the authorization and issuance of the 2008 Series A Bonds are subject to the approval of Drinker Biddle & Reath LLP, Bond Counsel, whose final approving opinion will be delivered with the 2008 Series A Bonds in substantially the form attached hereto as Appendix C. Certain legal matters in connection with the 2008 Series A Bonds will be passed upon for the District by Jennings, Strouss & Salmon, P.L.C. and by Nixon Peabody LLP, Special Tax Counsel, whose tax opinion will be delivered with the 2008 Series A Bonds in substantially the form attached hereto as Appendix C. Certain legal matters will be passed upon for the Underwriters by Winston & Strawn LLP, counsel to the Underwriters.

The various legal opinions and/or certification to be delivered concurrently with the delivery of the 2008 Series A Bonds express the professional judgment of the attorneys rendering the opinions as to the legal issues explicitly addressed therein. In rendering a legal opinion and/or certification, the attorney does not become an insurer or guarantor of that expression of professional judgment, of the transaction opined upon, or the future performance of parties to the transaction. Nor does the rendering of an opinion and/or certification guarantee the outcome of any legal dispute that may arise out of the transaction.

RATINGS

Moody's Investor Service and Standard & Poor's Corporation have given the ratings of Aa1 and AA, respectively, to the 2008 Series A Bonds. Such ratings reflect only the view of such organizations, and an explanation of the significance of such rating may be obtained only from the respective rating agency. There is no assurance that such ratings will be maintained for any given period of time, or that they will not be revised downward, or be withdrawn entirely by the respective rating agency if, in its judgment, circumstances so warrant. Any such downward revision or withdrawal of such ratings may have an adverse effect on the market price of the 2008 Series A Bonds.

CONTINUING DISCLOSURE

Pursuant to the Continuing Disclosure Agreement, the District will covenant for the benefit of the holders and Beneficial Owners of the 2008 Series A Bonds to provide certain financial information and operating data relating to the District by not later than 180 days after the end of each of the District's fiscal years (presently, each April 30), commencing with the fiscal year ending April 30, 2008 (the "Annual Report"), and to provide notices of the occurrence of certain enumerated events with respect to the 2008 Series A Bonds, if material. The Continuing Disclosure Agreement provides that the Annual Report and any notices of such material events will be filed by or on behalf of the District with each nationally recognized municipal securities information repository and with the State information repository, if any, established by the State of Arizona. Under the Continuing Disclosure Agreement, the sole remedy for any Bondholder upon an event of default is a lawsuit for specific performance in a court of competent jurisdiction. See "Appendix D — Form of Continuing Disclosure Agreement."

The District's covenant is being made in order to assist the Underwriters in complying with the secondary market disclosure requirements of Rule 15(c)2-12 of the Securities and Exchange Commission (the "Rule"). The District has never failed to comply in any material respect with any previous undertaking with regard to the Rule to provide annual reports or notices of material events.

INDEPENDENT ACCOUNTANTS

SRP's financial statements as of April 30, 2007 and April 30, 2006 and for the years then ended, included in this Official Statement, have been audited by PricewaterhouseCoopers LLP, independent accountants, as stated in their report appearing herein. The financial statements are presented on a combined basis including the financial information of both the District and the Association due to the relationship between the two. The District's revenues support the operations of the water and irrigation system as needed. See "THE DISTRICT — General" and "— History" for a further discussion of the relationship between the District and the Association.

FINANCIAL ADVISOR

The District has retained Public Financial Management ("PFM") as its financial advisor. Although PFM has assisted in the preparation of this Official Statement, PFM is not obligated to undertake and has not undertaken to make, an independent verification or to assume responsibility for the accuracy, completeness or fairness of the information contained in this Official Statement.

OTHER AVAILABLE INFORMATION

SRP prepares an annual report with respect to each fiscal year ending April 30, which typically becomes available in September of the following fiscal year. The annual report includes information relating to SRP's staff, legal and financial services, operations and audited financial statements for the fiscal year ending April 30. SRP's financial statements are presented on a combined basis including the financial information of both the District and the Association.

The annual report with audited financial statements for the year ended April 30, 2008 is not yet available. When available, copies of the annual report and audited financial statements may be obtained by writing to Salt River Project Agricultural Improvement and Power District, Corporate Communications, PAB340, P.O. Box 52025, Phoenix, AZ 85072-2025. Copies of the Annual Report can also be obtained by contacting 602-236-2598 or by sending a request to investor@srpnet.com.

MISCELLANEOUS

References herein to the Act, the Resolution and certain other statutes, resolutions and contracts are brief discussions of certain provisions thereof. Such discussions do not purport to be complete, and reference is made to such documents for full and complete statements of such provisions.

Any statements made in this Official Statement involving matters of opinion or of projections, whether or not so expressly stated, are set forth as such and not as representations of fact, and no representation is made that any of the projections will be realized.

The District has authorized the execution and delivery of this Official Statement.

Report of Independent Auditors

To the Board of Directors of the
Salt River Project Agricultural Improvement and
Power District and the Board of Governors of the
Salt River Valley Water Users' Association

In our opinion, the accompanying combined balance sheets and the related combined statements of net revenues and comprehensive income (loss), and cash flows present fairly, in all material respects, the financial position of Salt River Project Agricultural Improvement and Power District and its subsidiaries and the Salt River Valley Water Users' Association (collectively, "SRP") at April 30, 2007 and 2006, and the results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of SRP's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

A handwritten signature in cursive script, which appears to read "PricewaterhouseCoopers LLP", is written over a horizontal line.

The accompanying notes are an integral part of these combined financial statements.

SALT RIVER PROJECT

NOTES TO COMBINED FINANCIAL STATEMENTS APRIL 30, 2007 AND 2006

(1) Basis of Presentation:

The Company

The Salt River Project Agricultural Improvement and Power District (the District) is an agricultural improvement district organized in 1937 under the laws of the State of Arizona. It operates the Salt River Project (the Project), a federal reclamation project, under contracts with the Salt River Valley Water Users' Association (the Association), by which it has assumed the obligations and assets of the Association, including its obligations to the United States of America for the care, operation and maintenance of the Project. The District owns and operates an electric system that generates, purchases, transmits and distributes electric power and energy, and provides electric service to residential, commercial, industrial and agricultural power users in a 2,900 square mile service territory in parts of Maricopa, Gila and Pinal Counties, plus mine loads in an adjacent 2,400 square mile area in Gila and Pinal Counties. The Association, incorporated under the laws of the Territory of Arizona in 1903, operates an irrigation system as the agent of the District.

Possession and Use of Utility Plant

The United States of America retains a paramount right or claim in the Project that arises from the original construction and operation of certain of the Project's electric and water facilities as a federal reclamation project. Rights to the possession and use of, and to all revenues produced by, these facilities are evidenced by contractual arrangements with the United States of America.

Principles of Combination

The accompanying combined financial statements reflect the combined accounts of the Association and the District (together referred to as SRP). The District's financial statements are consolidated with its three wholly-owned taxable subsidiaries: SRP Captive Risk Solutions, Limited (CRS), Papago Park Center, Inc. (PPC) and New West Energy Corporation (New West Energy). Also included in the consolidation is the district's former wholly-owned subsidiary, Springerville Four, LLC (Springerville Four) which was dissolved in April 2007. CRS is a domestic captive insurer incorporated in January 2004 primarily to access property/boiler and machinery insurance coverage under the Federal Terrorism Risk Insurance Act of 2002 for certified acts of terrorism. PPC is a real estate management company. New West Energy was used at one time to market, at retail, energy available to the District that was surplus to the needs of its retail customers, and energy that might have been rendered surplus in Arizona by retail competition in the supply of generation, but is now inactive. Springerville Four was a limited liability company that until February 1, 2007 held certain rights to construct a fourth unit at Springerville Generating Station. Such rights were assigned to the District on that date, and Springerville Four was subsequently dissolved in April 2007. All material inter-company transactions and balances have been eliminated.

Regulation and Pricing Policies

Under Arizona law, the District's publicly elected Board of Directors (the Board) has the authority to establish electric prices. The District is required to follow certain public notice and special Board meeting procedures before implementing any changes in the standard electric price plans.

(2) Significant Accounting Policies:

Basis of Accounting

The accompanying combined financial statements are presented in conformity with accounting principles generally accepted in the United States of America (GAAP) and reflect the pricing policies of the Board. The District's "regulated" operations apply Statement of Financial Accounting Standards No. 71, "Accounting for the Effects of Certain Types of Regulation" (SFAS No. 71), while "non-regulated" operations follow GAAP for

enterprises in general. Classification of regulated and non-regulated operations is determined in accordance with applicable GAAP accounting guidelines.

By virtue of SRP operating a federal reclamation project under contract, with the federal government's preemptive rights, asset ownership and certain approval rights, SRP is considered for financial reporting purposes to follow accounting standards as set forth by the Federal Accounting Standards Advisory Board (FASAB). Entities reporting in accordance with the standards issued by the Financial Accounting Standards Board (FASB) prior to October 19, 1999 (the date the American Institute of Certified Public Accountants (AICPA) designated the FASAB as the accounting standard setting body for entities under the federal government) are permitted to continue to report in accordance with those standards. Consequently, SRP's financial statements are reported in accordance with FASB standards.

The preparation of financial statements in compliance with GAAP requires management to make estimates and assumptions that affect the reported amounts in the financial statements and disclosures of contingencies. Actual results could differ from the estimates.

Utility Plant

Utility plant is stated at the historical cost of construction, less any impairment losses. Capitalized construction costs include labor, materials, services purchased under contract, and allocations of indirect charges for engineering, supervision, transportation and administrative expenses and capitalized interest or an allowance for funds used during construction (AFUDC). AFUDC is the estimated cost of funds used to finance plant additions and is recovered in prices through depreciation expense over the useful life of the related asset. The cost of property that is replaced, removed or abandoned, together with removal costs, less salvage, is charged to accumulated depreciation.

Composite rates of 4.67% and 4.51% were used in fiscal years 2007 and 2006 to calculate interest on funds used to finance construction work in progress, resulting in \$9.1 million and \$12.0 million of interest capitalized, respectively.

Depreciation expense is computed on the straight-line basis over the estimated useful lives of the various classes of plant assets. The following table reflects the District's average depreciation rates on the average cost of depreciable assets, for the fiscal years ended April 30:

| | 2007 | 2006 |
|--|-------|-------|
| Average electric depreciation rate..... | 3.58% | 3.51% |
| Average irrigation depreciation rate | 1.93% | 2.07% |
| Average common depreciation rate | 6.35% | 5.36% |

Bond Expense

Bond discount/premium and issuance expenses are amortized using the effective interest method over the terms of the related bond issues.

Allowance for Doubtful Accounts

The District has provided for an allowance for doubtful accounts of \$13.0 million and \$12.7 million as of April 30, 2007 and 2006, respectively.

Nuclear Fuel

The District amortizes the cost of nuclear fuel using the units-of-production method. The units-of-production method is an amortization method based on actual physical usage. The nuclear fuel amortization and the disposal expense are components of fuel expense. Accumulated amortization of nuclear fuel at April 30, 2007 and 2006 was \$408.2 million and \$389.1 million, respectively.

Asset Retirement Obligations

SRP adopted Statement of Financial Accounting Standards No. 143, "Accounting for Asset Retirement Obligations" (SFAS No. 143), on May 1, 2003. SFAS No. 143 requires the recognition and measurement of liabilities for legal obligations associated with the retirement of tangible long-lived assets. Under the standard, these liabilities are recognized at fair value as incurred and capitalized as part of the cost of the related tangible long-lived assets. Accretion of the liabilities, due to the passage of time, is an operating expense and the capitalized cost is depreciated over the useful life of the long-lived asset. Retirement obligations associated with long-lived assets included within the scope of SFAS No. 143 are those for which a legal obligation exists under enacted laws, statutes, and written or oral contracts, including obligations arising under the doctrine of promissory estoppel.

The District has identified retirement obligations for the Palo Verde Nuclear Generating Station (PVNGS), Navajo Generating Station (NGS), Four Corners Generating Station (Four Corners) and certain other assets. Amounts recorded under SFAS No. 143, are subject to various assumptions and determinations, such as determining whether an obligation exists to remove assets, estimating the fair value of the costs of removal, estimating when final removal will occur, and determining the credit-adjusted, risk-free interest rates to be utilized on discounting future liabilities. Changes that may arise over time with regard to these assumptions and determinations will change amounts recorded in the future as expense for asset retirement obligations.

A summary of the asset retirement obligation activity of the District for the year ended April 30, 2007, is included below (in millions):

| | |
|-------------------------------|----------------|
| Balance, May 1, 2006 | \$184.0 |
| Liabilities incurred | (0.3) |
| Accretion expense | 11.3 |
| Balance, April 30, 2007 | <u>\$195.0</u> |

In accordance with regulations of the Nuclear Regulatory Commission, the District maintains a trust for the decommissioning of PVNGS. Decommissioning funds of \$196.4 million and \$172.8 million, stated at market value, as of April 30, 2007 and 2006, respectively, are held in the trust and are classified as segregated funds in the accompanying Combined Balance Sheets. Unrealized gains on decommissioning fund assets of \$17.0 million and \$5.6 million at April 30, 2007 and 2006, respectively, are included in deferred credits and other non-current liabilities in the accompanying Combined Balance Sheets.

Regulatory Accounting

The District accounts for the financial effects of the regulated portion of its operations in accordance with the provisions of SFAS No. 71, which requires cost-based, rate-regulated utilities to reflect the impacts of regulatory decisions in their financial statements. Regulatory assets for spent nuclear fuel storage are amortized over the life of the nuclear plant. Bond defeasance regulatory assets are amortized over different periods, beginning in fiscal year 1997 and ending in fiscal year 2031. Regulatory assets are included in deferred charges and other assets on the accompanying Combined Balance Sheets.

Accounting for Energy Risk Management Activities

The District has an energy risk management program to limit exposure to risks inherent in normal energy business operations. The goal of the energy risk management program is to measure and minimize exposure to market risks, credit risks and operational risks. Specific goals of the energy risk management program include reducing the impact of market fluctuations on energy commodity prices associated with customer energy requirements, excess generation and fuel expenses, in addition to meeting customer pricing needs, and maximizing the value of physical generating assets. The District employs established policies and procedures to meet the goals of the energy risk management program using various physical and financial instruments, including forward contracts, futures, swaps and options.

Certain of these transactions are accounted for under Statement of Financial Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended (SFAS No. 133). Under SFAS No.

133, derivatives are recorded in the balance sheet as either an asset or liability measured at their fair value. The standard also requires changes in the fair value of the derivative be recognized each period in current earnings or other comprehensive income depending on the purpose for using the derivative and/or its qualification, designation and effectiveness as a hedging transaction. Many of the District's contractual agreements qualify for the normal purchases and sales exception allowed under SFAS No. 133 and are not recorded at market value. (For further explanation of the effects of SFAS No. 133 on SRP's financial results, see Note (3), ACCOUNTING FOR DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES.)

Concentrations of Credit Risk

The use of contractual arrangements to manage the risks associated with changes in energy commodity prices creates credit risk exposure resulting from the possibility of nonperformance by counterparties pursuant to the terms of their contractual obligations. In addition, volatile energy prices can create significant credit exposure from energy market receivables and mark-to-market valuations. The District has a credit policy for wholesale counterparties, and continuously monitors credit exposures, routinely assesses the financial strength of its counterparties, minimizes credit risk by dealing primarily with creditworthy counterparties, entering into standardized agreements which allow netting of exposures to and from a single counterparty, and by requiring letters of credit, parent guarantees or other collateral when it does not consider the financial strength of a counterparty sufficient.

Income Taxes

The District is exempt from federal and Arizona state income taxes. Accordingly, no provision for income taxes has been recorded for the District in the accompanying combined financial statements.

The District has three wholly-owned taxable subsidiaries: CRS, PPC and New West Energy. The District had a fourth wholly-owned subsidiary, Springerville Four, until its assets were assigned to the District on February 1, 2007, and it was formally dissolved in April 2007. The tax effect of these subsidiaries' operations on the combined financial statements is immaterial.

Cash Equivalents

The District treats short-term temporary cash investments with original maturities of three months or less as cash equivalents, except for those short-term investments that are set aside for a specific purpose, such as amounts held in the Rate Stabilization Fund or as part of the segregated funds.

Rate Stabilization Fund

In April 2005, the District transferred \$55 million into the Rate Stabilization Fund (RSF) to be used in concert with the Fuel and Purchased Power Adjustment Mechanism (FPPAM) to cover fuel related expenses and to stabilize future prices related to fuel, as well as for any other purposes required or permitted by the Board's Supplemental Resolution dated September 10, 2001 authorizing an Amended and Restated Resolution Concerning Revenue Bonds (Bond Resolution), during fiscal years 2006 and 2007. In accordance with Board action taken on March 30, 2006, the District transferred the \$55 million, plus interest earnings back to the General Fund on May 5, 2006 to help cover under-collected fuel costs, thereby reducing the need for an upward increase in the FPPAM. In July 2006, the Board approved an additional \$80 million deposit into the RSF for the same purposes and on the same terms and conditions as the initial deposit except that the authorization was extended through fiscal year 2008. The transfer to the RSF was completed in September 2006. In March 2007, the Board approved the transfer of the \$80 million and related earnings from the RSF back to the General Fund and the transfer was completed on May 1, 2007. (See Note (9), REGULATORY ISSUES, The Changing Regulatory Environment, for additional information on the FPPAM.)

Revenue Recognition

The District recognizes revenue when billed and accrues estimated revenue for electricity delivered to customers that has not yet been billed. Other operating revenue consists primarily of revenue from marketing and trading electricity.

Materials and Supplies, and Fuel Stocks

Materials and supplies are stated at lower of market or average cost. Fuel stocks are stated at lower of market or weighted average cost.

Recently Issued Accounting Standards

FASB has issued the following Statements of Financial Accounting Standards (SFAS) that may have an impact on SRP:

In September 2006, the FASB issued SFAS 157, "Fair Value Measurements." SFAS 157 defines fair value, establishes methods for measuring fair value by applying one of three observable market techniques (market approach, income approach or cost approach) and expands required disclosures about fair value measurements. The provisions of this standard are effective for SRP on May 1, 2008. SRP is assessing the impact of adopting this standard on its financial statements.

Also in September 2006, the FASB issued SFAS 158, "Employers' Accounting for Defined Benefit Pension and Other Post-Retirement Plans." SFAS 158 requires an employer to recognize over funded or under funded status of the plan, measure defined benefit plan assets and obligations as of the date of the employer's statement of financial position, and disclose additional information in the footnotes. The provisions of this standard are effective for fiscal years ending after June 15, 2007; accordingly, SRP will adopt the provisions of this standard on April 30, 2008 and is evaluating the impact of adopting this standard on its financial statements.

(3) Accounting for Derivative Instruments and Hedging Activities:

SRP follows SFAS No. 133, as amended, which requires that entities recognize all derivatives as either assets or liabilities in the balance sheet and measure those instruments at fair value. Changes in the fair value of derivative financial instruments are either recognized periodically in net revenues or accumulated net revenues (as a component of other comprehensive income), depending on whether or not the derivative meets specific hedge accounting criteria. The criteria include a requirement for hedge effectiveness, which is measured based on the relative changes in fair value between the derivative contract and the hedged item over time. Changes in the fair value resulting from ineffectiveness are recognized immediately in net revenues.

The District enters into contracts for electricity, natural gas and other energy commodities to meet the expected needs of its retail customers. The District sells excess capacity during periods when it is not needed to meet retail requirements. The District's energy risk management program uses various physical and financial contracts to hedge exposures to fluctuating commodity prices. The District examines contracts at inception to determine the appropriate accounting treatment. If a contract does not meet the derivative criteria, or if it qualifies for the SFAS No. 133 normal purchases and sales scope exception, the District accounts for the contract using settlement accounting (costs and revenues are recorded when physical delivery occurs). Contracts that qualify as a derivative but do not meet the SFAS No. 133 normal purchases and sales scope exception are further examined by the District to determine if they qualify for cash flow hedge accounting. If a contract does not meet the hedging criteria in SFAS No. 133, the District recognizes the changes in the fair value of the derivative instrument in net revenues each period (mark-to-market). If the contract does qualify for hedge accounting, changes in the fair value are recorded as assets or liabilities and as a component of other comprehensive income.

The District formally documents all relationships between hedging instruments and hedged items, as well as its risk-management objective and strategy for undertaking various hedge transactions. This process includes linking all derivatives to the forecasted transactions. The District also formally assesses (both at the hedge's inception and on an ongoing basis) whether the derivatives used in hedging transactions have been effective in offsetting changes in cash flow of hedged items and whether those derivatives may be expected to remain effective in future periods. When it is determined that a derivative is not (or has ceased to be) effective as a hedge, the District discontinues hedge accounting prospectively, as discussed below.

The District discontinues hedge accounting when: (1) it determines that the derivative is no longer effective in offsetting changes in cash flows of a hedged item; (2) the derivative expires or is sold, terminated or exercised; (3) it

is no longer probable that the forecasted transaction will occur; or (4) management determines that designating the derivative as a hedging instrument is no longer appropriate.

When the District discontinues hedge accounting because it is no longer probable that the forecasted transaction will occur in the originally expected period, the gain or loss on the derivative is reclassified into net revenues. If the derivative remains outstanding, the District will carry the derivative at its fair value in the Combined Balance Sheets, recognizing changes in the fair value in current-period net revenues.

The following table summarizes the District's derivative-related assets and liabilities at April 30 (in thousands):

| | 2007 | 2006 |
|---|------------------|-------------------|
| Other current assets | \$ 40,024 | \$ 45,901 |
| Deferred charges and other assets..... | 40,813 | 50,323 |
| Other current liabilities | (18,624) | (63,937) |
| Deferred credits and other non-current liabilities..... | (9,085) | (38,976) |
| Long-term debt..... | 1,855 | - |
| Net asset (liability) | <u>\$ 54,983</u> | <u>\$ (6,689)</u> |

The electric industry engages in an activity called "book-out," under which some energy purchases are netted against sales, and power does not actually flow in settlement of the contract. As a result of these transactions, the District nets the impacts of these financially settled contracts, which reduced revenues and purchase power expense by \$150.4 million and \$290.5 million for fiscal years 2007 and 2006, respectively, but which did not impact net revenues or cash flows.

(4) Accumulated Net Revenues and Other Comprehensive Income:

The following table summarizes accumulated net revenues and other comprehensive income (in thousands):

| | Accumulated Net Revenues | Accumulated Other Comprehensive Income (Loss) | | | Accumulated Net Revenues and Other Comprehensive Income |
|--|--------------------------------|---|--|------------------|---|
| | | Minimum pension liability | Unrealized gain on available-for- sale securities | Total | |
| BALANCE, April 30, 2005 | \$ 2,786,926 | \$ (114,700) | \$ 42,335 | \$ (72,365) | \$ 2,714,561 |
| Net Revenues | 415,400 | | | | 415,400 |
| Other Comprehensive Income | - | 41,400 | - | 41,400 | - |
| Unrealized gain on available- for-sale securities | - | - | 24,663 | 24,663 | - |
| Reclassification of realized gain to income | - | - | (55,162) | (55,162) | - |
| Total Other Comprehensive Income | - | 41,400 | (30,499) | 10,901 | 10,901 |
| BALANCE, April 30, 2006 | \$ 3,202,326 | \$ (73,300) | \$ 11,836 | \$ (61,464) | \$ 3,140,862 |
| Net Revenues | 367,790 | - | - | - | 367,790 |
| Other Comprehensive Income | - | 73,300 | 24,944 | 98,244 | 98,244 |
| BALANCE, April 30, 2007 | <u>\$ 3,570,116</u> | <u>\$ -</u> | <u>\$ 36,780</u> | <u>\$ 36,780</u> | <u>\$ 3,606,896</u> |

(5) Long-Term Debt:

Long-term debt consists of the following at April 30 (in thousands):

| | Interest Rate | 2007 | 2006 |
|--|------------------|--------------|--------------|
| Revenue bonds (mature through 2037)..... | 4.0 – 6.0% | \$ 2,394,926 | \$ 2,213,584 |
| Unamortized bond (discount) premium..... | | 53,105 | 53,099 |
| Total revenue bonds outstanding | | 2,448,031 | 2,266,683 |
| Finance lease | 2.25 - 5.30% | 266,380 | 282,680 |
| Commercial paper | 3.6 - 4.0% | 475,000 | 475,000 |
| Total long-term debt..... | | 3,189,411 | 3,024,363 |
| Unamortized interest rate swap..... | 2.25 - 5.00% | (1,855) | - |
| Less-current portion | | (146,148) | (131,346) |
| Total long-term debt, net of current portion | | \$ 3,041,408 | \$ 2,893,017 |

The annual maturities of long-term debt (excluding commercial paper, unamortized mini-revenue bond accretion, and unamortized bond discount/premium) as of April 30, 2007, due in fiscal years ending April 30, are as follows (in thousands):

| | Revenue Bonds | Finance Lease |
|-----------------|---------------------|-------------------|
| 2008 | \$ 130,133 | \$ 16,015 |
| 2009 | 153,101 | 17,780 |
| 2010 | 115,855 | 16,790 |
| 2011 | 108,480 | 19,950 |
| 2012 | 103,430 | 17,455 |
| Thereafter..... | 1,777,545 | 178,390 |
| | <u>\$ 2,388,544</u> | <u>\$ 266,380</u> |

Revenue Bonds

Revenue bonds are secured by a pledge of, and a lien on, the revenues of its electric system, after deducting operating expenses, as defined in the bond resolution. Under the terms of the amended and restated bond resolution, effective in January 2003, the District is no longer required to make monthly deposits to an externally trustee debt service fund for the payment of future principal and interest. However, the District is continuing to make debt service deposits to a non-trusteed segregated fund. Included in segregated funds in the accompanying Combined Balance Sheets are \$150.7 million and \$146.7 million of debt service related funds as of April 30, 2007 and 2006, respectively.

The District has \$45.3 million of mini-revenue bonds outstanding, which are redeemable at the option of the bondholder under certain circumstances. Based on historical redemptions made on these bonds, management believes there are sufficient funds available to cover potential redemptions in any year.

The debt service coverage ratio, as defined in the Bond Resolution, is used by bond rating agencies to help evaluate the financial viability of the District. For the years ended April 30, 2007 and 2006, the debt service coverage ratio was 3.09 and 2.42, respectively.

Interest and the amortization of the bond discount, premium and issue expense on the various issues results in an effective rate of 4.97% over the remaining term of the bonds.

The District has authorization to issue additional Electric System Revenue Bonds totaling \$1.2 billion principal amount and Electric System Refunding Revenue Bonds totaling \$4.0 billion principal amount.

In September 2005, the District issued \$327.1 million Electric System Revenue Bonds; \$301.9 million of the net proceeds from these bonds are being used to fund distribution capital requirements and \$43.7 million of the net proceeds were used to retire outstanding revenue bonds with an aggregate par amount of \$41.0 million. The bond retirement is expected to reduce total debt payments over the life of the bonds by \$5.2 million and is expected to result in present value savings of approximately \$2.6 million. This transaction resulted in a net loss for accounting purposes of approximately \$2.0 million, which was deferred and will be amortized over the life of the bonds to be refunded.

In July 2006, the District issued an additional \$296.0 million Electric System Revenue Bonds. The net proceeds from these bonds are being used to fund distribution capital requirements.

Finance Lease

In December 2003, the District entered into a lease-purchase agreement (Desert Basin Lease-Purchase Agreement) with Desert Basin Independent Trust (DBIT) to finance the acquisition of the Desert Basin Generating Station (Desert Basin) located in Central Arizona. In a concurrent transaction, \$282.7 million in fixed-rate Certificates of Participation (COPs) were issued pursuant to a Trust Indenture, between Wilmington Trust Company, as trustee, and DBIT, to fund the acquisition of Desert Basin and other electric system assets of the District. Investors in the COPs obtained an interest in the lease payments made by the District to DBIT under the Desert Basin Lease-Purchase Agreement. Due to the nature of the Desert Basin Lease-Purchase Agreement, the District has recorded a lease-finance liability to DBIT with the same terms as the COPs.

In connection with the issuance of the COPs, the District entered into an interest rate swap transaction with Morgan Stanley Capital Services. This transaction consisted of a 6-year, \$75.0 million fixed-to-floating swap (annual \$25.0 million notional maturities expiring on December 1, 2007 through 2009, respectively) versus the Bond Market Association (BMA) Municipal Index. The fixed-receiver rate on the swap is 3.001%. Through the swap, the District was able to create synthetic variable rate debt and take advantage of the relationship between intermediate-term, tax-exempt borrowing costs and BMA-based, fixed-receiver swap rates. In addition, the swap to variable rate also enables the District to increase its short-term, variable rate debt portfolio. The interest rate swap is accounted for as a derivative. (For further explanation of the effects of SFAS No. 133 on the District's financial results see Note (3), ACCOUNTING FOR DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES.)

Commercial Paper

The District has outstanding \$475.0 million of commercial paper consisting of \$375.0 million Series B Commercial Paper and \$100.0 million Series C Commercial Paper. The issues have an average weighted interest rate to the District of 3.69%.

The commercial paper matures not more than 270 days from the date of issuance and is an unsecured obligation of the District. The District has the ability to refinance the outstanding commercial paper on a long-term basis in connection with its revolving line of credit that supports the commercial paper and is available through December 7, 2009. As such, the District has classified the commercial paper as long-term debt in the Combined Balance Sheets as of April 30, 2007.

While the revolving credit agreement contains covenants that could prohibit borrowing under certain conditions, management believes financing would be available. The District has never borrowed under the agreement and management does not expect to do so in the future. Alternative sources of funds to support the commercial paper program include existing funds on hand or the issuance of alternative debt, such as revenue bonds.

Line-of-Credit Agreements

The District has a \$475.0 million revolving line-of-credit agreement that supports the \$475.0 million commercial paper program. The agreement has various covenants, with which management believes the District was in compliance at April 30, 2007.

(6) Fair Value of Financial Instruments:

The following methods and assumptions were used to estimate the fair value for each class of financial instruments identified in the following items in the accompanying Combined Balance Sheets.

Investments in Marketable Securities

The District invests in U.S. government obligations, certificates of deposit and other marketable investments. Such investments are classified as other investments, segregated funds, cash and cash equivalents or temporary investments in the accompanying Combined Balance Sheets depending on the purpose and duration of the investment. The fair value of marketable securities with original maturities greater than one year is based on published market data. The carrying amount of marketable securities with original maturities of one year or less approximates their fair value because of their short-term maturities.

Long-Term Debt

The fair value of the District's revenue bonds, including the current portion, was estimated by using pricing scales from independent sources. The carrying amount of commercial paper approximates the fair value because of its short-term maturity. As of April 30, 2007 and 2006, the carrying amounts were \$3.2 million and \$3.0 million, respectively, and the estimated fair values were \$3.3 million and \$3.1 million, respectively.

Other Current Assets and Liabilities

The carrying amounts of receivables, accounts payable, customers' deposits and other current liabilities in the accompanying Combined Balance Sheets approximate fair value because of their short-term maturities.

Accounting for Debt and Equity Securities

The District applies SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities," in accounting for its investments in debt and equity securities. The District's investments in debt securities are reported at amortized cost if the intent is to hold the security to maturity. The District's amortized cost and fair value of held-to-maturity securities was \$603.8 million and \$604.7 million, respectively, at April 30, 2007 and \$484.3 million and \$483.0 million, respectively, at April 30, 2006. At April 30, 2007, the District's investments in debt securities have maturity dates ranging from May 1, 2007, to January 14, 2014. Other debt and equity securities are reported at market, with unrealized gains or losses included as a separate component of accumulated net revenues and other comprehensive income or deferred credits and other non-current liabilities. (See Note (2), SIGNIFICANT ACCOUNTING POLICIES, Asset Retirement Obligation, for discussion on accounting for the unrealized gains or losses on decommissioning fund assets.) The District's investments in debt and equity securities are included in temporary investments, segregated funds and non-utility property and other investments in the accompanying Combined Balance Sheets.

The amortized cost, gross unrealized gains and losses, and fair value of available-for-sale debt and marketable equity securities at April 30, 2007 and 2006 were (in thousands):

| 2007 | | | | |
|--|-------------------|------------------------------|-------------------------------|-------------------|
| | Amortized Cost | Gross Unrealized Gains | Gross Unrealized Losses | Fair Value |
| Equity securities | \$ 348,884 | \$ 53,992 | \$ (6,334) | \$ 396,542 |
| Fixed-income securities | 234,195 | 8,148 | (1,929) | 240,414 |
| Total available-for-sale securities | \$ 583,079 | \$ 62,140 | \$ (8,263) | \$ 636,956 |

| 2006 | | | | |
|--|-------------------|------------------------------|-------------------------------|-------------------|
| | Amortized Cost | Gross Unrealized Gains | Gross Unrealized Losses | Fair Value |
| Equity securities | \$ 302,932 | \$ 25,373 | \$ (5,135) | \$ 323,170 |
| Fixed-income securities | 206,050 | 287 | (3,001) | 203,336 |
| Total available-for-sale securities | \$ 508,982 | \$ 25,660 | \$ (8,136) | \$ 526,506 |

At April 30, 2007 and 2006, net unrealized gains on available-for-sale debt and marketable equity securities included in accumulated other comprehensive income were \$24.9 million and \$24.7 million, respectively, for the fiscal year.

The proceeds from sale of available-for-sale securities were \$344.4 million and \$224.7 million, and the net realized gains were \$28.0 million and \$113.3 million, at April 30, 2007 and 2006, respectively. The weighted-average cost basis is applied when computing realized gain or loss on available-for-sale securities.

The following table presents the current fair value and the associated gross unrealized losses only on investments in securities with gross unrealized losses at April 30, 2007 and 2006. The table also discloses whether these securities have had gross unrealized losses for less than twelve months, or for twelve months or longer.

| Securities with gross unrealized losses | | | | | | |
|--|---------------------|-------------------------------|----------------------|-------------------------------|-------------------|-------------------------------|
| | Less than 12 months | | 12 months or greater | | Total | |
| | Fair Value | Gross Unrealized Losses | Fair Value | Gross Unrealized Losses | Fair Value | Gross Unrealized Losses |
| 2007 (in thousands) | | | | | | |
| Available-for-sale securities | | | | | | |
| Equity securities | \$ 37,089 | \$ (4,218) | \$ 5,587 | \$ (2,116) | \$ 42,676 | \$ (6,334) |
| Fixed-income securities | 117,561 | (1,929) | - | - | 117,561 | (1,929) |
| Total securities with gross unrealized losses | \$ 154,650 | \$ (6,147) | \$ 5,587 | \$ (2,116) | \$ 160,237 | \$ (8,263) |

| Securities with gross unrealized losses | | | | | | |
|--|---------------------|-------------------------------|----------------------|-------------------------------|-------------------|-------------------------------|
| | Less than 12 months | | 12 months or greater | | Total | |
| | Fair Value | Gross Unrealized Losses | Fair Value | Gross Unrealized Losses | Fair Value | Gross Unrealized Losses |
| 2006 (in thousands) | | | | | | |
| Available-for-sale securities | | | | | | |
| Equity securities | \$ 56,900 | \$ (5,135) | \$ - | \$ - | \$ 56,900 | \$ (5,135) |
| Fixed-income securities | 96,608 | (3,001) | - | - | 96,608 | (3,001) |
| Total securities with gross unrealized losses | \$ 153,508 | \$ (8,136) | \$ - | \$ - | \$ 153,508 | \$ (8,136) |

Management evaluates securities for other-than-temporary impairment on an annual basis considering numerous factors, and their relative significance varies case-by-case. Factors considered when determining whether impairment is other-than-temporary include the length of time and extent to which the fair value has been less than cost; the financial condition and near-term prospects of the issuer; and the District's intent and ability to hold the security in order to allow for an anticipated recovery in fair value. If, based upon an analysis of each of the above factors, it is determined that the impairment is other-than-temporary, the carrying value of the security is written down to fair value, and a loss is recognized through earnings.

(7) Employee Benefit Plans and Incentive Programs:

Defined Benefit Pension Plan and Other Postretirement Benefits

SRP's Employees' Retirement Plan (the Plan) covers substantially all employees. The Plan is funded entirely from SRP contributions and the income earned on invested Plan assets. The District made a contribution of \$70.0 million and \$60.0 million in fiscal years 2007 and 2006, respectively.

SRP provides a non-contributory defined benefit medical plan for retired employees and their eligible dependents (contributory for employees hired January 1, 2000 or later) and a non-contributory defined benefit life insurance plan for retired employees. Employees are eligible for coverage if they retire at age 65 or older with at least five years of vested service under the Plan (ten years for those hired January 1, 2000 or later), or any time after attainment of age 55 with a minimum of ten years of vested service under the Plan (20 years for those hired January 1, 2000 or later). The funding policy is discretionary and is based on actuarial determinations. The unrecognized transition obligation is being amortized over 20 years, beginning in 1994.

The following tables outline changes in benefit obligations, plan assets, the funded status of the plans and amounts included in the combined financial statements as of April 30, based on January 31 valuation dates (in thousands):

| | Pension Benefits | | Postretirement Benefits | |
|---|---------------------|---------------------|-------------------------|---------------------|
| | 2007 | 2006 | 2007 | 2006 |
| Change in benefit obligation: | | | | |
| Benefit obligation at beginning of year..... | \$ 1,096,700 | \$ 1,017,000 | \$ 510,700 | \$ 442,200 |
| Service cost..... | 32,800 | 31,800 | 12,000 | 11,300 |
| Interest cost..... | 62,000 | 57,500 | 28,500 | 25,100 |
| Amendments..... | 500 | - | - | 200 |
| Actuarial loss..... | (24,100) | 24,500 | (23,500) | 45,600 |
| Benefits paid..... | (37,100) | (34,100) | (14,200) | (13,700) |
| Benefit obligation at end of year..... | <u>\$ 1,130,800</u> | <u>\$ 1,096,700</u> | <u>\$ 513,500</u> | <u>\$ 510,700</u> |
| Change in plan assets: | | | | |
| Fair value of plan assets at beginning of year..... | \$ 928,900 | \$ 795,300 | \$ - | \$ - |
| Actual return on plan assets..... | 100,800 | 107,700 | - | - |
| Employer contributions..... | 70,000 | 60,000 | 14,300 | 13,600 |
| Benefits paid..... | (37,100) | (34,100) | (14,300) | (13,600) |
| Fair value of plan assets at end of year ... | <u>\$ 1,062,600</u> | <u>\$ 928,900</u> | <u>\$ -</u> | <u>\$ -</u> |
| Funded status..... | \$ (68,200) | \$ (167,800) | \$ (513,500) | \$ (510,700) |
| Unrecognized transition obligation..... | - | - | 18,700 | 21,800 |
| Unrecognized net actuarial loss..... | 171,600 | 239,200 | 183,500 | 219,200 |
| Unrecognized prior service cost..... | 16,300 | 18,000 | 6,800 | 7,600 |
| Post January 31 contributions..... | - | - | 4,500 | 3,800 |
| Net asset (liability) recognized..... | <u>\$ 119,700</u> | <u>\$ 89,400</u> | <u>\$ (300,000)</u> | <u>\$ (258,300)</u> |
| Amounts recognized in Combined Balance Sheets: | | | | |
| Prepaid benefit cost..... | \$ 119,700 | \$ 89,400 | \$ - | \$ - |
| Additional minimum liability..... | - | (91,300) | - | - |
| Net additional minimum liability..... | 119,700 | (1,900) | - | - |
| Accrued benefit liability..... | - | - | (300,000) | (258,300) |
| Intangible asset..... | - | 18,000 | - | - |
| Accumulated other comprehensive income ... | - | 73,300 | - | - |
| Net asset (liability) recognized..... | <u>\$ 119,700</u> | <u>\$ 89,400</u> | <u>\$ (300,000)</u> | <u>\$ (258,300)</u> |

The following table outlines the projected benefit obligation and accumulated benefit obligation in excess of Plan assets as of April 30, based on January 31 valuation dates (in thousands):

| | 2007 | 2006 |
|--------------------------------------|--------------|--------------|
| Projected benefit obligation | \$ 1,130,800 | \$ 1,096,700 |
| Accumulated benefit obligation | \$ 966,400 | \$ 930,800 |
| Fair value of Plan assets | \$ 1,062,600 | \$ 928,900 |

The District internally funds its other postretirement benefits obligation. At April 30, 2007 and 2006, \$424.7 million and \$339.5 million of segregated funds, respectively, were designated for this purpose.

The weighted average assumptions used to calculate actuarial present values of benefit obligations at April 30 were as follows:

| | Pension Benefits | | Postretirement Benefits | |
|------------------------------------|------------------|-------|-------------------------|-------|
| | 2007 | 2006 | 2007 | 2006 |
| Discount rate..... | 6.0% | 5.75% | 6.0% | 5.75% |
| Rate of compensation increase..... | 4.0% | 4.0% | 4.0% | 4.0% |

Weighted average assumptions used to calculate net periodic benefit costs were as follows:

| | Pension Benefits | | Postretirement Benefits | |
|-------------------------------------|------------------|-------|-------------------------|-------|
| | 2007 | 2006 | 2007 | 2006 |
| Discount rate..... | 5.75% | 5.75% | 5.75% | 5.75% |
| Expected return on Plan assets..... | 8.25% | 8.25% | N/A | N/A |
| Rate of compensation increase..... | 4.0% | 4.0% | 4.0% | 4.0% |

For employees who retire at age 65 or younger, for measurement purposes, a 9% annual increase before attainment of age 65 and an 11% annual increase on and after attainment of age 65 in per capita costs of health care benefits were assumed during 2006; these rates were assumed to decrease uniformly until equaling 5% in all future years.

Components of net periodic benefit costs for the years ended April 30, are as follows (in thousands):

| | Pension Benefits | | Postretirement Benefits | |
|--|------------------|------------------|-------------------------|------------------|
| | 2007 | 2006 | 2007 | 2006 |
| Service cost..... | \$ 32,800 | \$ 31,800 | \$ 12,000 | \$ 11,300 |
| Interest cost..... | 62,000 | 57,500 | 28,500 | 25,100 |
| Expected return on Plan assets..... | (73,300) | (66,400) | - | - |
| Amortization of transition obligation..... | - | - | 3,100 | 4,100 |
| Recognized net actuarial loss..... | 16,000 | 14,200 | 12,600 | 11,000 |
| Amortization of prior service cost | 2,300 | 2,300 | 700 | 100 |
| Net periodic benefit cost | <u>\$ 39,800</u> | <u>\$ 39,400</u> | <u>\$ 56,900</u> | <u>\$ 51,600</u> |

Assumed health care cost trend rates have a significant effect on the amounts reported for health care plans. A one-percentage-point change in the assumed health care cost trend rates would have the following effect (in thousands):

| | One Percentage Point Increase | One Percentage Point Decrease |
|---|--|--|
| | | |
| Effect on total service cost and interest cost components | \$ 6,400 | \$ (5,700) |
| Effect on postretirement benefit obligation | \$ 72,600 | \$ (63,300) |

Plan Assets

The Board has established an investment policy for Plan assets and has delegated oversight of such assets to a compensation committee (the Committee). The investment policy sets forth the objective of providing for future pension benefits by targeting returns consistent with a stated tolerance of risk. The investment policy is based on analysis of the characteristics of the Plan sponsors, actuarial factors, current Plan condition, liquidity needs, and legal requirements. The primary investment strategies are diversification of assets, stated asset allocation targets and ranges, and external management of Plan assets. The Committee determines the overall target asset allocation ratio

for the Plan and defines the target asset allocation ratio deemed most appropriate for the needs of the Plan and the risk tolerance of the District.

The Plan's weighted-average asset allocations at April 30, based on January 31 valuations, are as follows:

| | Target Allocations | 2007 | 2006 |
|-------------------------|-----------------------|--------|--------|
| Equity securities | 65.0% | 65.8% | 66.0% |
| Debt securities | 25.0% | 23.6% | 25.3% |
| Real estate | 10.0% | 10.6% | 8.7% |
| Total | 100.0% | 100.0% | 100.0% |

The investment policy allows for a tolerance range of plus or minus 5% from the stated target asset allocation.

Long Term Rate of Return

The expected return on Plan assets is based on a review of the Plan asset allocations and consultations with a third-party investment consultant and the Plan actuary, considering market and economic indicators, historical market returns, correlations and volatility, and recent professional or academic research. As history has demonstrated, markets may decline and increase dramatically; however, the expected rate of return on the Plan assets is reasonable given its asset allocation in relation to historical and expected future performance.

Employer Contributions

The District expects to contribute \$50.0 million to the Plan over the next valuation period.

Benefits Payments

The District expects to pay benefits in the amounts as follows (in thousands):

| | |
|------------------------|-----------|
| 2008..... | \$40,856 |
| 2009..... | \$44,268 |
| 2010..... | \$48,104 |
| 2011..... | \$52,108 |
| 2012..... | \$55,935 |
| 2013 through 2017..... | \$346,560 |

Defined Contribution Plan

SRP's Employees' 401(k) Plan (the 401(k) Plan) covers substantially all employees. The 401(k) Plan receives employee pre-tax and post-tax contributions and partial employer matching contributions. Employer matching contributions to the 401(k) Plan were \$12.3 million and \$11.2 million during fiscal years 2007 and 2006, respectively.

Employee Incentive Compensation Program

SRP has an incentive compensation program covering substantially all regular employees. The incentive compensation amount is based on achievement of pre-established targets. An accrual of \$29.2 million and \$28.6 million for fiscal years ended April 30, 2007 and 2006, respectively, is included in other current liabilities in the accompanying Combined Balance Sheets. This liability is stated net of receivables from participants in jointly-owned electric plants of \$1.5 million and \$2.7 million at April 30, 2007 and 2006, respectively.

(8) Interests in Jointly-Owned Electric Utility Plants:

The District has entered into various agreements with other electric utilities for the joint ownership of electric generating and transmission facilities. Each participating owner in these facilities must provide for the cost of its

ownership share. The District's share of expenses of the jointly-owned plants is included in operating expenses in the accompanying Combined Statements of Net Revenues.

The following table reflects the District's ownership interest in jointly-owned electric utility plants as of April 30, 2007 (in thousands):

| Generating Station | Ownership Share | Plant in Service | Accumulated Depreciation | Construction Work In Progress |
|--------------------------------------|-----------------|---------------------|--------------------------|-------------------------------|
| Four Corners (NM) (Units 4 & 5)..... | 10.00% | \$ 108,568 | \$ (95,213) | \$ 3,651 |
| Mohave (NV) (Units 1 & 2)..... | 20.00% | 131,803 | (129,377) | - |
| NGS (AZ) (Units 1, 2 & 3)..... | 21.70% | 356,712 | (288,421) | 3,000 |
| Hayden (CO) (Unit 2) | 50.00% | 117,089 | (90,835) | 747 |
| Craig (CO) (Units 1 & 2) | 29.00% | 267,900 | (175,399) | 2,642 |
| PVNGS (AZ) (Units 1, 2 & 3) | 17.49% | 1,261,488 | (909,854) | 39,957 |
| | | <u>\$ 2,243,560</u> | <u>\$(1,689,099)</u> | <u>\$ 49,997</u> |

The Mohave Generating Station (Mohave) ceased operations on December 31, 2005, pending installation of new environmental controls and resolution of other operating issues. (See Note (9), REGULATORY ISSUES, Mohave Generating Station, for a discussion of matters pertaining to Mohave.) There remains approximately \$2.4 million in net plant value at Mohave for the switchyard and transmission line still used to route power to other inter-tied systems.

(9) Regulatory Issues:

Fundamental Changes in the Electric Utility Industry

The District historically operated in a highly regulated environment in which it had an obligation to deliver electric service to customers within its service area. In 1998, the Arizona Electric Power Competition Act (the Act) authorized competition in the retail sales of electric generation, recovery of stranded costs, and competition in billing, metering and meter reading.

While retail competition was available to all customers by 2001, there were only a few customers who chose an alternative energy provider. Those customers have since returned to their incumbent utilities. At this time, there is no active retail competition within the District's service territory or, to the knowledge of the District, within the State of Arizona. However, during the past year, two retail energy service providers and one meter service provider have reapplied to the Arizona Corporation Commission for authorization to sell energy in Arizona. These cases are pending, and a hearing on the first application is scheduled for July 31, 2007.

In 1996, the Federal Energy Regulatory Commission (FERC), which regulates the wholesale electric utility industry under the authority of various statutes, issued Orders 888 and 889 requiring transmitting "public utilities" (as defined in the Federal Power Act), to provide nondiscriminatory transmission services to entities seeking to effect wholesale power transactions, and to grant equal access to information concerning the pricing and availability of transmission services. The District is not a public utility under the Federal Power Act but historically has complied with these requirements voluntarily. The Energy Policy Act of 2005 (the "Energy Policy Act") expanded FERC jurisdiction by granting FERC discretionary authority to regulate the non-rate terms and conditions, and to a lesser extent, rates, under which unregulated transmitting utilities (including the District) provide wholesale transmission services. The Energy Policy Act explicitly prohibits FERC from requiring unregulated transmitting utilities to take actions that would violate a private activity bond rule.

On February 16, 2007, FERC issued Order 890, completing a nearly two-year effort to revise and update Order 888 on open access to transmission lines. In Order 890, FERC declined to generically implement the discretionary authority over unregulated transmitting utilities (including the District). FERC determined the authority would be used on a case-by-case basis. The elements of Order 890 that apply to the District, or that the District will voluntarily comply with, include increased standardization in the calculation of available transmission capacity and

regional transmission planning processes. The District does not expect the changes in Order 890 to result in significant adverse impacts on its operations.

The Changing Regulatory Environment

The District has fully opened its service area to competition in generation and billing, metering and meter reading. The District's electric distribution area remains regulated by its Board, and the District will not provide distribution services in the distribution areas of other utilities.

The District's price plans have been unbundled since 1999. In May 2002, the District implemented a Fuel & Purchased Power Adjustment Mechanism (FPPAM) to allow for semi-annual rate adjustments to recover increases in actual fuel costs. The District has had several increases in the price of fuel and purchased power since the FPPAM was implemented. (See Note (2), SIGNIFICANT ACCOUNTING POLICIES, Rate Stabilization Fund, for additional information.) In June 2004, the District introduced a Transmission Cost Adjustment Factor (TCAF) to recover costs the District would incur if the District were required to participate in regional transmission organizations. To date, no costs have been incurred or recovered through the TCAF.

On October 2, 2006, the District Board approved a 2.3% system average fuel and purchased power increase under the FPPAM beginning November 1, 2006. The increase was needed to address an under-recovery of retail fuel and purchased power expenses. The increase is expected to generate annual revenues of approximately \$46.0 million.

Through a surcharge to the District's transmission and distribution customers, the District recovers the costs of programs benefiting the general public, such as discounted rates for the elderly or impoverished, efficiency programs, demand-side management measures, renewable energy programs, economic development, research and development and nuclear decommissioning, including the cost of spent fuel storage. In its October 2005 pricing approval, the Board approved additional funding for renewable energy programs, energy efficiency and energy conservation effective beginning November 1, 2005. These surcharges continue to be separately identified and included in the District's price plans for the regulated portion of its operations.

Mohave Generating Station

The District and the other Participants in Mohave entered into a settlement with the Sierra Club, the Grand Canyon Trust, and the National Parks Conservation Association, that required the installation of certain pollution abatement equipment by the end of 2005 to continue operating Mohave as a coal-fired electric generating facility. (See Note (11), CONTINGENCIES, Air Quality, for additional information on air quality issues.) In addition, the initial term of the agreement with Peabody Western Coal Company (Peabody) to supply coal to Mohave expired at the end of 2005 and the Hopi Tribe demanded that the pumping of water from the Navajo Aquifer for the slurry pipeline serving Mohave cease. The Mohave Participants refused to commit to install pollution abatement equipment without reasonable assurance that water would be available to enable the delivery of coal to the plant. Consequently, the plant suspended operations at the end of 2005.

The Mohave Participants, the Navajo Nation, the Hopi Tribe and Peabody have been participating in mediation for an alternative source of water for the mine and the slurry pipeline if the life of Mohave were extended and to resolve other related issues. However, Southern California Edison Company (SCE), operating agent for Mohave, as well as the other two Participants, the Los Angeles Department of Water and Power and Nevada Power Company, advised the District in June 2006 that they did not intend to proceed with efforts to extend the life of Mohave. The mediation efforts continued, but subsequent efforts of SCE to sell the plant as a coal-fired plant, and the District's efforts to acquire the other Participants' interests in the plant, were unsuccessful. The District continues to evaluate its options but is not certain if, and when, a resolution would be reached that would allow the District to continue ownership in Mohave as a coal-fired generation source. The District has included funding in its Capital Improvement Program to cover the costs of alternate resources and has already replaced a portion of the energy it would have received had Mohave continued operations. The District is considering several options for replacing the balance of the capacity if Mohave is not reopened. (See Note (11), CONTINGENCIES, Coal Supply Litigation, for a discussion of other related issues.)

During fiscal year 2003, faced with the complex and contentious issues involved in the mediation noted above, and the potential closure of the plant at the end of 2005, the Board authorized the recovery of the balance of the District's investment in Mohave in its revenue requirements prior to the closure of the plant. Consequently, a write-down of the plant's carrying value of \$66.2 million was recorded in fiscal year 2003, and an additional \$5.2 million and \$6.6 million of impairment was recorded in fiscal years 2005 and 2004, respectively. In accordance with accounting standards for rate-regulated enterprises (SFAS No. 71), a regulatory asset was established for \$78.0 million, based on the District's expectation that any un-recovered book value at the end of 2005 would be recovered in future rates. At April 30, 2007 and 2006, the Mohave net regulatory asset was \$67.6 million and \$75.4 million, respectively, and is included in deferred charges and other assets on the accompanying Combined Balance Sheets. The Mohave asset is being recovered over a ten-year period which began in fiscal year 2006.

Deferred Charges and Deferred Credits

Deferred charges and other assets consist primarily of the following at April 30 (in thousands):

| | 2007 | 2006 |
|--|-------------------|-------------------|
| Bond defeasance regulatory asset..... | \$ 86,638 | \$ 90,818 |
| Mohave Generating Station regulatory asset | 67,605 | 75,406 |
| Spent nuclear fuel storage regulatory asset..... | 21,753 | 21,842 |
| Derivatives market valuation | 40,813 | 50,323 |
| Prepaid pension benefit cost | 119,700 | - |
| Deferred lease asset..... | 32,639 | - |
| Pension intangible asset | - | 18,001 |
| Other | 53,118 | 49,931 |
| | <u>\$ 422,266</u> | <u>\$ 306,321</u> |

If events were to occur making full recovery of these regulatory assets no longer probable, the District would be required to write off the remaining balance of such assets as a one-time charge to net revenues.

Deferred credits and other non-current liabilities consist primarily of the following at April 30 (in thousands):

| | 2007 | 2006 |
|--|-------------------|-------------------|
| Asset retirement obligation..... | \$ 195,005 | \$ 183,965 |
| Accrued postretirement benefit liability | 300,000 | 258,065 |
| Additional pension minimum liability | - | 1,890 |
| Accrued decommissioning costs | 17,045 | 5,597 |
| Provision for contract losses | 53,059 | 66,339 |
| Deferred lease income..... | 32,440 | - |
| Derivatives market valuation | 9,085 | 38,976 |
| Accrued spent nuclear fuel storage..... | 24,586 | 24,245 |
| Accrued environmental issues | 83,973 | 78,511 |
| Other | 60,625 | 62,261 |
| | <u>\$ 775,818</u> | <u>\$ 719,849</u> |

(10) Commitments:

Improvement Program

The Improvement Program represents the District's six-year plan for major construction projects and capital expenditures for existing generation, transmission, distribution and irrigation assets. For the 2008-2013 time period, the District estimates capital expenditures of approximately \$7.0 billion. Major construction projects include construction of Unit 4 at Springerville Generating Station, funding for a new 600 MW baseload generation resource, continued participation in the Southeast Valley Transmission Project and other key generation, distribution and transmission projects.

Long-Term Power Contracts

The District entered into three contracts, collectively, with the United States Bureau of Reclamation (United States), the Western Area Power Administration and the Central Arizona Water Conservation District (CAWCD) for the long-term sale, through September 2011, of power and energy associated with the United States' entitlement to NGS. The amount of energy available to the District varies annually and is expected to decline over the life of the contracts. The District pays a fixed amount under the contracts, pays the cost of NGS generation and other related costs, and supplies energy at cost to CAWCD for Central Arizona Project facilities. The fixed portion of the District's payment obligations under the three contracts totals \$47.0 million annually through fiscal year 2011, and \$19.6 million thereafter. Of the total obligation, \$25.2 million annually through fiscal year 2011 and \$10.5 million thereafter are unconditionally payable regardless of the availability of power. Payments under these contracts totaled \$94.4 million and \$91.5 million in fiscal years 2007 and 2006, respectively.

The District entered into two other long-term power purchase agreements to obtain a portion of its projected load requirements through 2011 and has an agreement in place for the extension of one of the agreements through May 2016. Minimum payments under these contracts are \$38.0 million annually through fiscal year 2011 and \$1.9 million thereafter. Total payments under these two contracts, including the minimum payments, were \$71.0 million and \$68.4 million in fiscal years 2007 and 2006, respectively. In conjunction with the impairment analysis performed on generation-related operations, the District has recorded provisions for losses on these contracts. The provisions recorded in August 1998, of \$163.7 million, are being amortized over the life of the contracts, commencing January 1, 1999. Amortization of \$13.3 million has been reflected as a reduction in purchased power expense in fiscal years 2007 and 2006. The remaining liability at April 30, 2007 of \$53.0 million is included in deferred credits and other non-current liabilities in the Combined Balance Sheets.

In addition, beginning on September 1, 2006, the District has 100 MW of capacity from Springerville Generating Station Unit 3, pursuant to a 30-year power purchase agreement. Minimum payments under this contract are \$26.1 million annually through fiscal year 2012 and \$677.3 million thereafter. Total payments on this contract during the year ended April 30, 2007 were \$23.8 million, including minimum payments.

Fuel Supply

At April 30, 2007, minimum payments under long-term coal supply contract commitments are estimated to be \$169.1 million in fiscal year 2008, \$169.1 million in fiscal year 2009, \$169.1 million in fiscal year 2010, \$170.1 million in fiscal year 2011, \$115.6 million in fiscal year 2012 and \$420.6 million thereafter.

In May 2006, the District sold a natural gas pipeline to El Paso Natural Gas Company (EPNG). The District maintains options to purchase an ownership interest in the pipeline and also holds a perpetual right of first refusal with EPNG if EPNG desires to sell the pipeline. Accordingly, the District recorded a deferred asset and an offsetting deferred income amount in the accounting records. The deferred asset will be depreciated and the deferred income recognized over the life of the Santan Generating Station, which is the generating station served by the pipeline. The April 30, 2007 balances of the deferred asset and deferred income are \$32.6 million and \$32.4 million, respectively, and included in deferred charges and other assets, and deferred credits and other non-current liabilities, respectively, in the Combined Balance Sheets.

Springerville Generating Station

In 2001 the District entered into an agreement with UniSource Energy Development Company (UniSource) for the joint development of two additional coal-fired generating units (Units 3 and 4), approximately 400 MW each in size, to be located at the existing Springerville (Arizona) Generating Station. Under an amendment to the agreement, dated October 20, 2003, the District entered into a 30-year power purchase agreement (the PPA) to purchase 100 MW of capacity from Unit 3, which was developed by Tri-State Generation and Transmission Association, Inc. Unit 3 was placed in service in September 2006, beginning the 30-year term of the PPA. In addition, the District received the right to construct the fourth unit (Unit 4) at any time during the term of the PPA. The District originally held such rights in a wholly-owned subsidiary, Springerville Four, but such rights were assigned to the District on February 1, 2007. The District has begun construction of Unit 4 and expects it to be in service by the end of calendar year 2009. As of April 30, 2007, the District has recognized \$128.6 million of construction costs which are included in construction work in progress in the Combined Balance Sheets. The Springerville 4 Project is anticipated to cost approximately \$790.5 million. UniSource's affiliate, Tucson Electric Power Company, operates Units 1, 2 and 3 and will operate Unit 4 upon completion.

(11) Contingencies:

Nuclear Insurance

Under existing law, public liability claims arising from a single nuclear incident are limited to \$10.8 billion. PVNGS Participants insure for this potential liability through commercial insurance carriers to the maximum amount available (\$300.0 million) with the balance covered by an industry-wide retrospective assessment program as required by the Price-Anderson Act. If losses at any nuclear power plant exceed available commercial insurance, the District could be assessed retrospective premium adjustments. The maximum assessment per reactor per nuclear incident under the retrospective program is \$100.6 million including a 5% surcharge, applicable in certain circumstances, but not more than \$15.0 million per reactor may be charged in any one year for each incident.

Based on the District's ownership share of PVNGS, the maximum potential assessment would be \$52.8 million, including the 5% surcharge, but would be limited to \$7.9 million per incident in any one year.

Spent Nuclear Fuel

Under the Nuclear Waste Policy Act of 1982, the District pays \$0.001 per kWh on its share of net energy generation at PVNGS to the U.S. Department of Energy (DOE). The DOE was responsible for the selection and development of a repository for permanent storage and disposal of spent nuclear fuel not later than December 31, 1998. However, the DOE has announced that it will delay submitting an application to construct a permit repository at Yucca Mountain until 2008. A decision on licensing is not expected until at least 2010 and the facility is unlikely to open until at least 2017. Because of the significant delays in the DOE's schedule, it cannot be determined when the DOE will accept waste from PVNGS or from the other owners of spent nuclear fuel. It is unlikely, due to PVNGS' position in DOE's queue for receiving spent fuel, that Arizona Public Service Company (APS), the operating agent of PVNGS, will be able to initiate shipments to DOE during the licensed life of PVNGS. Accordingly, APS has constructed an on-site dry cask storage facility to receive and store PVNGS spent fuel. The facility stored its first cask in March 2003. Fifty-three casks are now stored on site.

The District's share of on-site interim storage at PVNGS is estimated to be \$35.1 million for costs to store spent nuclear fuel from inception of the plant through fiscal year-end 2007, and \$2.8 million per year going forward. These costs have been included in the District's regulated operations price plans for transmission and distribution.

Coal Supply Litigation

Navajo Nation v. Peabody (US Dist. Court, D.C. District) – In June 1999, the Navajo Nation filed a lawsuit in the United States District Court in Washington D.C. (the "U.S. District Court"), alleging that Peabody (the coal supplier for NGS), Southern California Edison Company (operating agent for Mohave), the District (operating agent for NGS) and certain individual defendants, induced the United States to breach its fiduciary duty to the Navajo Nation, and violated federal racketeering statutes. The lawsuit arises out of negotiations culminating in 1987 with amendments to the coal leases and related agreements. The suit alleges \$600.0 million in damages. The plaintiffs

also seek treble damages against the defendants, measured by any amounts awarded under the racketeering statutes. In addition, the plaintiffs claim punitive damages of not less than \$1.0 billion. In March 2001, the Hopi Tribe intervened in the suit. The claims of both the Navajo Nation and the Hopi Tribe were dismissed in their entirety with respect to the District, but the dismissal is appealable.

On February 9, 2005, the U.S. District Court granted a motion to stay the litigation until further order of the court while the parties were in mediation with respect to this litigation and related business issues. On June 1, 2007, the parties jointly filed a status report in the District Court, noting that at the suggestion of the mediator, they intend to continue to engage in further mediation for the purpose of exploring whether alternative development proposals could provide a basis for resolving this lawsuit and related issues. Another status report must be filed with the District Court by October 7, 2007.

Navajo Nation v. United States (Court of Federal Claims) – Previously, the Navajo Nation had filed a suit against the United States Government based on similar allegations. The lawsuit was dismissed, but on appeal, it was reinstated and the Court of Appeals, in August 2001, held that the United States had breached its fiduciary duty under certain specific statutes to the Navajo Nation, and that a claim for damages was within the jurisdiction of the Court of Federal Claims. In March 2003, the United States Supreme Court, reversed the decision of the Court of Appeals and remanded the case for further proceedings consistent with its opinion. Instead of dismissing the case, the Court of Appeals remanded the case to the Court of Federal Claims and ordered that court to determine whether other statutes and regulations impose enforceable fiduciary duties upon the United States in connection with Peabody's leases and, if so, whether the United States breached such duties. Following remand, the Court of Federal Claims again dismissed the case in its entirety. That decision is now on appeal to the United States Court of Appeals for the Federal Circuit.

Peabody Legal Fees Cases – Peabody claims it is entitled to reimbursement under both the NGS Coal Supply Agreement and the Mohave Coal Supply Agreement for its costs associated with the defense of the challenges by the Navajo Nation and Hopi Tribe to these coal leases (see above matters). Peabody has filed two separate lawsuits against the NGS and Mohave Participants, respectively, seeking recovery of these fees. The Mohave and NGS Participants dispute Peabody's attempt to recover its legal costs under the coal leases.

As for the Mohave fees, the District has been dismissed from the litigation and awarded its attorney's fees. On appeal, however, the case was remanded to determine whether the District should remain in the lawsuit.

The Mohave Participants and Peabody executed a settlement agreement pursuant to which Peabody granted the Mohave Participants a waiver for fees incurred prior to January 2006. However, as described above, the lawsuit for fees arising after December 2005 continues.

In the NGS legal fees case, Peabody's claims against the NGS Participants were dismissed. Peabody appealed this ruling. On appeal, the trial court's dismissal of the case was affirmed by the Arizona Court of Appeals and review has been denied by the Arizona Supreme Court.

Peabody v. SRP (the St. Louis Case) – Peabody has also filed suit in St. Louis, Missouri against the District and the other owners of NGS asserting claims against both the Participants and the District relating to liability issues associated with the Navajo Nation Lawsuit, alleged breach of the NGS Coal Supply Agreement, breach of indemnity obligations owed to Peabody as the alleged agent of the NGS Participants, and claims of tortious interference with contracts and tortious interference with business expectancies against the District. The claim seeks \$500.0 million and unspecified compensatory damages, prejudgment interest, attorneys' fees and costs.

District v. Peabody – The NGS Participants are contesting their alleged liability for mine closing, final reclamation, mine decommissioning and environmental monitoring costs, and certain post retirement health care and life insurance benefits that Peabody will pay or provide to its employees after termination of the NGS Coal Supply Agreement and associated closure of the Kayenta Mine. Neither the District's responsibility nor the ultimate amount of liability, if any, can be determined at this time. The District has determined there is a range of possible outcomes and has recorded losses at the lower end of the range. Additional exposure to the District could occur if the outcome is in the higher end of the range.

The District is unable to predict the likely outcome of the coal supply litigation matters at this time but does not believe that the final resolution of these matters will have material adverse effects on its operations or financial condition.

Environmental

SRP is subject to numerous legislative, administrative and regulatory requirements relative to air quality, water quality, hazardous waste disposal and other environmental matters. SRP conducts ongoing environmental reviews of its properties for compliance and to identify those properties it believes may require remediation. Such requirements have resulted, and will continue to result, in increased costs associated with the operation of existing properties.

In September 2003, the District received notice from the U.S. Environmental Protection Agency (EPA) that it is potentially liable under the Comprehensive Environmental Response, Compensation and Liability Act as an owner and operator of a facility (the 16th St. facility) within the Motorola 52nd Street Superfund Site. The District may be liable for past costs incurred and for future work to be conducted within the Superfund Site. Investigation and evaluation of this potential liability are in the preliminary stages, but initial soil vapor investigations indicate some contamination on site. Further soil and groundwater investigations will take place during 2007. The District is unable at this time to predict the outcome, but believes that it has adequate reserves for this potential liability.

The EPA is continuing its national enforcement initiative under the New Source Review (NSR) provisions of the Clean Air Act (CAA). This initiative is focused on determining whether companies failed to disclose major repairs or alterations to facilities that, in the opinion of the EPA, would have required the installation of new pollution control equipment. The District has been contacted by the EPA as part of this initiative and negotiations are ongoing. The District anticipates a satisfactory resolution that would include new emissions limits and installation of new pollution control technology at CGS.

Several species listed as "endangered" or "threatened" under the Endangered Species Act (ESA) have been discovered in and around Roosevelt and Horseshoe Dams. As provided in the ESA, the District entered into formal consultation with the United States Fish and Wildlife Service (USFWS), and developed a Habitat Conservation Plan (Plan), which allows full operation of Roosevelt Dam and Reservoir, provided the District established habitats for the species in other areas or through other measures. The District is engaged in similar consultations with the USFWS to obtain a permit for operation of the Horseshoe and Bartlett Dams on the Verde River. The USFWS issued a permit for operation of Roosevelt Dam in 2003, and the District anticipates receiving a permit for operations on the Verde River by March 2008.

Air Quality

In December 1999, the participants in Mohave Generating Station settled a lawsuit alleging numerous and continuing violations of opacity and sulfur dioxide standards. Under the terms of the settlement, the participants were required to install by January 1, 2006, a sulfur dioxide scrubber and other pollution control equipment. Major plant modifications, including emissions controls, are required for continued operation as a coal-fired plant. Capital costs were estimated at \$1 billion, of which the District's share would be \$211.3 million. These costs were included in capital contingencies portion of the 2007-2012 Improvement Program. However, as discussed in Note (9) REGULATORY ISSUES, Mohave Generating Station, the uncertainty in post-2005 coal and water supply caused the Mohave Participants to be unwilling to make the necessary investments and funding was removed from the District's 2008-2013 Improvement Program.

Electric utilities are subject to continuing environmental regulation. Federal, state and local standards and procedures that regulate the environmental impact of electric utilities are subject to change. These changes may arise from continuing legislative, regulatory and judicial action regarding such standards and procedures. Consequently, there is no assurance that facilities owned by the District will remain subject to the regulations currently in effect, will always be in compliance with future regulations, or will always be able to obtain all required operating permits. An inability to comply with environmental standards could result in additional capital expenditures to comply, reduced operating levels, or the complete shutdown of individual electric generating units not in compliance. Although the prospect for new Clean Air Act legislation in 2007 is low, as a result of the legislative and regulatory initiatives, the District is planning emission reductions at its coal-fired power plants.

The EPA issued final regulations for the control of mercury emissions from coal-fired generating stations in May 2005. Arizona has opted into the federal mercury program and imposed additional mercury emissions limitations which will require the District to install additional controls at CGS and Springerville Unit 4 to achieve 90% mercury removal. In addition, the District is participating in EPA development of a rule to regulate mercury emissions on the Navajo Reservation, where the District owns an interest in two generation stations, NGS and Four Corners, and additional controls are highly likely at both plants. The District is still evaluating compliance options and cannot yet estimate the associated costs.

In June 2005, the EPA also issued final amendments to its July 1999 regional haze rule. These amendments apply to the provisions of the regional haze rule that require emissions controls known as Best Available Retrofit Technology (BART) for coal-fired power plants and other industrial facilities that emit air pollutants that reduce visibility. The amendments include final guidelines for states to use in determining which facilities must install controls and the types of controls that facilities must use. States must complete the BART determinations for eligible facilities by the end of 2007. BART controls must be installed five years after the EPA approves a state's BART determination. The District has financial interests in several coal-fired power plants that may be subject to the new BART requirements.

The District recognizes the growing importance of the issues concerning climate change (global warming) and the implications they could have on its operations, so it is closely monitoring related developments at the federal, state and regional levels. Federal legislation has been proposed which would, among other things, cap or tax emissions of carbon dioxide from fossil fuel power plants. There have also been several regional initiatives aimed at curbing greenhouse gas emissions. The District is assessing the risk of these policy initiatives on its generation assets and is developing contingency plans to comply with future laws and regulations restricting greenhouse gas emissions. There is no way to predict the impact of such initiatives on the District at this time.

The California Legislature has enacted laws that could impact the District. Under one such law, the California Public Utilities Commission and the California Energy Commission must implement regulations that, among other things, prohibit procurement of electricity from a coal-fired power plant for five years or longer and restrict investments in coal-fired plants. The Los Angeles Department of Water and Power (LADWP), one of the participants in NGS, and SCE, a participant in Four Corners Units 4 and 5, are subject to the regulations and may be precluded from approving certain expenditures at the plants, including capital improvements. The regulations except expenditures for "routine maintenance"; however, no definition is provided. Another of the recent laws could impact the District's ability to sell excess generation into California. If this law and its implementing regulations mean that no purchaser of energy in California could purchase energy generated by a coal-fired plant, the District could lose California as a market for its wholesale generation; however, the District has other options for marketing its wholesale generation. The District is monitoring and participating in the development of these regulations to determine the full extent of their impact on the District and the plants in which it has an interest. There is no way to predict the impact of this law on the District at this time.

Natural Gas Supply

The District had a contract with El Paso Natural Gas Company for the transportation of natural gas on a full-requirements basis. FERC converted the full requirements contract to a contract with monthly limits. A Phoenix area shipper, whose full-requirements contract was also converted, asked FERC to reallocate transportation costs among all of the Phoenix area shippers. FERC denied this request. The shipper then filed a petition for rehearing with FERC which is still pending. If the shipper is successful, the approximate impact to the District could be as much as \$20.0 million.

Voluntary Contributions in Lieu of Taxes

The Arizona Department of Revenue (ADOR) challenged the District's exclusion of contributions in aid of construction (CIAC) in calculating the total value of District property for purposes of computing voluntary contributions in lieu of taxes (in-lieu contributions) paid by the District. While the District obtained a favorable ruling from the Arizona State Board of Equalization, the Arizona Tax Court subsequently rendered a favorable decision to the ADOR on appeal. The District appealed the decision of the Arizona Tax Court to the Arizona Court of Appeals. The Court of Appeals ruled in the District's favor on January 19, 2006. The ADOR then filed a petition

for review of this decision with the Arizona Supreme Court, which was denied. At issue had been the District's liability for approximately \$13.8 million plus interest for fiscal years 2003 (four months), 2004 (12 months), and 2005 (eight months). In fiscal year 2007, the District recognized \$15.5 million of income due to the reversal of previously recorded reserves resulting in the reduction of other operating expenses in the accompanying combined financial statements as of April 30. For calendar years 2005 and forward, legislation was passed that codifies the exclusion of CIAC from the in-lieu contributions formula.

California Energy Market Issues

Numerous FERC proceedings are addressing various aspects of the California energy market "crisis" of 2000 through 2001. Several of these proceedings involve potential refunds. Because the District bought from and sold power to the California energy market, the District has been drawn into many of the proceedings. However, the District was a net buyer in the California market during the time periods being scrutinized, and believes it is entitled to refunds if any are ordered and has received approximately \$20.5 million in refunds to date. In June 2007, FERC approved an additional \$1.7 million refund which the District expects to receive in July or August 2007.

Indian Matters

From time to time, SRP is involved in litigation and disputes with various Indian tribes on issues concerning regulatory jurisdiction, royalty payments, taxes and water rights, among others (see Coal Supply Litigation and Air Quality above). Resolution of these matters may result in increased operating expenses.

Water Rights

The District and the Association are parties to a state water rights adjudication proceeding encompassing the entire Gila River System (the Gila River Adjudication). This proceeding is pending in the Superior Court for the State of Arizona, Maricopa County, and will eventually result in the determination of all conflicting rights to water from the Gila River and its tributaries, including the Salt and Verde Rivers. The District and the Association are unable to predict the ultimate outcome of this proceeding.

The United States, on behalf of the Gila River Indian Community (GRI Community), filed a lawsuit in 1982 in the Federal District Court, District of Arizona, to protect the water right claims of the GRI Community. The Association is among the many defendants named in this lawsuit. The lawsuit claims that the defendants' use of surface water and groundwater violates the GRI Community's rights to water in certain specified areas, and requests a decree specifying the GRI Community's rights, injunctive relief to stop the alleged illegal use of water by the defendants, and damages for increased costs to the GRI Community from, among other things, having to deepen its wells. This lawsuit has been stayed pending the outcome of the Gila River Adjudication.

In 2004, the U.S. Congress enacted the Arizona Water Rights Settlement Act of 2004, which, when fully implemented, will resolve the claims of the GRI Community listed above as well as many of the claims in the Gila River Adjudication. However, there are many conditions precedent to the full effectiveness and enforceability of the act and its associated agreements.

In 1978, a water rights adjudication was initiated in the Apache County Superior Court with regard to the Little Colorado River System. The District has filed its claim to water rights in this proceeding, which includes a claim for groundwater being used in the operation of CGS. The District is unable to predict the ultimate outcome of this proceeding, but believes an adequate water supply for CGS will remain available.

Other Litigation

In the normal course of business, SRP is exposed to various litigations or is a defendant in various litigation matters. In management's opinion, the ultimate resolution of these matters will not have a material adverse effect on SRP's financial position or results of operations.

Self-Insurance

The District maintains various self-insurance retentions for certain casualty and property exposures. In addition, the District has insurance coverage for amounts in excess of its self-insurance retention levels. The District provides reserves based on management's best estimate of claims, including incurred but not reported claims. In management's opinion, the reserves established for these claims are adequate and any changes will not have a material adverse effect on the District's financial position or results of operations.

APPENDIX B — SUMMARY OF THE RESOLUTION

SUMMARY OF THE RESOLUTION

The following is a summary of certain provisions of the Amended and Restated Bond Resolution. Such summary does not purport to be complete, and reference is made to the Resolution for full and complete statements of such provisions.

Certain Definitions

The following are definitions in summary form of certain terms contained in the Resolution and used herein and in the Official Statement:

Accounting Practice: Generally accepted accounting principles appropriate to the electric utility industry.

Aggregate Debt Service: For any fiscal year, and as of any date of calculation, the sum of the amounts of Debt Service for such year with respect to all Series.

Cost of Construction: The District's cost of physical construction, costs of acquisition by or for the District of a Project for the Electric System, and costs of the District incidental to such construction or acquisition, the cost of any indemnity and surety bonds and premiums on insurance during construction, engineering expenses, legal fees and expenses, cost of financing, audits, fees and expenses of the Fiduciaries, amounts, if any, required by the Resolution or any Series Resolution to be paid into the Debt Service Fund upon the issuance of any Series of Revenue Bonds, payments when due (whether at the maturity of principal or the due date of interest or upon redemption) on any indebtedness of the District (other than the Revenue Bonds) incurred for a Project for the Electric System, costs of machinery, equipment and supplies and initial working capital and reserves required by the District for the commencement of operation of a Project for the Electric System, and any other costs properly attributable to such construction or acquisition, as determined by Accounting Practice, and shall include reimbursement to the District for any such items of Cost of Construction theretofore paid by the District. Any Series Resolution may provide for additional items to be included in the aforesaid Cost of Construction.

Debt Reserve Account Credit Facility: A letter of credit, revolving credit agreement, surety bond, insurance policy or similar obligation, arrangement or instrument issued by a bank, insurance company or other financial institution, having a rating in the highest rating category from a nationally recognized rating agency, which shall be deposited in the Debt Reserve Account and which provides for the payment of all or a portion of the Debt Reserve Requirement.

Debt Reserve Requirement: As of any date of calculation, an amount equal to one-half of the average annual interest cost for all Outstanding Revenue Bonds, which may be satisfied by the deposit of cash or securities in the Debt Reserve Account or by the deposit of a Debt Reserve Account Credit Facility in the Debt Reserve Account in lieu of or in partial substitution for cash or securities on deposit therein. For purposes of determining the average annual interest cost for any Outstanding Bonds which bear interest at a variable rate, the District shall assume the same average interest cost applicable to such Outstanding Bonds for the previous Fiscal Year.

Debt Service: For any period, as of any date of calculation and with respect to any Series, an amount equal to the sum of (i) interest accruing during such period on Revenue Bonds of such Series (except to the extent that such interest is to be paid from deposits in the Debt Service Account in the Debt Service Fund made from Revenue Bond proceeds, as described in the Resolution), and (ii) that portion of each Principal Installment for such Series which would accrue during such period if such Principal Installment were deemed to accrue daily in equal amounts from the next preceding Principal Installment due date for such Series (or, if there be no such preceding Principal Installment due date, from a date one year preceding the due date of such Principal Installment). Such interest and Principal Installments for such Series shall be calculated on the assumption that no Revenue Bonds of such Series Outstanding at the date of calculation will cease to be Outstanding except by reason of the payment of each Principal Installment on the due date thereof.

Defeasance Securities: Any of the following securities, if and to the extent the same are at the time legal for investment of District funds:

(i) Any security which is (a) a direct obligation of or unconditionally guaranteed by, the United States of America or the State of Arizona or (b) an obligation of an agency or instrumentality of the United States of America the payment of which is unconditionally guaranteed as a full faith and credit obligation by the United States of America, which is not callable or redeemable at the option of the issuer thereof;

(ii) Any depositary receipt issued by a bank as custodian with respect to any Defeasance Securities which are specified in clause (i) above and held by such bank for the account of the holder of such depositary receipt, or with respect to any specific payment of principal or interest on any such Defeasance Securities which are so specified and held, by such bank for the account of the holder of such depositary receipt, or with respect to any specific payment of principal of or interest on any such Defeasance Securities which are so specified and held, provided that (except as required by law) such custodian is not authorized to make any deduction from the amount payable to the holder of such depositary receipt from any amount received by the custodian in respect of the Defeasance Securities or the specific payment of principal or interest evidenced by such depositary receipt;

(iii) Certificates of deposit, whether negotiable or non-negotiable, and banker's acceptances whose maturity value shall not be greater than 1/25 of the capital and surplus of the accepting bank or commercial paper issued by the parent holding company of any such bank which at the time of investment has an outstanding unsecured, uninsured and unguaranteed debt issue rated in the highest short term rating category by a nationally recognized rating agency;

(iv) Any obligation of any state or political subdivision of a state or of any agency or instrumentality of any state or political subdivision ("Municipal Bond") which Municipal Bond is fully secured as to principal and interest by an irrevocable pledge of moneys or direct and general obligations of, or obligations guaranteed by, the United States of America, which moneys or obligations are segregated in trust and pledged for the benefit of the holder of the Municipal Bond, and which Municipal Bond is rated in the highest rating category by at least two nationally recognized rating agencies, and provided, however, that such Municipal Bond is accompanied by (1) a Counsel's Opinion to the effect that such Municipal Bond will be required for the purposes of the investment being made therein and (2) a report of a nationally recognized independent certified account verifying that the moneys and obligations so segregated are sufficient to pay the principal of, premium, if any, and interest on the Municipal Bond; and

(v) Any other security designated in a Series Resolution as Defeasance Securities for purposes of defeasing the Bonds authorized by such Series Resolution.

Electric System: Properties and assets to which legal title is vested in the District and was so vested on the date of adoption of the Resolution and all properties and assets acquired by the District as renewals and replacements, additions and expansion, and improvements thereto, as recorded in the books of the District pursuant to Accounting Practices, but shall not include properties and assets that may be hereafter purchased, constructed or otherwise acquired by the District as a separate system or facility, the revenue of which may be pledged to the payment of bonds or other forms of indebtedness issued to purchase, construct or otherwise acquire such separate system or facility and shall not include properties or assets charged to Irrigation Plant or any Separately Financed Project.

Fiscal Year: The period commencing May 1 and ending April 30 for each twelve-month period or any other consecutive twelve month period designated by the District from time to time.

Investment Securities: Any securities if and to the extent the same are at the time legal for investment of District funds.

Irrigation Plant: All land and land rights, structure, facilities and equipment used or usable by the District or the Salt River Valley Water Users' Association solely for the development, storage, transportation, distribution and delivery of water to the owners or occupants of the lands within the Salt River Project having rights thereto or to anyone acting on behalf thereof pursuant to contracts with the Salt River Valley Water Users' Association or the District.

Operating Expenses: The District's expenses of operating the Electric System, including, without limiting the generality of the foregoing, all costs of purchased power, operation, maintenance, generation, production,

transmission, distribution, repairs, replacements, engineering and transportation required for the operation of the Electric System (including any payments made pursuant to a "take-or-pay" electric supply or energy contract that obligates the District to pay for fuel, energy or power, so long as fuel or energy is delivered or made available for delivery), administrative and general, audit, legal, financial, pension, retirement, health, hospitalization, insurance, taxes and any other expenses actually paid or accrued, without limitation, expenses of the District applicable to the Electric System, as recorded on its books pursuant to Accounting Practice and any other expenses of the District applicable to the Electric System, as recorded on its books pursuant to Accounting Practice, and any other expenses incurred or payments by the District under the provisions of the Resolution or in discharge of obligations required to be paid by local, state or federal laws, all to the extent properly allocable to the Electric System under Accounting Practice, including those expenses the payment of which is not immediately required, such as those expenses related to the funding of a reserve in the Operating Fund. Operating Expenses shall not include any costs or expenses for new construction, falling water used in hydroelectric operations of the District, charges for depreciation, voluntary payments in lieu of taxes and operation, maintenance, repairs, replacement and construction of the Irrigation Plant.

Principal Installment: As of any date of calculation, and with respect to any Series of Revenue Bonds, (i) the principal amount of Revenue Bonds of such Series due on a certain future date for which no Sinking Fund Installments have been established, or (ii) the unsatisfied balance of any Sinking Fund Installments due on a certain future date for bonds of such Series, plus the amount of sinking fund redemption premiums, if any, which would be applicable upon redemption of such Revenue Bonds in a principal amount equal to said unsatisfied balance of such Sinking Fund Installments or (iii) if such future dates coincide as to different Revenue Bonds of such Series, the sum of such principal amount of Revenue Bonds and of such unsatisfied balance of Sinking Fund Installments due on such future date plus such applicable redemption premiums, if any.

Project: The purchase, replacement, construction, leasing or acquisition of any real or personal property or interest therein, works or facilities which the District is authorized by law to purchase, replace, construct, lease or otherwise acquire, or the improvement, reconstruction, extension or addition to any real or personal property, works or facilities owned or operated by the District, or any program of development involving real or personal property, works or facilities which the District is authorized by law to purchase, replace, construct, lease or otherwise acquire or the improvement, reconstruction, extension or addition to such program.

Put Bonds: Bonds which, by their terms, may be tendered by and at the option of the owner thereof, or are subject to a mandatory tender, for payment or purchase prior to the stated maturity or redemption date thereof.

Rate Stabilization Fund: The Salt River Project Electric System Rate Stabilization Fund established in the Resolution.

Revenues: (i) All revenues, income, rents and receipts derived by the District from the ownership and operation of the Electric System and the proceeds of any insurance covering business interruption loss relating to the Electric System and (ii) interest received on any moneys or securities (other than in the Construction Fund) held pursuant to the Resolution and paid into the Revenue Fund, but not including any such income or receipts attributable directly or indirectly to the ownership or operation of any Separately Financed Project and not including any federal or state grant monies the receipt of which is conditioned upon their expenditure for a particular purpose.

Revenues Available for Debt Service: For any fiscal year or period of 12 calendar months shall mean all Revenues less Operating Expenses for such Fiscal Year or period.

Trustee: The Trustee is currently U.S. Bank National Association.

(Resolution, Section 1.01).

Pledge of Revenues and Funds

The payment of the principal and redemption price of, and interest on, the Revenue Bonds is secured by (i) the proceeds of sale of the Bonds, (ii) the Revenues, and (iii) all Funds (except the Rate Stabilization Fund) established by the Resolution, including the investments, if any, thereof.

(Resolution, Section 5.01).

Additional Bonds

The District may from time to time issue Bonds pursuant to a Series Resolution which will rank on a parity with and be secured by an equal charge and lien on the Revenues, upon satisfaction of the conditions to the issuance of Bonds contained in Section 2.02 of the Resolution, only if, (a) Revenues Available For Debt Service, adjusted as provided in this caption, of any 12 consecutive calendar months out of the 24 calendar months next preceding the issuance of such proposed additional Bonds, are not less than one and ten hundredths ($1 \frac{10}{100}$) times the maximum total Debt Service for any succeeding year on all Bonds which will be outstanding immediately prior to the issuance of the proposed additional Bonds, and (b) the estimated Revenues Available For Debt Service, adjusted as provided in this caption, for each of the five (5) Fiscal Years immediately following the issuance of such proposed additional Bonds are not less than one and ten hundredths ($1 \frac{10}{100}$) times the total, for each such respective Fiscal Year, of the Debt Service on all Bonds which will be outstanding immediately subsequent to the issuance of the proposed additional Bonds.

Prior to the issuance of any additional Bonds evidencing additional indebtedness, the payment of principal, interest and Redemption Price of which additional Bonds will be a lien on the Revenues on a parity with previously issued Series of Bonds, the District shall obtain a certificate of an Authorized Officer of the District evidencing full compliance with the provisions of this caption.

In determining the amount of Revenues Available For Debt Service for the purposes of this caption, the Authorized Officer of the District may adjust the Revenues Available For Debt Service by adding thereto the following:

(i) in the event the District shall have acquired an operating utility or facility subsequent to the beginning of the 12 month period selected pursuant to this caption, an estimate made by an Authorized Officer of the District of such additional Revenues Available For Debt Service for such 12 month period which would have resulted had such operating utility or facility been acquired at the beginning of such 12 month period;

(ii) in the event any adjustment of rates with respect to the Electric System shall have become effective subsequent to the beginning of the 12 month period selected pursuant to this caption, an estimate made by an Authorized Officer of the District of such additional Revenues Available For Debt Service for such 12 month period which would have resulted had such rate adjustment been in effect for the entire period; and

(iii) an estimate made by an Authorized Officer of the District of the amounts from the Rate Stabilization Fund which have been transferred to pay Debt Service for the 12 month period selected pursuant to this caption.

In determining the amount of estimated Revenues Available For Debt Service for the purpose of this caption, the Authorized Officer of the District may adjust the estimated Revenues Available For Debt Service by adding thereto any estimated increase in revenue resulting from any increase in electric rates or any amount on deposit in the Rate Stabilization Fund which is expected to be transferred by the District to pay Debt Service or to offset any increase in electric rates, which, in the opinion of the Authorized Officer of the District, are economically feasible, and reasonably considered necessary based on projected operations for such 5 year period.

The certificate required by this caption shall be conclusive evidence and the only evidence required to show compliance with the provisions and requirements of this caption.

(Resolution, Section 2.04).

Refunding Bonds

One or more Series of Refunding Bonds may be issued at any time to refund any part or all of the Bonds of any one or more Series then Outstanding. Refunding Bonds shall be issued in a principal amount sufficient, together with other moneys available therefor, to accomplish such refunding and to make the deposits in the Debt Service Fund required by this caption or by the provisions of the Series Resolution authorizing such Bonds.

Refunding Bonds of each Series issued to refund any part or all of the Bonds of any one or more Series then Outstanding may be delivered by the District upon receipt by the Trustee of:

(a) Irrevocable instructions to the Trustee, satisfactory to it, to give due notice of redemption of all the Bonds to be refunded on a redemption date specified in such instructions;

(b) If the Bonds to be refunded are not by their terms subject to redemption within the next succeeding 60 days, irrevocable instructions to the Trustee, satisfactory to it, to make due publication of the notice provided for under the caption entitled "Defeasance" to the Holders of the Bonds being refunded;

(c) Either (i) moneys in an amount sufficient to effect payment at the applicable Redemption Price of the Bonds to be refunded, together with accrued interest on such Bonds to the redemption date, which moneys shall be held by the Trustee or any one or more of the Paying Agents in a separate account irrevocably in trust for the benefit of such Refunding Bonds until such time as such amount shall be assigned to the respective Holders of the Bonds to be refunded for payment of the Redemption Price of the Bonds to be refunded, together with accrued interest, on the redemption date, or (ii) Defeasance Securities in such principal amounts, of such maturities, bearing such interest, and otherwise having such terms and qualifications, as shall be necessary to comply with the provisions under the caption entitled "Defeasance" and any moneys required pursuant to said caption, which Defeasance Securities and moneys shall be held in trust and used only as provided in subsection (c)(i) of this caption; and

(d) Either (i) a certificate of an Authorized Officer of the District as required by the caption entitled "Additional Bonds" or (ii) a certificate of an Authorized Officer of the District setting forth (1) the Aggregate Debt Service for the then current and each future Fiscal Year to and including the Fiscal Year next preceding the date of the latest maturity of any Bonds of any Series then Outstanding (A) with respect to the Bonds of all Series Outstanding immediately prior to the date of delivery of such Refunding Bonds, and (B) with respect to the Bonds of all Series to be Outstanding immediately thereafter, and (2) that the Aggregate Debt Service set forth for each Fiscal Year pursuant to (B) above is no greater than that set forth for such Fiscal Year pursuant to (A) above.

The proceeds, including accrued interest, of the Refunding Bonds of each such Series shall be applied simultaneously with the delivery of such Bonds in the manner provided in the Series Resolution authorizing such Bonds.

Any balance of the proceeds of Refunding Bonds not needed for the purposes provided in this caption or in the Series Resolution authorizing such Bonds may be used by the District, to the extent necessary, to pay any expenses incurred in connection with the issuance of such Refunding Bonds and, thereafter, any remaining balance not so needed by the District shall be deposited in the Revenue Fund.

(Resolution, Section 2.05).

Separately Financed Projects

Nothing in this Resolution shall prevent the District from authorizing and issuing bonds, notes or other obligations or evidences of indebtedness, other than Bonds, for any project authorized by the Act, or from financing any such project from other available funds (such project being referred to herein as a "Separately Financed Project"), if the debt service on such bonds, notes, or other obligations or evidences of indebtedness, if any, and the District's share of any operating expenses related to such Separately Financed Project, are payable solely from the revenues or other income derived from the ownership or operation of such Separately Financed Project.

(Resolution, Section 2.06).

Subordinated Indebtedness

The District may, at any time, or from time to time, issue evidences of indebtedness payable out of Revenues and which may be secured by a pledge of Revenues; provided, however, that such pledge shall be and shall be expressed

to be, subordinate in all respects to the pledge of the Revenues, moneys, securities and funds created by the Resolution.

(Resolution, Section 5.09).

Establishment of Funds and Application Thereof

The Resolution creates and establishes the following Funds and Accounts:

- (1) Salt River Project Electric System Construction Fund, to be held by the District,
- (2) Salt River Project Electric System Revenue Fund, to be held by the District,
- (3) Salt River Project Electric System Debt Service Account, to be held by the Trustee,
- (4) Salt River Project Electric System Debt Reserve Account, to be held by the Trustee,
- (5) Salt River Project Electric System Rate Stabilization Fund, to be held by the District, and
- (6) Salt River Project Electric System Redemption Fund, to be held by the Trustee.

Construction Fund. There shall be paid into the Construction Fund the amounts required to be so paid by the provisions of the Resolution, and there may be paid into the Construction Fund, at the option of the District, any moneys received for or in connection with the Electric System by the District from any other source, unless required to be otherwise applied as provided by the Resolution.

The proceeds of insurance maintained pursuant to the Resolution against physical loss of or damage to a Project, or of contractors' performance bonds with respect thereto, pertaining to the period of construction thereof, shall be paid into the Construction Fund.

Unless otherwise provided herein, amounts in the Construction Fund shall be applied to the purpose or purposes specified in the Series Resolution authorizing the Bonds.

Notwithstanding any of the other provisions of this subheading, to the extent that other moneys are not available therefor, amounts in the Construction Fund shall be applied to the payment of principal of and interest on Bonds when due.

Amounts in the Construction Fund shall be invested by the District to the fullest extent practicable in Investment Securities maturing in such amounts and at such times as may be necessary to provide funds when needed to pay the Cost of Construction or such other purpose to which such moneys are applicable. The District may, and to the extent required for payments from the Construction Fund shall, sell any such Investment Securities at any time, and the proceeds of such sale, and of all payments at maturity and upon redemption of such investments, shall be held in the Construction Fund. Interest received on moneys or securities in the Construction Fund shall be deposited in the Construction Fund.

Revenues and Revenue Fund. The Resolution establishes a Revenue Fund and provides that there shall be promptly deposited by the District to the credit of the Revenue Fund all Revenues.

Payment of Operating Expenses. The District (a) shall out of the moneys in the Revenue Fund, pay, free and clear of any lien or pledge created by the Resolution, all amounts required for reasonable and necessary Operating Expenses, and (b) may at all times retain in the Revenue Fund amounts deemed by the District to be reasonable and necessary for working capital and reserves for Operating Expenses including expenses which do not recur annually; provided that the total amount of such reserves set aside during any year shall not exceed 20% of the amount of Operating Expenses for such year.

Payments Into Certain Funds. The District shall out of the moneys in the Revenue Fund not retained therein pursuant to this subheading, on or before each date for the payment of Debt Service, transfer and apply such amount

to the Debt Service Fund (i) for credit to the Debt Service Account, to the extent required so that the balance in said Account shall equal the Aggregate Debt Service; provided that, for the purposes of computing the amount to be allocated to said Account, there shall be excluded the amount, if any, set aside in said Account which was deposited therein from the Rate Stabilization Fund or from the proceeds of Bonds less an amount equal to the interest accrued and unpaid and to accrue on Bonds (or any Refunding Bonds issued to refund Bonds) to the last day of the then current calendar month; and (ii) for credit to the Debt Reserve Account, an amount equal to one-twelfth of twenty percent (1/12 of 20%) of the amount necessary to make the total amount of moneys on deposit therein equal to the Debt Reserve Requirement; provided, however, that no deposits shall be required if the District shall deposit a Debt Reserve Account Credit Facility in the Debt Reserve Account in satisfaction of the Debt Reserve Requirement.

The District may out of the moneys in the Revenue Fund not retained therein pursuant to this subheading or applied pursuant to this subheading, upon a determination by an Authorized Officer of the District at any time prior to the next Debt Service payment date that sufficient funds are or will be available in the Debt Service Account to pay Debt Service on the next Debt Service payment date and that sufficient moneys, securities or a Debt Reserve Account Credit Facility equal to the Debt Reserve Requirement are or will be on deposit in the Debt Reserve Account to satisfy the Debt Reserve Requirement, transfer such amount as follows and in the following order:

(1) To the Rate Stabilization Fund, an amount deemed necessary by the District which may be used by the District for any lawful purpose; and

(2) To the General Fund, any such remaining balance in the Revenue Fund. Any amount so transferred to the General Fund of the District may be used by the District for any lawful purpose.

Provided, however, that so long as there shall be held in the Debt Service Fund an amount sufficient to fully pay all Outstanding Bonds in accordance with their terms (including principal or applicable sinking fund Redemption Price and interest thereon), no deposits shall be required to be made into the Debt Service Fund.

Debt Service Fund. Debt Service Account. The Trustee shall pay out of the Debt Service Account to the respective Paying Agents (i) on or before each interest payment date for any of the Bonds, the amount required for the interest payable on such date; (ii) on or before each Principal Installment due date, the amount required for the Principal Installment payable on such due date; and (iii) on or before the day preceding any redemption date for the Bonds, the amount required for the payment of interest on the Bonds then to be redeemed. Such amounts shall be applied by the Paying Agents on and after the due dates thereof. The Trustee shall also pay out of the Debt Service Account the accrued interest included in the purchase price of the Bonds purchased for retirement.

Amounts accumulated in the Debt Service Account with respect to any Sinking Fund Installment (together with amounts accumulated therein with respect to interest on the Bonds for which such Sinking Fund Installment was established) may and, if so directed by the District, shall be applied by the Trustee, on or prior to the 60th day preceding the due date of such Sinking Fund Installment, to (i) the purchase of Bonds of the Series for which such Sinking Fund Installment was established, or (ii) the redemption at the applicable sinking fund Redemption Prices pursuant to Article IV of the Resolution, of such Bonds, if then redeemable by their terms. After the 60th day but on or prior to the 40th day preceding the due date of such Sinking Fund Installment, any amounts then on deposit in the Debt Service Account (exclusive of amounts, if any, set aside in said Account which were deposited therein from the proceeds of additional Bonds) may and, if so directed by the District, shall be applied by the Trustee to the purchase of Bonds of the Series for which such Sinking Fund Installment was established in an amount not exceeding that necessary to complete the retirement of the unsatisfied balance of such Sinking Fund Installment. All purchases of any Bonds pursuant to this subheading shall be made at prices not exceeding the applicable sinking fund Redemption Price of such Bonds plus accrued interest, and such purchases shall be made in such manner as the Trustee shall determine. The applicable sinking fund Redemption Price (or principal amount of maturing Bonds) of any Bonds so purchased or redeemed shall be deemed to constitute part of the Debt Service Account until such Sinking Fund Installment date, for the purpose of calculating the amount of such Account. As soon as practicable after the 40th day preceding the due date of any such Sinking Fund Installment, the Trustee shall proceed to call for redemption, by giving notice as provided in Section 4.05 of the Resolution, on such due date Bonds of the Series for which such Sinking Fund Installment was established (except in the case of Bonds maturing on a Sinking Fund Installment date) in such amount as shall be necessary to complete the retirement of the unsatisfied balance of such Sinking Fund Installment. The Trustee shall pay out of the Debt Service Account to the appropriate Paying Agents, on or before the day preceding such redemption date (or maturity date), the amount required for the redemption of

the Bonds so called for redemption (or for the payment of such Bonds then maturing), and such amount shall be applied by such Paying Agents to such redemption (or payment). All expenses in connection with the purchase or redemption of Bonds shall be paid by the District from the Revenue Fund as an Operating Expense.

The amount, if any, deposited in the Debt Service Account from the proceeds of each Series of Bonds shall be set aside in such Account and applied to the payment of interest on the Bonds of such Series (or Refunding Bonds issued to refund such Bonds) as the same becomes due and payable.

Debt Reserve Account. If on the first working day of any month the amount on deposit in the Debt Reserve Account shall be less than the Debt Reserve Requirement, the Trustee shall apply amounts from the Debt Service Fund to the extent necessary to make good the deficiency. In the event that there is on deposit in the Debt Reserve Account moneys and a Debt Reserve Account Credit Facility, the Trustee shall withdraw moneys prior to making a draw or claim, as the case may be, on a Debt Reserve Account Credit Facility.

Whenever the amount on deposit in the Debt Reserve Account shall exceed the Debt Reserve Requirement, such excess shall be allocated and applied by the District in the same manner as Revenues pursuant to the subheading entitled "Payments Into Certain Funds" under the caption entitled "Establishment of Funds and Application Thereof".

Whenever the amount in the Debt Reserve Account, together with the amount in the Debt Service Account, is sufficient to fully pay all Outstanding Bonds in accordance with their terms (including principal or applicable sinking fund Redemption Price and interest thereon), the funds on deposit in the Debt Reserve Account shall be transferred to the Debt Service Account.

The District may cause to be delivered to the Trustee for deposit into the Debt Service Account, and the Trustee shall upon its receipt so deposit, a Debt Reserve Account Credit Facility for the benefit of the Bondholders, which Debt Reserve Account Credit Facility shall be payable or available to be drawn upon, as the case may be (upon the giving of notice as required thereunder), on any date on which a deficiency in the Debt Service Fund exists which cannot be cured by moneys in any other fund or account held hereunder and available for such purpose; provided, however, (i) if a disbursement is made under the Debt Reserve Account Credit Facility, the District shall either reinstate the maximum limits of such Debt Reserve Account Credit Facility within twelve (12) months following such disbursement equal to the Debt Reserve Requirement or deposit into the Debt Reserve Account moneys in the amount of the disbursement made under such Debt Reserve Account Credit Facility, or a combination of such alternatives as shall equal the Debt Reserve Requirement; (ii) if any such Debt Reserve Account Credit Facility for deposit in the Debt Service Reserve Fund is obtained and if six (6) months prior to the expiration thereof, the Debt Reserve Account is less than the Debt Reserve Requirement, the District shall cause the reinstatement of the maximum limits of such existing Debt Reserve Account Credit Facility, or shall obtain a substitute to the extent necessary to fund the Debt Reserve Account at the Debt Reserve Requirement; and (v) if a nationally recognized rating agency shall downgrade the rating of the Bonds, if any, as a result of such deposit of any such Debt Reserve Account Credit Facility or the rating of the provider thereof drops below the highest rating category for a nationally recognized rating agency, then the District shall deliver to the Trustee for deposit in the Debt Reserve Account a replacement of such Debt Reserve Account Credit Facility, in like amount and form acceptable to the Trustee and such that the nationally recognized rating agency will not reduce or withdraw their ratings, if any, on the Bonds, or deposit moneys in an amount sufficient to fund the Debt Reserve Account in an amount equal to the Debt Reserve Requirement within twelve (12) months following such downgrade.

Rate Stabilization Fund. There may be deposited in the Rate Stabilization Fund any amounts deemed necessary by the District to be used for any lawful purpose of the District, including but not limited to making any deposits required by the Resolution to any Fund, as determined by the District; provided, however, that no such deposit to any such Fund shall be required; provided further, however, that if at any time the amounts in the Operating Fund or Debt Service Fund shall be less than the current requirements thereof, the District shall withdraw from the Rate Stabilization Fund and deposit in such other Funds the amount necessary (or all the moneys in the Rate Stabilization Fund, if less than the amounts necessary, applying available amounts in the order of priority and otherwise as specified under the subheading entitled "Payments Into Certain Funds" under the caption entitled "Establishment of Funds and Application Thereof") to make up such deficiency. Amounts on deposit in the Rate Stabilization Fund may be invested by the District to the fullest extent practicable in Investment Securities. The District may sell any such Investment Securities at any time, and the proceeds of such sale, and of all payments at maturity and upon redemption of such investments, shall be held in the Rate Stabilization Fund. Interest received on moneys or

securities in the Rate Stabilization Fund shall be deposited in the Rate Stabilization Fund. Amounts in the Rate Stabilization Fund which the District may determine to be in excess of the amount required to be maintained therein shall be transferred to the Revenue Fund. Amounts on deposit in the Rate Stabilization Fund are not subject to the lien or pledge created by the Resolution.

Redemption Fund. There shall be deposited in the Redemption Fund amounts required to be deposited therein pursuant to the subheading entitled "Creation of Liens: Sale and Lease of Properties" under the caption entitled "Certain Other Covenants" and the caption entitled "Reconstruction; Application of Insurance Proceeds". Amounts in the Redemption Fund shall be used by the District for the purchase or redemption of any Bonds, and expenses in connection with the purchase or redemption of any Bonds.

(Resolution, Sections 5.02-5.08; 5.10).

Operation and Maintenance of Electric System.

The District shall at all times operate or cause to be operated the Electric System properly and in an efficient and economical manner, consistent with good business and utility operating practices, and shall maintain, preserve, reconstruct and keep the same or cause the same to be so maintained, preserved, reconstructed and kept, with the appurtenances and every part and parcel thereof, in good repair, working order and condition, and shall from time to time make, or cause to be made, all necessary and proper repairs, replacements and renewals so that at all times the operation of the Electric System may be properly and advantageously conducted; provided, however, that nothing contained herein shall prevent the District from exercising its powers under the subheading entitled "Creation of Liens: Sale and Lease of Properties" under the caption entitled "Certain Other Covenants"; provided further, however, that any sale-leaseback or lease-leaseback of any part of the Electric System or other similar contractual arrangements, the effect of which is that the District continues to retain the Revenues therefrom, shall not constitute a lease or disposition of such part of the Electric System for purposes described under the subheading entitled "Creation of Liens: Sale and Lease of Properties" under the caption entitled "Certain Other Covenants" and any proceeds therefrom shall be treated as Revenues.

(Resolution, Section 7.10).

Reconstruction; Application of Insurance Proceeds.

If any useful portion of the Electric System shall be damaged or destroyed, the District shall, as expeditiously as possible, continuously and diligently prosecute the reconstruction or replacement thereof, unless the District determines that such reconstruction and replacement is not in the interest of the District and the Bondholders. The proceeds of any insurance shall be paid on account of such damage or destruction, other than business interruption loss insurance, shall be held by the District in the Construction Fund and made available for, and to the extent necessary be applied to, the cost of such reconstruction or replacement, or shall be applied to the construction or acquisition of any properties or assets of the Electric System. Pending such application, such proceeds may be invested by the District in Investment Securities which mature not later than such times as shall be necessary to provide moneys when needed to pay such cost of reconstruction or replacement or acquisition. Interest earned on such investments shall be deposited in the Construction Fund. The proceeds of any such insurance not applied by the District to constructing or replacing damaged or destroyed property or in acquiring property or assets of the Electric System shall be paid to the Trustee for deposit in the Redemption Fund.

The proceeds of business interruption loss insurance, if any, shall be paid into the Revenue Fund.

(Resolution, Section 7.13).

Transfer from General Fund

In the event there is a deficiency in the Debt Service Account and if such a deficiency is not paid from other sources, the District shall transfer money in the General Fund to the Debt Service Account an amount sufficient to make up such deficiency.

(Resolution, Section 7.17).

Electric System Rate Covenant

The District shall charge and collect rates, fees and other charges for the sale of electric power and energy and other services, facilities and commodities of the Electric System as shall be required to provide revenues and income (including investment income) at least sufficient in each Fiscal Year for the payment of the sum of:

- (a) Operating Expenses during such Fiscal Year, including reserves, if any, therefor provided for in the Annual Budget for such year;
- (b) An amount equal to the Aggregate Debt Service for such Fiscal Year;
- (c) The amount, if any, to be paid during such Fiscal Year into the Debt Reserve Account in the Debt Service Fund; and
- (d) All other charges or liens whatsoever payable out of revenues and income during such Fiscal Year and, to the extent not otherwise provided for, all amounts payable on Subordinated Indebtedness.

If, in any Fiscal Year, the revenues and income collected shall not have been sufficient to provide all of the payments and meet all other requirements as specified in the preceding paragraphs in this caption, the District shall as promptly as permitted by law establish and place in effect a schedule of rates, fees and charges which will cause sufficient revenues and income to be collected. For purposes of this caption, at any time, revenues and income collected shall include any amounts withdrawn or expected to be withdrawn thereafter in any Fiscal Year from the Rate Stabilization Fund which were on deposit therein prior to such Fiscal Year.

The failure in any Fiscal Year to comply with the Electric System Rate Covenant shall not constitute an Event of Default under the Resolution, if the District shall comply with the requirements of the immediately preceding paragraph.

(Resolution, Section 7.11).

Certain Other Covenants

No Free Service: The District will not furnish or supply power or energy free of charge to any person, firm or corporation, public or private, and the District shall promptly enforce the payment of any and all accounts owing to the District by reason of the ownership and operation of the Electric System, to the extent dictated by sound business practice.

(Resolution, Section 7.11-3).

Power to Operate Electric System and Collect Rates and Fees: The District has good right and lawful power to construct, reconstruct, improve, maintain, operate and repair the Electric System, and to fix and collect rates, fees, rents and other charges in connection therewith.

(Resolution, Section 7.06).

Creation of Liens: Sale and Lease of Properties: The District shall not hereafter issue any bonds or other evidences of indebtedness payable out of or secured by a pledge of any revenues or income of the Electric System, except as in this Resolution provided.

The District shall not issue any bonds or other evidences of indebtedness other than the Bonds, payable out of or secured by a pledge of any revenues or income of the Electric System or of the moneys, securities or funds held or set aside by the District or by the Fiduciaries under the Resolution and shall not create or cause to be created any lien or charge on any revenues or income of the Electric System, or such moneys, securities or funds; provided, however, that nothing contained in the Resolution shall prevent the District from issuing Subordinated Indebtedness as provided in the caption entitled "Subordinated Indebtedness", and provided further that the District may, for its authorized purposes, make or assume loans with the United States of America, which loans may be secured by lien on revenues and income of the Electric System prior to the lien of the Bonds issued hereunder.

The District may sell or exchange at any time and from time to time any property constituting part of the Electric System and may lease or make contracts or grant licenses for the operation of, or grant easements or other rights

with respect to, any part of the Electric System if (i) in the sole judgment of the District it is advisable to take such action, (ii) such action shall not impair the ability of the District to make Debt Service payments, and (iii) such action does not materially impede or unduly restrict the operation by the District of the Electric System. Except as provided under the caption entitled "Operation and Maintenance of Electric System", any proceeds of any such sale, exchange, lease, contract or license shall at the discretion of the District be deposited in the Redemption Fund for application to the purchase or redemption of Bonds or be applied for any lawful purpose.

(Resolution, Section 7.07).

Insurance: The District shall provide protection for the Electric System in accordance with sound electric utility practice which may consist of insurance, self insurance and indemnities. Any insurance shall be in the form of policies or contracts for insurance with insurers of good standing, shall be payable to the District as its interest may appear, and may provide for such deductibles, exclusions, limitations, restrictions and restrictive endorsements customary in policies for similar coverage issued to entities operating properties similar to the properties of the Electric System. Any self insurance shall be in the amounts, manner and of the types provided by entities operating properties similar to the properties of the Electric System.

(Resolution, Section 7.12).

Accounts and Reports: The District shall keep, in accordance with Accounting Practice, proper books of record and account of its transactions relating to the Electric System and the Funds and Accounts established by the Resolution, together with all contracts for the sale of power and energy and all other books and papers of the District, including insurance policies, relating to the Electric System and such Funds and accounts.

The Trustee shall advise the District promptly after the end of each month of its transactions during such month relating to the funds and accounts held by it under the Resolution.

The District shall annually, within 180 days after the close of each fiscal year, file with the Trustee, and otherwise as provided by law, a copy of the annual report of the District for such year, accompanied by an Accountant's Report. In addition, the District will file with the Trustee a statement, or statements, accompanied by an Accountant's Report of each fund and account established under the Resolution, summarizing the receipts therein and disbursements therefrom during such year and the amounts held therein at the end of each year. Such Accountant's Report on the statement summarizing the transactions in the funds established under the Resolution shall state whether or not, to the knowledge of the signer, the District is in default with respect to any of the covenants, agreements or conditions as set forth under the subheading entitled "Events of Default" under the caption entitled "Events of Default and Remedies", insofar as they pertain to accounting matters and, if so, the nature of such default.

The reports, statements and other documents required to be furnished to the Trustee pursuant to this caption shall be available for the inspection of the Revenue Bondholders at the office of the Trustee and shall be mailed to each Revenue Bondholder who shall file a written request therefore with the District.

(Resolution, Section 7.14).

Defeasance

If the District shall pay or cause to be paid or there shall otherwise be paid, to the Holders of any Bonds the principal or Redemption Price, if applicable, and interest due or to become due thereon, at the times and in the manner stipulated therein and in the Resolution, then the pledge of any Revenues, and other moneys and securities pledged under the Resolution and all covenants, agreements and other obligations of the District to the Bondholders, shall thereupon cease, terminate and become void and be discharged and satisfied. In such event, the Trustee shall cause an accounting for such period or periods as shall be requested by the District to be prepared and filed with the District and, upon the request of the District, shall execute and deliver to the District all such instruments as may be desirable to evidence such discharge and satisfaction, and the Fiduciaries shall pay over or deliver to the District all moneys or securities held by them pursuant to the Resolution which are not required for the payment of principal or Redemption Price, if applicable, on Bonds or payment of interest. If the District shall pay or cause to be paid, or there shall otherwise be paid, to the Holders of all Outstanding Bonds of a particular Series the principal or

Redemption Price, if applicable, and interest due or to become due thereon, at the times and in the manner stipulated therein and in the Resolution, such Bonds shall cease to be entitled to any lien, benefit or security under the Resolution, and all covenants, agreements and obligations of the District to the Holders of such Bonds shall thereupon cease, terminate and become void and be discharged and satisfied.

Bonds or the principal or interest installments or Redemption Price for the payment or redemption of which moneys shall have been set aside and shall be held in trust by the Paying Agents (through deposit by the District of funds for such payment or redemption or otherwise) at the maturity or redemption date thereof shall be deemed to have been paid within the meaning and with the effect expressed in the preceding paragraph. Any Outstanding Bonds of any Series shall prior to the maturity or redemption date thereof be deemed to have been paid within the meaning and with the effect expressed in the preceding paragraph if (a) in case any of said Bonds are to be redeemed on any date prior to their maturity, the District shall have given to the Trustee in form satisfactory to it irrevocable instructions to publish as provided in Article IV of the Resolution notice of redemption of such Bonds on said date, (b) there shall have been deposited with the Trustee either moneys in an amount which shall be sufficient, or Defeasance Securities the principal of and the interest on which when due will provide moneys which, together with the moneys, if any, deposited with the Trustee at the same time, shall be sufficient, to pay when due the principal or Redemption Price, if applicable, and interest due and to become due on said Bonds on and prior to the redemption date or maturity date thereof, as the case may be, and (c) in the event said Bonds are not by their terms subject to redemption within the next succeeding 60 days, the District shall have given the Trustee in form satisfactory to it irrevocable instructions to publish, as soon as practicable, at least twice, at an interval of not less than seven days between publications, in the Authorized Newspapers a notice to the owners of such Bonds that the deposit required by (b) above has been made with the Trustee and that said Bonds are deemed to have been paid in accordance with this caption and stating such maturity or redemption date upon which moneys are available for the payment of the principal or Redemption Price, if applicable, on said Bonds. Neither Defeasance Securities nor moneys deposited with the Trustee pursuant to this caption nor principal or interest payments on any such Defeasance Securities shall be withdrawn or used for any purpose other than, and shall be held in trust for, the payment of the principal or Redemption Price, if applicable, and interest on said Bonds; provided that any cash received from such principal or interest payments on such Defeasance Securities deposited with the Trustee, if not then needed for such purpose, shall, to the extent practicable, be reinvested in Defeasance Securities maturing at times and in amounts sufficient to pay when due the principal or Redemption Price, if applicable, and interest to become due on said Bonds on and prior to such redemption date or maturity date thereof, as the case may be, and interest earned from such reinvestments shall be paid over to the District, as received by the Trustee, free and clear of any trust, lien or pledge.

Anything in the Resolution to the contrary notwithstanding, any moneys held by a Fiduciary in trust for the payment and discharge of any of the Bonds which remain unclaimed for five years after the date when such Bonds have become due and payable, either at their stated maturity dates or by call for earlier redemption, if such moneys were held by the Fiduciary at such date, or for five years after the date of deposit of such moneys if deposited with the Fiduciary after the said date when such Bonds became due and payable, shall, at the written request of the District, be repaid by the Fiduciary to the District, as its absolute property and free from trust, and the Fiduciary shall thereupon be released and discharged with respect thereto and the Bondholders shall look only to the District for the payment of such Bonds; provided, however, that before being required to make any such payment to the District, the Fiduciary shall, at the expense of the District, cause to be published at least twice, at an interval of not less than seven days between publications, in the Authorized Newspapers, a notice that said moneys remain unclaimed and that, after a date named in said notice, which date shall be not less than 30 days after the date of the first publication of such notice, the balance of such moneys then unclaimed will be returned to the District.

(Resolution, Section 12.01).

Events of Default and Remedies

Events of Default: If one or more of the following events (in the Resolution called "Events of Default") shall happen, that is to say:

- (i) if default shall be made in the due and punctual payment of the principal or Redemption Price of any Bond when and as the same shall become due and payable, whether at maturity or by call for redemption, or otherwise,

(ii) if default shall be made in the due and punctual payment of any installment of interest on any Bond or the unsatisfied balance of any Sinking Fund Installment therefor (except when such Installment is due on the maturity date of such Bond), when and as such interest installment or Sinking Fund Installment shall become due and payable, and such default shall continue for a period of 30 days,

(iii) if default shall be made by the District in the performance or observance of the covenants, agreements and conditions on its part as provided under the caption entitled "Electric System Rate Covenant",

(iv) if default shall be made by the District in the performance or observance of any other of the covenants, agreements or conditions on its part in the Resolution or in the Bonds contained, and such default shall continue for a period of 60 days after written notice thereof to the District by the Trustee or to the District and to the Trustee by the Holders of not less than a majority in principal amount of the Bonds Outstanding, provided that if such default shall be such that it cannot be corrected within such sixty day period, it shall not constitute an Event of Default if corrective action is instituted within such period and diligently pursued until the failure is corrected, or

(v) if (1) a decree or order for relief is entered by a court having jurisdiction of the District adjudging the District a bankrupt or insolvent or approving as properly filed a petition seeking reorganization, arrangement, adjustment or composition in respect of the District in any involuntary case under the Federal bankruptcy laws, or under any other applicable law or statute of the United States of America or of the State of Arizona; (2) a receiver, liquidator, assignee, custodian, trustee, sequester or other similar official of the District or of any substantial portion of its property is appointed; or (3) the winding up or liquidation of its affairs is ordered and the continuance of any such decree or order unstayed and in effect for a period of sixty (60) consecutive days,

then, and in each and every such case, so long as such Event of Default shall not have been remedied, unless the principal of all the Bonds shall have already become due and payable, either the Trustee (by notice in writing to the District), or the Holders of not less than 25% in principal amount of the Bonds Outstanding (by notice in writing to the District and the Trustee), may declare the principal of all the Bonds then Outstanding and the interest accrued thereon, to be due and payable immediately, and upon any such declaration the same shall become and be immediately due and payable, anything in the Resolution or in any of the Bonds contained to the contrary notwithstanding. The right of the Trustee or of the Holders of not less than 25% in principal amount of the Bonds to make any such declaration as aforesaid, however, is subject to the condition that if, at any time after such declaration, but before the Bonds shall have matured by their terms, all overdue installments of interest upon the Bonds, together with interest on such overdue installments of interest to the extent permitted by law, and the reasonable and proper charges, expenses and liabilities of the Trustee, and all other sums then payable by the District under the Resolution (except the principal of, and interest accrued since the next preceding interest date on, the Bonds due and payable solely by virtue of such declaration) shall either be paid by or for the account of the District or provision satisfactory to the Trustee shall be made for such payment, and all defaults under the Bonds or under the Resolution (other than the payment of principal and interest due and payable solely by reason of such declaration) shall be made good or be secured to the satisfaction of the Trustee or provision deemed by the Trustee to be adequate shall be made therefor, then and in every such case the Holders of a majority in principal amount of the Bonds Outstanding, by written notice to the District and to the Trustee, may rescind such declaration and annul such default in its entirety, or, if the Trustee shall have acted itself, and if there shall not have been theretofore delivered to the Trustee written direction to the contrary by the Holders of a majority in principal amount of the Bonds then Outstanding, then any such declaration shall ipso facto be deemed to be rescinded and any such default and its consequences shall ipso facto be deemed to be annulled, but no such rescission and annulment shall extend to or affect any subsequent default or impair or exhaust any right or power consequent thereon.

Accounting and Examination of Records After Default: The District covenants that if an Event of Default shall have happened and shall not have been remedied, the books of record and account of the District and all other records relating to the Electric System shall at all times be subject to the inspection and use of the Trustee and of its agents and attorneys, including the engineer or firm of engineers appointed pursuant to the subheading entitled "Application of Revenues and other Moneys After Default" under this caption.

The District covenants that if an Event of Default shall happen and shall not have been remedied, the District, upon demand of the Trustee, will account, as if it were the trustee of an express trust, for all Revenues and other moneys, securities and funds pledged or held under the Resolution for such period as shall be stated in such demand.

Application of Revenues and other Moneys After Default: The District covenants that if an Event of Default shall happen and shall not have been remedied, the District, upon demand of the Trustee, shall pay over to the Trustee (i) forthwith, all moneys, securities and funds then held by the District in any Fund or Account under the Resolution, and (ii) all Revenues as promptly as practicable after receipt thereof.

During the continuance of an Event of Default, the Trustee shall apply such moneys, securities, funds and Revenues and the income therefrom as follows and in the following order:

(i) to the payment of the amounts required for reasonable and necessary Operating Expenses, and for reasonable renewals, repairs and replacements of the Electric System necessary to prevent loss of Revenues, as certified to the Trustee by an independent engineer or firm of engineers of recognized standing (who may be an engineer or firm of engineers retained by the District for other purposes) selected by the Trustee. For this purpose the books of record and accounts of the District relating to the Electric System shall at all times be subject to the inspection of such engineer or firm of engineers during the continuance of such Event of Default;

(ii) to the payment of the reasonable and proper charges, expenses and liabilities of the Trustee and of any engineer or firm of engineers selected by the Trustee pursuant to Article VIII of the Resolution;

(iii) to the payment of the interest and principal or Redemption Price then due on the Bonds, subject to the provisions of Section 7.02 of the Resolution, as follows:

(a) unless the principal of all of the Bonds shall have become or have been declared due and payable,

First: To the payment to the persons entitled thereto of all installments of interest then due in the order of the maturity of such installments, and, if the amount available shall not be sufficient to pay in full any installment or installments maturing on the same date, then to the payment thereof ratably, according to the amounts due thereon, to the persons entitled thereto, without any discrimination or preference; and

Second: To the payment to the persons entitled thereto of the unpaid principal or Redemption Price of any Bonds which shall have become due, whether at maturity or by call for redemption, in the order of their due dates, and if the amount available shall not be sufficient to pay in full all the Bonds due on any date, then to the payment thereof ratably, according to the amounts of principal or Redemption Price due on such date, to the persons entitled thereto, without any discrimination or preference.

(c) if the principal of all of the Bonds shall have become or have been declared due and payable, to the payment of the principal and interest then due and unpaid upon the Bonds without preference or priority of principal over interest or of interest over principal, or of any installment of interest over any other installment of interest, or of any Bonds over any other Bond, ratably, according to the amounts due respectively for principal and interest, to the persons entitled thereto without any discrimination or preference.

If and whenever all overdue installments of interest on all Bonds, together with the reasonable and proper charges, expenses and liabilities of the Trustee, and all other sums payable by the District under the Resolution, including the principal and Redemption Price of and accrued unpaid interest on all Bonds which shall then be payable by declaration or otherwise, shall either be paid by or for the account of the District, or provision satisfactory to the Trustee shall be made for such payment, and all defaults under the Resolution or the Bonds shall be made good or secured to the satisfaction of the Trustee or provision deemed by the Trustee to be adequate shall be made therefor, the Trustee shall pay over to the District all moneys, securities, funds and Revenues then remaining unexpended in the hands of the Trustee (except moneys, securities, funds or Revenues deposited or pledged, or required by the terms of the Resolution to be deposited or pledged, with the Trustee), and thereupon the District and the Trustee shall be restored, respectively, to their former positions and rights under the Resolution, and all Revenues shall thereafter be applied as provided in Article V of the Resolution. No such payment over to the District by the Trustee or resumption of the application of Revenues as provided in Article V of the Resolution shall extend to or affect any subsequent default under the Resolution or impair any right consequent thereon.

Proceedings Brought by Trustee: If an Event of Default shall happen and shall not have been remedied, then and in every such case, the Trustee, by its agents and attorneys, may proceed, and upon written request of the

Holders of not less than [a majority] in principal amount of the Bonds Outstanding shall proceed, to protect and enforce its right and the rights of the Holders of the Bonds under the Resolution forthwith by a suit or suits in equity or at law, whether for the specific performance of any covenant herein contained, or in aid of the execution of any power herein granted, or for an accounting against the District as if the District were the trustee of an express trust, or in the enforcement of any other legal or equitable right as the Trustee, being advised by counsel, shall deem most effectual to enforce any of its rights or to perform any of its duties under the Resolution.

All rights of action under the Resolution may be enforced by the Trustee without the possession of any of the Bonds or the production thereof on the trial or other proceedings, and any such suit or proceedings instituted by the Trustee shall be brought in its name.

The Holders of not less than a majority in principal amount of the Bonds at the time Outstanding may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred upon the Trustee, provided that the Trustee shall have the right to decline to follow any such direction if the Trustee shall be advised by counsel that the action or proceeding so directed may not lawfully be taken, or if the Trustee in good faith shall determine that the action or proceeding so directed would involve the Trustee in personal liability or be unjustly prejudicial to the Bondholders not parties to such direction.

Upon commencing a suit in equity or upon other commencement of judicial proceedings by the Trustee to enforce any right under the Resolution, the Trustee shall be entitled to exercise any and all rights and powers conferred in the Resolution and provided to be exercised by the Trustee upon the occurrence of an Event of Default.

Regardless of the happening of an Event of Default, the Trustee shall have power to, but unless requested in writing by the Holders of a majority in principal amount of the Bonds then Outstanding, and furnished with reasonable security and indemnity, shall be under no obligation to, institute and maintain such suits and proceedings as it may be advised shall be necessary or expedient to prevent any impairment of the security under the Resolution by any acts which may be unlawful or in violation of the Resolution, and such suits and proceedings as the Trustee may be advised shall be necessary or expedient to preserve or protect its interest and the interest of the Bondholders.

Restriction on Bondholder's Action: No Holder of any Bond shall have any right to institute any suit, action or proceeding at law or in equity for the enforcement of any provision of the Resolution or the execution of any trust under the Resolution or for any remedy under the Resolution, unless such Holder shall have previously given to the Trustee written notice of the happening of an Event of Default, as provided in Article VIII of the Resolution, and the Holders of [not less than a majority] in principal amount of the Bonds then Outstanding shall have filed a written request with the Trustee, and shall have offered it reasonable opportunity, either to exercise the powers granted in the Resolution or by the Act or by the laws of Arizona or to institute such action, suit or proceeding in its own name, and unless such Holders shall have offered to the Trustee adequate security and indemnity against the costs, expenses and liabilities to be incurred therein or thereby, and the Trustee shall have refused to comply with such request for a period of 60 days after receipt by it of such notice, request and offer of indemnity, it being understood and intended that no one or more Holders of Bonds shall have any right in any manner whatever by his or their action to affect, disturb or prejudice the pledge created by the Resolution, or to enforce any right under the Resolution, except in the manner therein provided; and that all proceedings at law or in equity to enforce any provision of the Resolution shall be instituted, had and maintained in the manner provided in the Resolution and for the equal benefit of all Holders of the Outstanding Bonds, subject only to the provisions of Section 7.02 of the Resolution.

Nothing in the Resolution or in the Bonds contained shall affect or impair the obligation of the District, which is absolute and unconditional, to pay at the respective dates of maturity and places therein expressed the principal of and interest on the Bonds to the respective Holders thereof, or affect or impair the right of action, which is also absolute and unconditional, of any Holder to enforce such payment of his Bond.

Remedies Not Exclusive: No remedy by the terms of the Resolution conferred upon or reserved to the Trustee or the Bondholders is intended to be exclusive of any other remedy, but each and every such remedy shall be cumulative and shall be in addition to every other remedy given under the Resolution or existing at law or equity or by statute on or after the date of adoption of this Resolution.

Effect of Waiver and Other Circumstances: No delay or omission of the Trustee or of any Bondholder to exercise any right or power arising upon the happening of an Event of Default shall impair any right or power or shall be construed to be a waiver of any such default or be an acquiescence therein; and every power and remedy given by Article VIII of the Resolution to the Trustee or to the Bondholders may be exercised from time to time and as often as may be deemed expedient by the Trustee or by the Bondholders.

Prior to the declaration of maturity of the Bonds as provided under the subheading entitled "Events of Default" under this caption, the Holders of not less than 25% in principal amount of the Bonds at the time Outstanding, or their attorneys-in-fact duly authorized, may, on behalf of the Holders of all of the Bonds waive any past default under the Resolution and its consequences, except a default in the payment of interest on or principal of or premium (if any) on any of the Bonds. No such waiver shall extend to any subsequent or other default or impair any right consequent thereon.

Notice of Default: The Trustee shall promptly mail to registered Holders of Bonds, and to all Bondholders who shall have filed their names and addresses with the Trustee for such purpose written notice of the occurrence of any Event of Default. If for any Fiscal Year the Revenues shall be insufficient to comply with the provisions under the caption entitled "Electric System Rate Covenant", the Trustee, on or before the 30th day after receipt of the annual audit, shall mail to such registered Holders and such Bondholders written notice of such failure.

Responsibilities of Fiduciaries: The recitals of fact herein and in the Bonds contained shall be taken as the statements of the District and no Fiduciary assumes any responsibility for the correctness of the same. No Fiduciary makes any representations as to the validity or sufficiency of the Resolution or of any Bonds issued thereunder or as to the security afforded by the Resolution, and no Fiduciary shall incur any liability in respect thereof. No Fiduciary shall be under any responsibility or duty with respect to the application of any moneys paid to the District or to any other Fiduciary. No Fiduciary shall be under any obligation or duty to perform any act, which would involve it in expense or liability, or to institute or defend any suit in respect hereof, or to advance any of its own moneys, unless properly indemnified. Subject to the provisions of the following paragraph, no Fiduciary shall be liable in connection with the performance of its duties hereunder except for its own negligence, misconduct or default.

The Trustee, prior to the occurrence of an Event of Default and after the curing of all Events of Default which may have occurred, undertakes to perform such duties and only such duties as are specifically set forth in the Resolution. In case an Event of Default has occurred (which has not been cured) the Trustee shall exercise such of the rights and powers vested in it by the Resolution, and use the same degree of care and skill in their exercise, as a prudent man would exercise or use under the circumstances in the conduct of his own affairs. Any provision of the Resolution relating to action taken or to be taken by the Trustee or to evidence upon which the Trustee may rely shall be subject to the provisions of this subheading.

(Resolution, Sections 8.01-8.08, 9.03).

Supplemental Resolutions

For any one or more of the following purposes and at any time or from time to time, a Supplemental Resolution of the District may be adopted, which, upon the filing with the Trustee of a copy thereof certified by an Authorized Officer of the District, shall be fully effective in accordance with its terms:

(1) To close the Resolution against, or provide limitations and restrictions in addition to the limitations and restrictions contained in the Resolution on, the delivery of Bonds or the issuance of other evidences of indebtedness;

(2) To add to the covenants and agreements of the District in the Resolution, other covenants and agreements to be observed by the District which are not contrary to or inconsistent with the Resolution as theretofore in effect;

(3) To add to the limitations and restrictions in the Resolution, other limitations and restrictions to be observed by the District which are not contrary to or inconsistent with the Resolution as theretofore in effect;

(4) To authorize Bonds of a Series and, in connection therewith, specify and determine the matters and things referred to in Section 2.02 of the Resolution, and also any other matters and things relative to such Bonds which are not contrary to or inconsistent with the Resolution as theretofore in effect, or to amend, modify or rescind any such authorization, specification or determination at any time prior to the first delivery of such Bonds;

(5) To confirm, as further assurance, any pledge under, and the subjection to any lien or pledge created or to be created by, the Resolution, of the Revenues or of any other moneys, securities or funds;

(6) To modify any of the provisions of the Resolution in any respect whatever, provided that (i) such modification shall be, and be expressed to be, effective only after all Bonds of any Series Outstanding at the date of the adoption of such Supplemental Resolution shall cease to be Outstanding, and (ii) such Supplemental Resolution shall be specifically referred to in the text of all Bonds of any Series delivered after the date of the adoption of such Supplemental Resolution and of Bonds issued in exchange therefor or in place thereof;

(7) To modify any of the provisions of the Resolution to permit compliance with any amendment to the Internal Revenue Code of 1986, as amended, or any successor thereto, as the same may be in effect from time to time, if, in the Opinion of Bond Counsel, failure to so modify the Resolution either would adversely affect the ability of the District to issue Bonds the interest on which is excludable from gross income for purposes of federal income taxation, or is necessary or advisable to preserve such exclusion with respect to any Outstanding Bonds;

(8) To comply with such regulations and procedures as are from time to time in effect relating to establishing and maintaining a book-entry-only system;

(9) To provide for the issuance of Bonds in coupon form payable to bearer;

(10) To comply with the requirements of any nationally recognized rating agency in order to maintain or improve a rating on the Bonds by such rating agency;

(11) To cure any ambiguity, supply any omission, or cure or correct any defect or inconsistent provision in the Resolution; or

(12) To insert such provisions clarifying matters or questions arising under the Resolution as are necessary or desirable and are not contrary to or inconsistent with the Resolution as theretofore in effect.

Supplemental Resolutions Effective With Consent of Trustee: At any time or from time to time, a Supplemental Resolution may be adopted subject to consent by Bondholders in accordance with and subject to the provisions of Article XI of the Resolution, which Supplemental Resolution, upon the filing with the Trustee of a copy thereof certified by an Authorized Officer of the District and upon compliance with the provisions of said Article XI, shall become fully effective in accordance with its terms as provided in said Article XI.

General Provisions: The Resolution shall not be modified or amended in any respect except as provided in and in accordance with and subject to the provisions of Article X and Article XI of the Resolution. Nothing in Article X or Article XI of the Resolution contained shall affect or limit the right or obligation of the District to adopt, make, do, execute, acknowledge or deliver any resolution, act or other instrument pursuant to the provisions of Section 7.04 of the Resolution or the right or obligation of the District to execute and deliver to any Fiduciary any instrument which elsewhere in the Resolution it is provided shall be delivered to said Fiduciary.

Any Supplemental Resolution referred to and permitted or authorized by this caption may be adopted by the District without the consent of any of the Bondholders, but shall become effective only on the conditions, to the extent and at the time provided in said Sections, respectively. The copy of every Supplemental Resolution when filed with the Trustee shall be accompanied by a Counsel's Opinion stating that such Supplemental Resolution has been duly and lawfully adopted in accordance with the provisions of the Resolution, is authorized or permitted by the Resolution, and is valid and binding upon the District and enforceable in accordance with its terms.

The Trustee is authorized to accept the delivery of a certified copy of any Supplemental Resolution referred to and permitted or authorized by this caption and subheading and to make all further agreements and stipulations

which may be therein contained, and the Trustee, in taking such action, shall be fully protected in relying on an opinion of counsel (which may be a Counsel's Opinion) that such Supplemental Resolution is authorized or permitted by the provisions of the Resolution.

No Supplemental Resolution shall change or modify any of the rights or obligations of any Fiduciary without its written assent thereto.

(Resolution, Section 10.01-10.03).

Amendment with Consent of Bondholders

Any modification or amendment of the Resolution and of the rights and obligations of the District and of the Holders of the Bonds thereunder, in any particular, may be made by a Supplemental Resolution, with the written consent given as provided in the following paragraph of the Holders of at least two-thirds in principal amount of the Bonds Outstanding at the time such consent is given, and (ii) in case less than all of the several Series of Bonds then Outstanding or less than all the Bonds of a Series then Outstanding are affected by the modification or amendment, of the Holders of at least two-thirds in principal amount of the Bonds so affected and Outstanding at the time such consent is given, and (iii) in case the modification or amendment changes the terms of any Sinking Fund Installment, of Holders of at least two-thirds in principal amount of the Bonds entitled to such Sinking Fund Installment and Outstanding at the time such consent is given; provided, however, that if such modification or amendment will, by its terms, not take effect so long as any Bonds of any specified like Series and maturity remain Outstanding, the consent of the Holders of such Bonds shall not be required and such Bonds shall not be deemed to be Outstanding for the purpose of any calculation of Outstanding Bonds under this paragraph. No such modification or amendment shall permit a change in the terms of redemption or maturity of the principal of any Outstanding Bond or of any installment of interest thereon or a reduction in the principal amount or the Redemption Price thereof or in the rate of interest thereon without the consent of the Holder of such Bond, or shall reduce the percentages or otherwise affect the classes of Bonds the consent of the Holders of which is required to effect any such modification or amendment, or shall change or modify any of the rights or obligations of any Fiduciary without its written assent thereto. For the purpose of this paragraph, a Series shall be deemed to be affected by a modification or amendment of the Resolution if the same adversely affects or diminishes the rights of the Holders of Bonds of such Series.

The District may at any time adopt a Supplemental Resolution making a modification or amendment permitted by the preceding paragraph, to take effect when and as provided in this paragraph. A copy of such Supplemental Resolution (or brief summary thereof or reference thereto in form approved by Trustee, together with a request to Bondholders for their consent thereto in form satisfactory to the Trustee), shall be mailed by the District to Bondholders and shall be published in the Authorized Newspapers at least once a week for two successive weeks (but failure to mail such copy and request shall not affect the validity of the Supplemental Resolution when consented to as provided in this paragraph). Such Supplemental Resolution shall not be effective unless and until (i) there shall have been filed with the Trustee (a) the written consents of Holders of the percentages of Outstanding Bonds specified in the preceding paragraph and (b) a Counsel's Opinion stating that such Supplemental Resolution has been duly and lawfully adopted and filed by the District in accordance with the provisions of the Resolution, is authorized or permitted by the Resolution, and is valid and binding upon the District and enforceable in accordance with its terms, and (ii) a notice shall have been published as provided in this paragraph. Each such consent shall be effective only if accompanied by proof of the holding, at the date of such consent, of the Bonds with respect to which such consent is given, which proof shall be such as is permitted by Section 12.02 of the Resolution. A certificate or certificates by the Trustee filed with the Trustee that it has examined such proof and such proof is sufficient in accordance with Section 12.02 of the Resolution shall be conclusive that the consents have been given by the Holders of the Bonds described in such certificate or certificates of the Trustee. Any such consent shall be binding upon the Holder of the Bonds giving such consent and, anything in Section 12.02 of the Resolution to the contrary notwithstanding, upon any subsequent Holder of such Bonds and of any Bonds issued in exchange therefor (whether or not such subsequent Holder thereof has notice thereof) unless such consent is revoked in writing by the Holder of such Bonds giving such consent or a subsequent Holder thereof by filing with the Trustee, prior to the time when the written statement of the Trustee provided for in this paragraph is filed, such revocation and, if such Bonds are transferable by delivery, proof that such Bonds are held by the signer of such revocation in the manner permitted by Section 12.02 of the Resolution. The fact that a consent has not been revoked may likewise be proved by a certificate of the Trustee filed with the Trustee to the effect that no revocation thereof is on file with the Trustee. At any time after the Holders of the required percentages of Bonds shall have filed their consents to the Supplemental Resolution, the Trustee shall make and file with the District and the Trustee a written statement that

the Holders of such required percentages of Bonds have filed such consents. Such written statement shall be conclusive that such consents have been so filed. At any time thereafter notice, stating in substance that the Supplemental Resolution (which may be referred to as Supplemental Resolution adopted by the District on a stated date, a copy of which is on file with the Trustee) has been consented to by the Holders of the required percentages of Bonds and will be effective as provided in this paragraph, may be given to Bondholders by the District by mailing such notice to Bondholders (but failure to mail such notice shall not prevent such Supplemental Resolution from becoming effective and binding as provided in this paragraph) and by publishing the same in the Authorized Newspapers at least once not more than 90 days after the Holders of the required percentages of Bonds shall have filed their consents to the Supplemental Resolution and the written statement of the Trustee hereinabove provided for is filed. The District shall file with the Trustee proof of the publication of such notice and, if the same shall have been mailed to Bondholders, of the mailing thereof. A record, consisting of the papers required or permitted by this paragraph to be filed with the Trustee, shall be proof of the matters therein stated. Such Supplemental Resolution making such amendment or modification shall be deemed conclusively binding upon the District, the Fiduciaries and the Holders of all Bonds at the expiration of 40 days after the filing with the Trustee of the proof of the first publication of such last mentioned notice, except in the event of a final decree of a court of competent jurisdiction setting aside such Supplemental Resolution in a legal action or equitable proceeding for such purpose commenced within such 40 day period; provided, however, that any Fiduciary and the District during such 40 day period and any such further period during which any such action or proceeding may be pending shall be entitled in their absolute discretion to take such action, or to refrain from taking such action, with respect to such Supplemental Resolution as they may deem expedient.

(Resolution, Sections 11.02 and 11.03).

APPENDIX C — FORM OF BOND OPINION AND FORM OF SPECIAL TAX COUNSEL OPINION

[FORM OF BOND COUNSEL OPINION]

March 19, 2008

Board of Directors
Salt River Project Agricultural
Improvement and Power District
Tempe, Arizona 85281

Ladies and Gentlemen:

We have examined the Constitution and statutes of the State of Arizona, certified copies of the proceedings of the Board of Directors of the Salt River Project Agricultural Improvement and Power District (the "District") and other proofs submitted to us relative to the issuance and sale by the District, a body politic and corporate and political subdivision of the State of Arizona, of

**\$816,650,000
Salt River Project
Electric System Revenue Bonds,
2008 Series A**

The 2008 Series A Bonds consist of bonds bearing interest at fixed rates. The 2008 Series A Bonds are dated as shown on the inside front cover of the Official Statement dated March 6, 2008 relating to the 2008 Series A Bonds, mature and bear interest at the times, in the manner and upon the terms provided therein and in the Resolutions (as hereinafter defined). The 2008 Series A Bonds are subject to redemption prior to maturity as provided in the Resolutions.

We have also examined the form of said 2008 Series A Bonds.

We are of the opinion that such proceedings and proofs show lawful authority for the issuance and sale of the 2008 Series A Bonds pursuant to the Constitution and statutes of the State of Arizona, including particularly Title 48, Chapter 17, Article 7, Arizona Revised Statutes, and other applicable provisions of law, and pursuant and subject to the provisions, terms and conditions of a resolution, dated as of September 10, 2001, which became effective January 11, 2003, entitled "Supplemental Resolution Authorizing an Amended and Restated Resolution Concerning Revenue Bonds" as amended, and a resolution dated as of March 6, 2008, entitled "Resolution Authorizing The Issuance And Sale Of \$816,650,000 Salt River Project Electric System Revenue Bonds, 2008 Series A" (collectively, the "Resolutions"), all duly adopted by the District and that the 2008 Series A Bonds are valid and legally binding special obligations of the District.

We are further of the opinion that the District, in the Resolutions, has lawfully covenanted and is legally obligated to charge and collect, and revise from time to time whenever necessary, such fees and other charges for the sale of electric power and energy which will be sufficient in each year to pay the necessary expenses of operating and maintaining the District's electric system, the principal of and interest on the 2008 Series A Bonds and all other indebtedness maturing and becoming due in such year, and all reserve or other payments required by the Resolutions in such year, subject to restrictions, if any, imposed by or on behalf of the United States of America, all in the manner provided in the Resolutions.

We are further of the opinion that the 2008 Series A Bonds, and the outstanding Electric System Revenue Bonds heretofore issued pursuant to the Resolutions, as to principal or redemption price thereof and interest thereon are payable on a parity from and secured by a valid and equal pledge of the revenues of the District's electric system and other funds held or set aside under the Resolutions. Such pledge is subject and subordinate to the pledges and liens created by United States of America loan agreements hereafter entered into by the District, all in the manner provided in the Resolutions.

We are further of the opinion that the District may, within the terms, limitations and conditions contained in the Resolutions, issue pari passu additional Electric System Revenue Bonds payable from the revenues derived from the District's electric system, ranking equally as to lien on and source and security for payment from the revenues derived from the District's electric system, with the 2008 Series A Bonds and any pari passu additional Electric System Revenue Bonds heretofore or hereafter issued, all in the manner provided in the Resolutions.

We are further of the opinion that the District has validly entered into further covenants and agreements with the holders of the 2008 Series A Bonds for the exact terms of which reference is made to the Resolutions.

The opinions set forth above are subject to the effect of, and restrictions and limitations imposed by or resulting from, bankruptcy, insolvency, debt adjustment, moratorium, reorganization or other similar laws affecting creditors' rights.

This opinion letter is dated as of the date hereof, and we assume no obligation to update this opinion letter to reflect any facts or circumstances that may hereafter come to our attention, or any changes in law, or interpretations thereof, that may occur, or for any other reason.

Very truly yours,

[FORM OF SPECIAL TAX COUNSEL OPINION]

March 19, 2008

Board of Directors
Salt River Project Agricultural
Improvement and Power District
Tempe, Arizona 85281

**Salt River Project Agricultural Improvement and Power District
\$816,650,000 Electric System Revenue Bonds, 2008 Series A**

Ladies and Gentlemen:

We have reviewed the record of proceedings related to the issuance by the Salt River Project Agricultural Improvement and Power District (the "District") of its \$816,650,000 aggregate principal amount of Electric System Revenue Bonds, 2008 Series A (the "2008 Series A Bonds"), including a Tax Certificate as to Arbitrage and the Provisions of Sections 103 and 141-150 of the Internal Revenue Code of 1986 (the "Tax Certificate"), the statutes of the State of Arizona, certified copies of the proceedings of the Board of Directors of the District, the Supplemental Resolution Authorizing an Amended and Restated Resolution Concerning Revenue Bonds, dated as of September 10, 2001, which became effective January 11, 2003, as amended (the "Bond Resolution"), a Resolution Authorizing the Issuance and Sale of \$816,650,000 Salt River Project Electric System Revenue Bonds, 2008 Series A adopted by the District on March 6, 2008 (collectively with the Bond Resolution, the "Resolution"), and such other matters of fact and law as we have deemed necessary to enable us to render the opinions contained herein. In rendering the opinions set forth below, we have relied upon the approving opinion of Drinker Biddle & Reath LLP, Bond Counsel, relating among other things to the validity of the 2008 Series A Bonds delivered on even date herewith.

The Internal Revenue Code of 1986 (the "Code") sets forth certain requirements which must be met subsequent to the issuance and delivery of the 2008 Series A Bonds for interest thereon to be and remain excluded from gross income for Federal income tax purposes. Noncompliance with such requirements could cause the interest on the 2008 Series A Bonds to be included in gross income for Federal income tax purposes retroactive to the date of issue of the 2008 Series A Bonds. The District has covenanted to comply with the provisions of the Code applicable to the 2008 Series A Bonds and has covenanted not to take any action or permit any action that would cause the interest on the 2008 Series A Bonds to be included in gross income under Section 103 of the Code applicable to the 2008 Series A Bonds. In addition, the District has made certain certifications and representations in the Tax Certificate. We have not independently verified the accuracy of those certifications and representations.

We are of the opinion that, under existing law and assuming compliance with the tax covenants described herein, interest on the 2008 Series A Bonds is excluded from gross income for Federal income tax purposes under Section 103 of the Code. We are also of the opinion that such interest is not treated as a preference item in calculating the alternative minimum tax imposed under the Code with respect to individuals and corporations. Interest on the 2008 Series A Bonds is, however, included in the adjusted current earnings of certain corporations for purposes of computing the alternative minimum tax imposed on such corporations.

We are also of the opinion that interest on the 2008 Series A Bonds is exempt from income taxes imposed by the State of Arizona.

Special Tax Counsel is further of the opinion that the difference between the principal amount of the 2008 Series A Bonds maturing on January 1, 2033 and January 1, 2038 (the "Discount Bonds") and the initial offering price to the public (excluding bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters or wholesalers) at which price a substantial amount of such Discount Bonds of the same maturity was sold constitutes original issue discount which is excluded from gross income for Federal income tax purposes to the same extent as interest on the Bonds. Further, such original issue discount accrues actuarially on a constant interest rate basis over the term of each Discount Bond and the basis of each Discount Bond acquired at such initial offering price by an initial purchaser thereof will be increased by the amount of such accrued original issue discount. The accrual of original issue discount may be taken into account as an increase in the amount of tax-exempt income for

purposes of determining various other tax consequences of owning the Discount Bonds, even though there will not be a corresponding cash payment.

Except as stated in the preceding two paragraphs, we express no opinion as to any other Federal or state tax consequences of the ownership or disposition of the 2008 Series A Bonds. Furthermore, we express no opinion as to any Federal, state or local tax law consequences with respect to the 2008 Series A Bonds, or the interest thereon, if any action is taken with respect to the 2008 Series A Bonds or the proceeds thereof upon the advice or approval of other bond counsel.

Very truly yours,

APPENDIX D — FORM OF CONTINUING DISCLOSURE AGREEMENT

CONTINUING DISCLOSURE AGREEMENT

Between

**SALT RIVER PROJECT AGRICULTURAL
IMPROVEMENT AND POWER DISTRICT**

and

**U.S. BANK NATIONAL ASSOCIATION
as trustee**

\$816,650,000 Salt River Project Electric System Revenue Bonds, 2008 Series A

THIS CONTINUING DISCLOSURE AGREEMENT ("Disclosure Agreement"), dated as of March 1, 2008 by and between the Salt River Project Agricultural Improvement and Power District (the "District"), an agricultural improvement district duly organized and existing under Title 48, Chapter 17 of the laws of the State of Arizona, A.R.S. sections 48-2301, *et seq.* (the "Act") and U.S. Bank National Association, Phoenix, Arizona, as trustee (the "Trustee") for the \$816,650,000 Salt River Project Electric System Revenue Bonds, 2008 Series A to be issued by the District (the "Bonds");

W I T N E S S E T H:

WHEREAS, the District intends to issue the Bonds under and pursuant to (i) the Act and (ii) the District's Supplemental Resolution, dated as of September 10, 2001 Authorizing an Amended and Restated Resolution Concerning Revenue Bonds, which became effective January 11, 2003, including that supplemental resolution dated as of March 6, 2008 (the "Resolution").

WHEREAS, on November 10, 1994 the Securities and Exchange Commission (the "Commission") adopted Release Number 34-34961 (the "Release"), which amended Rule 15c2-12 ("Rule 15c2-12"), originally adopted by the Commission on June 28, 1989;

WHEREAS, Rule 15c2-12 requires that prior to acting as a broker, dealer or municipal securities dealer (the "Participating Underwriter") for the Bonds, a Participating Underwriter must comply with the provisions of Rule 15c2-12;

WHEREAS, Rule 15c2-12 further provides, among other things, that a Participating Underwriter shall not purchase or sell the District's Bonds unless the Participating Underwriter has reasonably determined that the District and any "obligated person" (within the meaning of Rule 15c2-12, as amended) have undertaken, either individually or in combination with others, in a written agreement for the benefit of Bondholders, to provide certain information relating to the District, any "obligated person" and the Bonds, to the Repositories described herein below;

WHEREAS, this Disclosure Agreement is being executed and delivered by the District and the Trustee for the benefit of the Bondholders, the Beneficial Owners of the Bonds and the Trustee in order to comply with Rule 15c2-12 issued by the Commission;

WHEREAS, the District hereby agrees to provide the information described herein below with respect to itself;

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein contained, the District and the Trustee agree as follows:

Section 1. Definitions

"Annual Financial Information" shall mean the information specified in Section 3 hereof.

"Association" shall mean the Salt River Valley Water Users' Association, predecessor to the District, duly incorporated February 9, 1903 under the laws of the Territory of Arizona.

"Beneficial Owner" shall mean any person which (a) has the power, directly or indirectly, to vote or consent with respect to, or to dispose of ownership of, any of the Bonds (including persons holding Bonds through nominees, depositories or other intermediaries), or (b) is treated as the owner of any Bonds for federal income tax purposes.

"Bondholder" or "Holder" shall mean any registered owner of Bonds and any Beneficial Owner of Bonds who provides evidence satisfactory to the Trustee of such status.

"Central Post Office" shall mean the internet based electronic filing system run by the Municipal Advisory Council of Texas and recognized as such by the Commission and currently identified at www.DisclosureUSA.org.

"Independent Accountant" shall mean, with respect to the District, any firm of certified public accountants appointed by the District.

"Official Statement" shall mean the Official Statement of the District, dated March 6, 2008 relating to the issuance of the Bonds.

"Repository" shall mean, at any time, each then existing nationally recognized municipal securities information repository, as recognized from time to time by the Commission for the purposes referred to in Rule 15c2-12. Repositories currently are identified on the Commission website at: <http://www.sec.gov/info/municipal/nrmsir.htm>.

"Rule 15c2-12" shall mean Rule 15c2-12 under the Securities Exchange Act of 1934, as amended through the date of this Disclosure Agreement.

"State" shall mean the State of Arizona.

"State Repository" shall mean any public or private repository or entity designated by the State as a state information depository for the purpose of Rule 15c2-12 and recognized as such by the Commission. As of the date of this Disclosure Agreement, there is no State Repository.

Capitalized terms not otherwise defined herein shall have the meaning ascribed thereto in the Resolution.

Section 2. Obligation to Provide Continuing Disclosure

The District hereby undertakes for the benefit of the Holders of the Bonds to provide:

A. to each Repository and to the State Repository, if any, or to the Central Post Office, no later than 180 days after the end of each fiscal year, commencing with the fiscal year ending April 30, 2008:

1. the Annual Financial Information relating to such fiscal year together with audited financial statements of the District for such fiscal year if audited financial statements are then available; **provided, however**, that if audited financial statements of the District are not then available, the unaudited financial statements of the District shall be submitted with the Annual Financial Information and the audited financial statements shall be delivered to each Repository and to the State Repository, if any, when they become available (but in no event later than 350 days after the end of such fiscal year); or

2. notice to each Repository or to the Municipal Securities Rulemaking Board, and to the State Repository, if any, of the District's failure, if any, to provide any of the information described in Section A.1. hereinabove;

B. to each Repository or to the Municipal Securities Rulemaking Board, and to the State Repository, if any, or to the Central Post Office, in a timely manner, notice of any of the following events with respect to the Bonds, if material:

1. any Event of Default resulting from principal and interest payment delinquencies on the Bonds;
2. any non-payment related Event of Default;
3. unscheduled draws on the Debt Reserve Account under the Resolution reflecting financial difficulties;
4. unscheduled draws on credit enhancements, if any, reflecting financial difficulties under the Resolution;
5. substitution of credit or liquidity providers, if any, or their failure to perform;
6. adverse tax opinions or events affecting the tax-exempt status of the Bonds;
7. amendments of or modifications to the rights of Bondholders;
8. giving of notice of redemption of Bonds (which does not include regularly scheduled or mandatory sinking fund redemptions effectuated in accordance with the Resolution);
9. defeasance of the Bonds;
10. release, substitution, or sale of property, if any, securing repayment of the Bonds; and
11. rating changes on the Bonds.

The Trustee shall notify the District upon the occurrence of any of the eleven events listed in this Section 2.B. promptly upon becoming aware of the occurrence of any such event. The Trustee shall not be deemed to have become aware of the occurrence of any such event unless an officer in its corporate trust department actually becomes aware of the occurrence of any such event. The District shall notify the Trustee upon the transmittal of any such information.

Nothing in this Disclosure Agreement shall prevent the District from disseminating any information in addition to that required hereunder. If the District disseminates any such additional information, nothing herein shall obligate the District to update such information or include it in any future materials disseminated.

Section 3. Annual Financial Information

Annual Financial Information shall include updated financial and operating information, in each case updated through the last day of the Salt River Project's prior fiscal year unless otherwise noted, relating to the following information contained in the Official Statement:

- (i) information as to any changes in the District's projected peak loads and resources in substantially the same level of detail as found in Table 2 under the heading "Projected Peak Loads and Resources";
- (ii) an update of the information listing District power sources and participation interests in power generating facilities in substantially the same level of detail found in Table 3 and Table 4 under the heading "Existing and Future Resources";
- (iii) information as to any changes or proposed changes in the electric prices charged by the District in substantially the same level of detail as found under the heading "Electric Prices";
- (iv) an update of the information relating to customer base and classification, electric power sales, and the District's revenues and expenses in substantially the same level of detail found in Table 7 and Table 8 under the heading "Customers, Sales, Revenues and Expenses";

(v) (a) an update summarizing the contractual payment obligations of the District on behalf of other political subdivisions which obligations secure debt service on bonds, other than bonds issued by the District, in substantially the same level of detail as found under the heading "Customers, Sales, Revenues and Expenses — Contractual Obligations Relating to Bonds of Other Political Subdivisions" and (b) a statement of any default in the payment of such obligations;

(vi) (a) information as to the authorization or issuance by the District of any notes, other obligations, minibonds or parity indebtedness in substantially the same level of detail as found under the heading "Additional Financial Matters" and (b) a statement of any default under such notes, minibonds or parity indebtedness;

(vii) (a) information as to the outstanding balances and required debt service on any United States Government Loans and (b) a statement of any default with respect to such loans;

(viii) (a) an update summarizing the District's discussions of operations in substantially the same level of detail as found under the heading "Additional Financial Matters," if at all, or (b) an annual report;

(ix) (a) an update of the balance in the Debt Reserve Account and (b) an update of all information relating to actual debt service requirements and coverages for outstanding revenue bonds and other prior and parity debt obligations in substantially the same level of detail as found in Tables 11 and 12 under the heading "SELECTED OPERATIONAL AND FINANCIAL DATA — Additional Financial Matters — Outstanding Revenue Bond Long-Term Indebtedness"; and

(x) such narrative explanation as may be necessary to avoid misunderstanding and to assist the reader in understanding the presentation of financial information and operating data concerning, and in judging the financial condition of, the District.

Any or all of the items listed above may be incorporated by reference from other documents, including official statements pertaining to debt issued by the District, which have been submitted to each of the Repositories and the State Repository, if any, or the Commission. If the document incorporated by reference is a final official statement (within the meaning of Rule 15c2-12), it must also be available from the Municipal Securities Rulemaking Board. The District shall clearly identify each such other document so incorporated by reference. It is sufficient for the purposes of Rule 15c2-12 and this Disclosure Agreement that the Annual Financial Information to be provided pursuant to Section 2.A. and Section 3 hereof be submitted to each of the Repositories, the State Repository, if any, or the Commission no more than once annually.

The requirements contained in this Section 3 are intended to set forth a general description of the type of financial information and operating data to be provided; such descriptions are not intended to state more than general categories of financial information and operating data; and where the provisions of this Section 3 call for information that no longer can be generated or is no longer relevant because the operations to which it related have been materially changed or discontinued, a statement to that effect shall be provided.

Section 4. Financial Statements

The Salt River Project's annual financial statements for each fiscal year shall be prepared in accordance with generally accepted accounting principles in effect from time to time. Such financial statements shall be audited by an Independent Accountant. The annual financial statements are presented on a combined basis including the financial information of both the District and the Association. All or any portion of the Salt River Project's audited or unaudited financial statements may be incorporated by specific reference to any other documents which have been filed with (i) the Repositories and the State Repository, if any, or (ii) the Commission; **provided, however**, that if the document is an official statement, it shall have been filed with the Municipal Securities Rulemaking Board and need not have been filed elsewhere.

Section 5. Remedies

If the District shall fail to comply with any provision of this Disclosure Agreement, then the Trustee or any Holder may, but shall not be obligated to, enforce, for the equal benefit and protection of all Holders similarly situated, by mandamus or other suit or proceeding at law or in equity, this Disclosure Agreement against the District

and any of the officers, agents and employees of the District, and may compel the District or any such officers, agents or employees to perform and carry out their duties under this Disclosure Agreement; **provided, however**, that the sole remedy hereunder shall be limited to an action to compel specific performance of the obligations of the District hereunder and no person or entity shall be entitled to recover monetary damages hereunder under any circumstances; **provided, further**, that any challenge to the adequacy of any information provided pursuant to Section 2 shall be brought only by the Trustee or the Holders of 25% of the aggregate principal amount of the Bonds then outstanding which are affected thereby. Failure to comply with any provision of this Disclosure Agreement shall not constitute an Event of Default under the Resolution.

Section 6. Parties in Interest

This Disclosure Agreement is executed and delivered for the sole benefit of the Holders, the Beneficial Owners and the Trustee. No other person shall have any right to enforce the provisions hereof or any other rights hereunder.

Section 7. Termination

This Disclosure Agreement shall remain in full force and effect until such time as all principal, redemption premiums, if any, and interest on the Bonds shall have been paid in full or legally defeased pursuant to the Resolution (a "Legal Defeasance"); **provided, however**, that if Rule 15c2-12 (or successor provision) shall be amended, modified or changed so that all or any part of the information currently required to be provided thereunder shall no longer be required to be provided thereunder, then this Disclosure Agreement shall be amended to provide that such information shall no longer be required to be provided hereunder; and **provided, further**, that if and to the extent Rule 15c2-12 (or successor provision), or any provision thereof, shall be declared by a court of competent and final jurisdiction to be, in whole or in part, invalid, unconstitutional, null and void or otherwise inapplicable to the Bonds, then the information required to be provided hereunder, insofar as it was required to be provided by a provision of Rule 15c2-12 so declared, shall no longer be required to be provided hereunder. Upon any Legal Defeasance, the District shall provide notice of such defeasance to each Repository, the State Repository, if any, and the Municipal Securities Rulemaking Board. Such notice shall state whether the Bonds have been defeased to maturity or to redemption and the timing of such maturity or redemption. Upon any other termination pursuant to this Section 7, the District shall provide notice of such termination to each Repository or to the Municipal Securities Rulemaking Board, and to the State Repository, if any.

Section 8. Amendment; Change; Modification

Without the consent of any Holders (except to the extent expressly provided below), the District and the Trustee at any time and from time to time may enter into any amendments or changes to this Disclosure Agreement for any of the following purposes:

(i) to comply with or conform to Rule 15c2-12 or any amendments thereto or authoritative interpretations thereof by the Commission or its staff (whether required or optional) which are applicable to this Disclosure Agreement;

(ii) to add a dissemination agent for the information required to be provided hereby and to make any necessary or desirable provisions with respect thereto;

(iii) to evidence the succession of another person to the District and the assumption by any such successor of the covenants of the District hereunder;

(iv) to add to the covenants of the District for the benefit of the Holders, or to surrender any right or power herein conferred upon the District; or

(v) for any other purpose as a result of a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature, or status of the District, or type of business conducted; provided that (1) this Disclosure Agreement, as amended, would have complied with the requirements of Rule 15c2-12 at the time of the offering of the Bonds, after taking into account any amendments or authoritative interpretations of Rule 15c2-12, as well as any change in circumstances, (2) the amendment or change either (a) does not materially impair the interest of Holders, as determined by bond counsel or (b) is

approved by the vote or consent of Holders of a majority in outstanding principal amount of the Bonds affected thereby at or prior to the time of such amendment or change and (3) the Trustee receives an opinion of bond counsel that such amendment is authorized or permitted by this Disclosure Agreement.

The Annual Financial Information for any fiscal year containing any amendment to the operating data or financial information for such fiscal year shall explain, in narrative form, the reasons for such amendment and the impact of the change on the type of operating data or financial information in the Annual Financial Information being provided for such fiscal year. If a change in accounting principles is included in any such amendment, such Annual Financial Information, respectively, shall present a comparison between the financial statements or information prepared on the basis of the amended accounting principles. Such comparison shall include a qualitative discussion of the differences in the accounting principles and the impact of the change in the accounting principles on the presentation of the financial information. To the extent reasonably feasible such comparison shall also be quantitative. A notice of any such change in accounting principles shall be sent to each Repository or to the Municipal Securities Rulemaking Board, and to the State Repository, if any.

Section 9. Duties of the Trustee

A. The duties of the Trustee under this Disclosure Agreement shall be limited to those expressly assigned to it hereunder. The District agrees to indemnify and save harmless the Trustee and its officers, directors, employees and agents, for, from and against any loss, expense and liabilities that it may incur arising out of or in the exercise or performance of its powers and duties hereunder, including the costs and expenses (including reasonable attorneys' fees and expenses) of defending against any claim of liability, but excluding liabilities due to the Trustee's gross negligence or willful misconduct. The obligations of the District under this Section 9 shall survive resignation or removal of the Trustee, payment of the Bonds or termination of this Disclosure Agreement

B. No earlier than one day, nor later than 30 days, following the end of each fiscal year of the District (ending April 30, unless the District notifies the Trustee otherwise) the Trustee will notify the District of its obligation to provide the Annual Financial Information in the time and manner described herein; **provided, however**, that any failure by the Trustee to notify the District under this Section 9.B shall not affect the District's obligation hereunder, and the Trustee shall not be responsible in any way for such failure.

C. The Trustee shall be under no obligation to report any information to any Repository, any State Repository, if any, the Municipal Securities Rulemaking Board or any Holder. If an officer of the Trustee obtains actual knowledge of the occurrence of an event described in Section 2.B.1. through 2.B.11 hereunder, whether or not such event is material, the Trustee will notify the District of such occurrence; **provided, however**, that any failure by the Trustee to notify the District under this Section 9.C. shall not affect the District's obligation hereunder, and the Trustee shall not be responsible in any way for such failure.

Section 10. Governing Law

THIS DISCLOSURE AGREEMENT SHALL BE GOVERNED BY THE LAWS OF THE STATE DETERMINED WITHOUT REGARD TO PRINCIPLES OF CONFLICT OF LAW, AND THE LAWS OF THE UNITED STATES OF AMERICA, AS APPLICABLE. Any action for enforcement of this Disclosure Agreement shall be taken in a state or federal court, as appropriate, located in Maricopa County, Arizona. To the fullest extent permitted by law, the District and the Trustee each hereby irrevocably waives any and all rights to a trial by jury, and covenants and agrees that it will not request a trial by jury, with respect to any legal proceeding arising out of or relating to this Disclosure Agreement.

Section 11. No Previous Non-Compliance

The District represents that it has previously entered into written contracts or agreements of the type referenced in paragraph (b)(5)(i) of Rule 15c2-12 in relation to certain of its outstanding obligations, and is in compliance with such agreements.

Section 12. Counterparts

This Disclosure Agreement may be executed in several counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

IN WITNESS WHEREOF, the parties hereto have caused this Disclosure Agreement to be executed by their duly authorized officers as of the date first above written.

APPENDIX E — BOOK-ENTRY ONLY SYSTEM

General

Beneficial ownership interests in the 2008 Series A Bonds will be available in book-entry form only. Purchasers of beneficial ownership interests in the 2008 Series A Bonds will not receive certificates representing their interests in the 2008 Series A Bonds and will not be Bondholders or owners of the Bonds under the Resolution.

DTC, an automated clearinghouse for securities transactions, will act as the Securities Depository for the 2008 Series A Bonds. The 2008 Series A Bonds will be issued as fully registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully registered Bond certificate will be issued for each maturity of the 2008 Series A Bonds, in the aggregate principal amount of such maturity, and will be deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants ("Participants") deposit with DTC. DTC also facilitates the settlement among Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in Participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations ("Direct Participants"). DTC is owned by a number of its Direct Participants and by the New York Stock Exchange, Inc., the American Stock Exchange, L.L.C., and the National Association of Securities Dealers, Inc. Access to the DTC system is also available to others, such as securities brokers and dealers, banks, and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). The Rules applicable to DTC and its Participants are on file with the Securities and Exchange Commission.

Purchases of the 2008 Series A Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the 2008 Series A Bonds on DTC's records. The ownership interest of each actual purchaser of each 2008 Series A Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners are expected to receive written confirmation providing details of the transactions, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the 2008 Series A Bonds are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the 2008 Series A Bonds, except in the event that use of the book-entry system for the 2008 Series A Bonds is discontinued.

To facilitate subsequent transfers, all 2008 Series A Bonds deposited by Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of 2008 Series A Bonds with DTC and their registration in the name of Cede & Co. or such other nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the 2008 Series A Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such 2008 Series A Bonds are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners, will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to DTC. If less than all of the 2008 Series A Bonds are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such 2008 Series A Bonds to be redeemed.

Neither DTC nor Cede & Co. (nor such other DTC nominee) will consent or vote with respect to the 2008 Series A Bonds. Under its usual procedures, DTC mails an Omnibus Proxy to the District as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the 2008 Series A Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal and interest payments on the 2008 Series A Bonds will be made to Cede & Co. or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the District or the Trustee, on each payment date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Trustee or the District, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest to DTC is the responsibility of the District or the Trustee, disbursement of such payments to Direct Participants shall be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners shall be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as securities depository with respect to the 2008 Series A Bonds at any time by giving reasonable notice to the District. Under such circumstances, in the event that a successor securities depository is not obtained, the 2008 Series A Bond certificates are required to be printed and delivered.

The District may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, the 2008 Series A Bond certificates will be printed and delivered.

The information set forth above concerning DTC and DTC's book-entry system has been obtained from DTC and other sources that the District believes to be reliable, but the District takes no responsibility for the accuracy thereof.

Issuance of the 2008 Series A Bonds in book-entry form may reduce the liquidity of such bonds in the secondary trading market since investors may be unwilling to purchase bonds for which they cannot obtain physical certificates. In addition, since transactions in the 2008 Series A Bonds can be effected only through DTC, Direct Participants and Indirect Participants, the ability of a Beneficial Owner to pledge 2008 Series A Bonds to persons or entities that do not participate in the DTC system, or otherwise to take actions in respect of the 2008 Series A Bonds, may be limited due to lack of a physical certificate. Beneficial Owners will not be recognized by the Trustee as registered owners for purposes of the Resolution, and Beneficial Owners will be permitted to exercise the rights of registered owners only indirectly through DTC and the Direct and Indirect Participants.

Same-Day Settlement and Payment

Settlement for the 2008 Series A Bonds will be made by the Underwriters in immediately available funds. All payment of principal and interest will be made by the Trustee on behalf of the District to DTC in immediately available funds.

Secondary trading in long-term principal obligations comparable to the 2008 Series A Bonds is generally settled in clearing-house or next-day funds. In contrast, the 2008 Series A Bonds will trade in DTC's Same-Day Fund Settlement System so long as DTC is the Securities Depository. Secondary market trading activity in the 2008 Series A Bonds will settle in immediately available funds. No assurance can be given as to the effect, if any, of settlement in immediately available funds on the trading activity in the 2008 Series A Bonds.

Report of the Independent Financial Advisor

Regarding the Issuance of

Delivering More Than Power.™

Salt River Project Agricultural

Improvement and Power District, Arizona

\$816,650,000 Salt River Project Electric System Revenue Bonds, 2008 Series A

Introduction

This report is intended to summarize the plan of financing, market conditions and credit factors related to the issuance by the Salt River Project Agricultural Improvement and Power District (the "District") of \$816,650,000 Salt River Project Electric System Revenue Bonds, 2008 Series A (the "Bonds"). This report was prepared to assist the District in formulating an informed decision with respect to the acceptability of the Bond Purchase Agreement it entered into with Bear, Stearns & Co. Inc. ("Bear Stearns" or the "Underwriter") and the co-managers (collectively the "Underwriters") on the transaction. This report also serves as the basis for the formal recommendation from Public Financial Management ("PFM"), the independent Financial Advisor to the District with respect to the sale of the Bonds.

Plan of Finance

Purpose: The District will issue the Bonds to finance capital improvements to the Electric System pursuant to the District's Capital Improvement Program. The Bonds will be issued under the Resolution. A portion of the proceeds of the Bonds also will be used to pay the cost of issuance.

Structure: The Bonds were structured as fixed rate serial bonds maturing from January 1, 2016 through January 1, 2028, excluding January 1, 2018 and January 1, 2019. The structure also contains two term bonds maturing on January 1, 2033 and January 1, 2038, respectively. The Bonds are dated on March 19, 2008 and will bear interest from that date. Interest on the Bonds will be payable on July 1, 2008 and semiannually thereafter on January 1 and July 1.

Sources and Uses of Funds: The sources and uses of the funds in connection with the issuance of the bonds are as follows:

Sources:

| | |
|-----------------------|----------------|
| Bond Proceeds: | |
| Par Amount | 816,650,000.00 |
| Net Premium | 3,386,287.15 |
| | <hr/> |
| | 820,036,287.15 |

Uses:

| | |
|--------------------------------|----------------|
| Project Fund Deposits: | |
| Project Fund #1 | 800,000,000.00 |
| Other Fund Deposits: | |
| Debt Service Reserve Fund | 15,659,776.86 |
| Delivery Date Expenses: | |
| Cost of Issuance | 475,000.00 |
| Underwriter's Discount | 3,897,211.78 |
| | <hr/> |
| | 4,372,211.78 |
| Other Uses of Funds: | |
| Additional Proceeds | 4,298.51 |
| | <hr/> |
| | 820,036,287.15 |

Original Issue Premium and Discount: The Bonds were structured to include a combination of original issue premiums ("OIPs"), and original issue discounts ("OIDs") in order to improve their marketability and, therefore, produce a lower overall borrowing cost. Bonds with an OIP structure are sold at coupons or interest rates which are above current market interest rates. In order to give the investor an actual rate of return or "yield" which is equal to the current market interest rates, these maturities are sold at a premium above par amount. Bonds with an OID structure are sold at coupons or interest rates which are below current market interest rates. In order to give the investor an actual rate of return or "yield" which is equal to the current market interest rates, these maturities are sold at a discount below par amount. The net effect of the premium and discount bonds was an overall original issue premium of \$3,386,287.

Security: The Revenue Bonds, including the Bonds, are payable from and secured by a pledge of and lien on Revenues. Revenues are defined in the Resolution as (i) all revenues, income, rents and receipts derived by the District from the ownership and operation of the Electric System and the proceeds of any insurance covering business interruption loss relating to the Electric System and (ii) interest received on any moneys or securities (other than in the Construction Fund) held pursuant to the Resolution and paid into the Revenue Fund, but not including any such income or receipts attributable directly or indirectly to the ownership or operation of any Separately Financed Project and not including any federal or state grant monies the receipt of which is conditioned upon their expenditure for a particular purpose.

In addition, the Revenue Bonds, including the Bonds, are also secured by all funds held under the Resolution. Such pledge created by the Resolution is subject only to the provisions of the Resolution permitting the application of Revenues for the purposes and upon the terms and conditions set forth in the Resolution.

The Bonds will not constitute general obligations of the District or obligations of the State of Arizona, and no holder of Revenue Bonds, including the Bonds, will ever have the right to compel any exercise of the taxing powers of the District to pay the Revenue Bonds or the interest thereon.

Bond Ratings: The Bonds are rated "Aa1" and "AA" by Moody's and S&P, respectively. Such ratings reflect only the view of such organizations, and an explanation of the significance of such rating may be obtained only from the respective rating agency.

Optional Redemption: The Bonds are subject to redemption prior to their stated maturity, at the election of the District, in whole or in part, by random selection within a maturity with the same coupon by the Trustee from maturities selected by the District, at any time on or after January 1, 2018 at the redemption price of 100% of the principal amount of the Bonds.

Sinking Fund Redemption: The Bonds maturing January 1, 2033 and January 1, 2038 will be subject to redemption through mandatory sinking fund installments on January 1 in the years and in the amounts shown below, at a redemption price of 100% of the principal amount thereof, together with accrued interest, if any, to the redemption date:

| <u>2033 Maturity</u> | | <u>2038 Maturity</u> | |
|----------------------|---------------|----------------------|---------------|
| <u>Year*</u> | <u>Amount</u> | <u>Year*</u> | <u>Amount</u> |
| 2029 | \$ 35,420,000 | 2034 | \$ 55,020,000 |
| 2030 | 28,415,000 | 2035 | 59,250,000 |
| 2031 | 42,915,000 | 2038* | 259,840,000 |
| 2032 | 14,340,000 | | |
| 2033* | 24,890,000 | | |

*Final Maturity

General Market Conditions

The following graphs depict the historical trend of the Bond Buyer Revenue Bond Index (the "RBI"), the historical relationship between the 30-year Treasury and 30-year MMD, MMD Yield Curve comparison over various time horizons, and the 30-day visible market supply.

Historic 30 Year Treasury & 30 Year MMD Rates (From 1/1/2007 to 3/4/2008)

MMD Yield Curve Comparison

Historical Visible Supply (From 1/1/2007 to 3/4/2008)

Pricing of the Bonds

Pricing Comparables: To prepare for the pricing/sale process, PFM closely followed the recent trends of interest rates, municipal offerings and inventory, and other matters we considered relevant to the pricing of the Bonds. Furthermore, we analyzed the interest rates, yields, and takedown levels of recently priced issues as well as the historical interest rates and yields of issues and compared them to the initial interest rates, yields, and takedown levels proposed by the Underwriters.

In order to provide an analytical context to assess the pricing of the Bonds, PFM performed a yield analysis on the following current and historical transactions, all of which are included in the final pricing book:

- \$155 million City of Fort Lauderdale, FL, Water and Sewer Revenue Bonds Series 2008
- \$512 million Metropolitan Transportation Authority, NY, Transportation Revenue Bonds, Series 2008A
- \$247 million New York State Thruway Authority, Local Highway and Bridge Service Contract Bonds, Series 2008
- \$3,179 million State of California, Economic Recovery Bonds, Series 2008A and 2008B
- \$105 million City of Gainesville, FL, Utilities System Revenue Bonds, 2008 Series A (Federally Taxable)
- \$173 million City of Austin, TX, Public Improvement Refunding Bonds, Series 2008
- \$100 million State of Wisconsin, Clean Water Revenue Bonds, 208 Series 1
- \$227 million Department of Transportation of Maryland, Consolidated Transportation Bonds, Series 2008
- \$267 million Las Vegas Valley Water District, Nevada, General obligation (Limited Tax) (Additionally Secured by SNWA Pledged Revenues) Refunding Bonds, Series 2008A and 2008B
- \$237 million King County, Washington, Limited Tax General Obligation Refunding Bonds (Payable from Sewer Revenues), 2008
- \$225 million Texas Public Finance Commission, State of Texas General Obligation Refunding Bonds, Series 2008
- \$1,100 million Texas Transportation Commission, State of Texas General Obligation Mobility Fund Bonds, Series 2008
- \$233 million Camino Real Regional Mobility Authority, Pass-Through Toll Transportation Revenue Bonds, Series 2008
- \$149 million County of Mecklenburg, NC, General Obligation Public Improvement Bonds, Series 2008B
- \$326 million State of Florida Department of Transportation, Turnpike Revenue Bonds, Series 2008A
- \$390 million City of Columbus, OH, Sewerage System Fixed Rate Revenue Bonds
- \$105 million Nassau County, NY, General Improvement Bonds, 2008 Series A
- \$234 million Fairfax County, VA, Public Improvement Bonds, Series 2008A

Priority of Orders: Prior to pricing the Bonds, the Priority of Orders was agreed upon as follows:

Priority of Orders

1. Net Designated
2. Member

Municipal Market Data Indices: The MMD AAA G.O. scale was used to perform comparative pricing analyses. The AAA daily yield curve is a composite of uninsured AAA G.O. issues of \$2 million or more that have a 10-year first call and have typical structures. It reflects the offer side of the market, determined from daily trading activity.

Bond Pricing Highlights: In the months prior to the pricing of the Bonds, the market experienced significant turmoil. As housing markets nationwide saw price declines and increasing foreclosures, the entire U.S. economy began to slow and possibly enter into a recession. As a result of this economic weakness, the Federal Open Market Committee reduced the Federal Funds rate by 225 basis points over the last 6 months in an effort to stimulate the economy. In response to these actions, short-term bonds have fallen dramatically in yield over recent months. Longer-term yields have fallen as well, but to a much lesser degree, resulting in very steep yield curves across financial markets.

During the weeks prior to the sale of the Bonds, there was increasing decoupling of the municipal and Treasury markets. On February 29th, the 30-year MMD closed at 5.14% or 74 basis points higher than the previous Friday's close (4.70%). The one-week increase was the largest the municipal market had experienced in over 15 years. The 30-year Treasury to 30-year MMD ratio was 116.29%, which was also the highest it had been over the last 15 years.

Based on the poor market conditions in the week before the sale, the District decided to decrease the size of the transaction to roughly \$500 million, from the expected \$800 million.

On Monday March 3rd, 2008 the District, PFM, and the Underwriters (the "Working Group") discussed the appropriate preliminary pricing levels that would be expected to draw investor interest the following morning. The Working Group agreed upon the initial MMD spreads, shown on the following table, to initiate discussions with potential investors.

| Preliminary Pricing Views | | | | | |
|---------------------------|---------|--------|--------|--------------------------|--------|
| Maturity | Par | Coupon | Yield | MMD as of 3/3/2008 | Spread |
| 2016 | 9,915 | 5.00% | 3.98% | 3.81% | 17 bp |
| 2017 | 3,895 | 5.00% | 4.14% | 3.97% | 17 bp |
| 2020 | 16,805 | 5.00% | 4.62% | 4.45% | 17 bp |
| 2021 | 18,190 | 5.00% | 4.74% | 4.57% | 17 bp |
| 2022 | 20,570 | 5.00% | 4.85% | 4.68% | 17 bp |
| 2023 | 19,710 | 5.00% | 4.96% | 4.79% | 17 bp |
| 2024 | 18,870 | 5.00% | 5.05% | 4.88% | 17 bp |
| 2025 | 20,545 | 5.00% | 5.10% | 4.94% | 16 bp |
| 2026 | 19,490 | 5.125% | 5.125% | 4.98% | 14 bp |
| 2027 | 21,610 | 5.00% | 5.14% | 5.00% | 14 bp |
| 2028 | 21,365 | 5.00% | 5.15% | 5.02% | 13 bp |
| 2033 | 94,745 | 5.00% | 5.18% | 5.07% | 11 bp |
| 2038 | 236,335 | 5.00% | 5.21% | 5.10% | 11 bp |

On Tuesday morning March 4th, there was a favorable tone to the municipal market and hopes for strong investor interest. There had been considerable attention paid to the municipal market from the financial media over the previous weekend and into Monday. Investors were increasingly aware of the high rates on municipals relative to yields on Treasury securities. This led the group to reduce yields slightly from the prior evening's expectations, resulting in the following preliminary pricing wire with more aggressive levels.

| Preliminary Pricing Scale | | | | | |
|---------------------------|---------|--------|-------|--------------------------|--------|
| Maturity | Par | Coupon | Yield | MMD as of 3/3/2008 | Spread |
| 2016 | 9,915 | 5.00% | 3.94% | 3.81% | 13 bp |
| 2017 | 3,895 | 5.00% | 4.10% | 3.97% | 13 bp |
| 2020 | 16,805 | 5.00% | 4.58% | 4.45% | 13 bp |
| 2021 | 18,190 | 5.00% | 4.70% | 4.57% | 13 bp |
| 2022 | 20,570 | 5.00% | 4.81% | 4.68% | 13 bp |
| 2023 | 19,710 | 5.00% | 4.92% | 4.79% | 13 bp |
| 2024 | 18,870 | 5.00% | 5.00% | 4.88% | 12 bp |
| 2025 | 20,545 | 5.00% | 5.03% | 4.94% | 9 bp |
| 2026 | 19,490 | 5.00% | 5.05% | 4.98% | 7 bp |
| 2027 | 21,610 | 5.00% | 5.06% | 5.00% | 6 bp |
| 2028 | 21,365 | 5.00% | 5.07% | 5.02% | 5 bp |
| 2033 | 94,745 | 5.00% | 5.11% | 5.07% | 4 bp |
| 2038 | 236,335 | 5.00% | 5.13% | 5.10% | 3 bp |

There was extraordinarily strong market response to the issue, resulting in the Bonds becoming 10 times oversubscribed. There were significant orders from virtually every investor segment. PFM discussed re-pricing expectations with SRP prior to receiving a proposal from Bear Stearns. The strong investor response created the largest oversubscription that any among the financing team had ever experienced. PFM's most optimistic re-pricing objective was an improvement of 10 basis points. Bear Stearns proposed exactly this level of re-pricing. In addition to the 10 basis point reduction in yields, the District, PFM and the Underwriter, discussed increasing the size of the issue to the original \$800 million planned for the Capital Improvement Program. Bear Stearns was willing to both increase the transaction size and maintain the yield reductions. The table below shows the final results and the spread the MMD.

| Final Pricing Scale | | | | | |
|---------------------|---------|--------|-------|--------------------------|--------|
| Maturity | Par | Coupon | Yield | MMD as of 3/4/2008 | Spread |
| 2016 | 15,420 | 5.00% | 3.84% | 3.66% | 18 bp |
| 2017 | 5,255 | 5.00% | 4.00% | 3.82% | 18 bp |
| 2020 | 26,200 | 5.00% | 4.48% | 4.26% | 22 bp |
| 2021 | 28,380 | 5.00% | 4.60% | 4.37% | 23 bp |
| 2022 | 32,160 | 5.00% | 4.71% | 4.48% | 23 bp |
| 2023 | 30,745 | 5.00% | 4.82% | 4.59% | 23 bp |
| 2024 | 29,360 | 5.00% | 4.90% | 4.68% | 22 bp |
| 2025 | 32,005 | 5.00% | 4.93% | 4.74% | 19 bp |
| 2026 | 30,255 | 5.00% | 4.95% | 4.78% | 17 bp |
| 2027 | 33,615 | 5.00% | 4.96% | 4.81% | 15 bp |
| 2028 | 33,165 | 5.00% | 4.97% | 4.84% | 13 bp |
| 2033 | 145,980 | 5.00% | 5.01% | 4.89% | 12 bp |
| 2038 | 374,045 | 5.00% | 5.03% | 4.92% | 11 bp |

Underwriters Discount: Final underwriters' discount for the transaction totaled \$3,897,211.78 or \$4.77218 per \$1,000 par amount of bonds. This amount was the District's lowest ever underwriter's discount and is fair and reasonable for this type of transactions. The table below displays a detailed breakdown of the Underwriter's discount:

| 2008 Series A | | |
|------------------------|----------------|------------------------|
| Underwriter's Discount | \$/1000 | Amount |
| Average Takedown | 4.50000 | \$ 3,674,925.00 |
| i-Deal LLC | 0.06000 | \$ 48,999.00 |
| SIFMA | 0.03000 | \$ 24,499.50 |
| Real Time System | 0.01500 | \$ 12,249.75 |
| Underwriter's Counsel | 0.12245 | \$ 100,000.00 |
| Dalnet | 0.00024 | \$ 200.00 |
| DTC | 0.00042 | \$ 339.00 |
| CUSIP | 0.00040 | \$ 329.00 |
| Net Road Show | 0.00612 | \$ 5,000.00 |
| Out of Pocket Expenses | 0.00918 | \$ 7,500.00 |
| Day Loan | 0.02776 | \$ 22,670.53 |
| Electronic Order Entry | 0.00061 | \$ 500.00 |
| Total | 4.77218 | \$ 3,897,211.78 |

Costs of Issuance: The estimated costs of issuance for the transaction, not including the Underwriter's Discount detailed above, totaled \$475,000.00, or \$0.58614 per \$1,000 par amount of bonds.

Conclusions and Recommendation

Based on the foregoing and our knowledge and experience in the issuance of tax-exempt debt, it is Public Financial Management's opinion that the underwriting spread for the Bonds was fair and appropriate.

FULL BOOK-ENTRY

In the opinion of Special Tax Counsel, under existing law and assuming compliance with the tax covenants described herein, and the accuracy of certain representations and certifications made by the District, interest on the 2008 Series A Bonds is excluded from gross income for Federal income tax purposes under Section 103 of the Internal Revenue Code of 1986, as amended (the "Code"). Special Tax Counsel is also of the opinion that such interest is not treated as a preference item in calculating the alternative minimum tax imposed under the Code with respect to individuals and corporations. Interest on the 2008 Series A Bonds is, however, included in the adjusted current earnings of certain corporations for purposes of computing the alternative minimum tax imposed on such corporations. Special Tax Counsel is further of the opinion that, under existing law, interest on the 2008 Series A Bonds is exempt from income taxes imposed by the State of Arizona. See "TAX MATTERS" herein regarding certain other tax considerations.

\$816,650,000
Salt River Project Agricultural
Improvement and Power District, Arizona
Salt River Project Electric System Revenue Bonds, 2008 Series A

Dated: Date of Delivery

Due: January 1, as shown on inside cover

The 2008 Series A Bonds are being issued pursuant to the Supplemental Resolution Dated September 10, 2001, which became effective January 11, 2003, Authorizing an Amended and Restated Resolution Concerning Revenue Bonds (the "Resolution"). The 2008 Series A Bonds, together with heretofore and hereafter issued Revenue Bonds, are payable from and secured by a pledge of and lien on all Revenues of the District from the ownership and operation of the Electric System after the payment of Operating Expenses.

The 2008 Series A Bonds will be issued in fully registered form and, when issued, will be registered in the name of Code & Co., as nominee of The Depository Trust Company, New York, New York ("DTC"). DTC will act as securities depository for the 2008 Series A Bonds. Individual purchases of interests in the 2008 Series A Bonds may be made in book-entry form only in the principal amount of \$5,000 or any integral multiple thereof. Purchasers of such interests will not receive certificates representing their interests in the 2008 Series A Bonds. Interest with respect to the 2008 Series A Bonds is payable January 1 and July 1 of each year, commencing July 1, 2008.

The principal of redemption price, if any, and interest on the 2008 Series A Bonds are payable by U.S. Bank National Association, as Trustee, and interest will be payable by check mailed by the Trustee to the registered owner of each 2008 Series A Bond as of the immediately preceding December 15 or June 15. So long as Code & Co. is the registered owner, the Trustee will pay such principal and redemption price, if any, of and interest on the 2008 Series A Bonds to DTC, which will remit such principal, redemption price, if any, and interest to its Direct Participants for subsequent disbursement to the Beneficial Owners of the 2008 Series A Bonds. The 2008 Series A Bonds are subject to optional and mandatory redemption as described herein. See "THE 2008 SERIES A BONDS — Redemption" herein.

The 2008 Series A Bonds do not constitute general obligations of the District or obligations of the State of Arizona, and no holder of any of the 2008 Series A Bonds has the right to compel the exercise of the taxing powers of the District to pay the 2008 Series A Bonds or the interest thereon.

This cover page contains certain information for quick reference only. It is not intended to be a summary of all factors relating to an investment in the 2008 Series A Bonds. Investors should read this Official Statement in its entirety before making an investment decision.

The 2008 Series A Bonds are offered when, as and if issued, and subject to the approval of legality by Drinker Biddle & Reath LLP, Bond Counsel. Certain legal matters will be passed upon for the District by Nixon Peabody LLP, Special Tax Counsel, and for the Underwriters by Winston & Strawn LLP. It is expected that the 2008 Series A Bonds will be available for delivery to DTC in New York, New York, on or about March 19, 2008.

Delivering More Than Power.™

Trading Levels in 2008

Comparison of Salt River Bond Pricings to Various Market Indices

| Pricing Date | SRP Coupon | Stated Yield | Yield to Maturity | 30-Yr Treas | SRP YTM Spread | 30-Yr MMD | SRP YTM Spread |
|--------------|------------|--------------|-------------------|-------------|----------------|-----------|----------------|
| Feb '02 | 5.00 | 5.14 | 5.14 | 5.41 | -27 BP | 5.09 | 5 BP |
| Sept '02 | 5.00 | 4.82 | 4.91 | 4.77 | 14 BP | 4.74 | 17 BP |
| Aug '05 | 5.00 | 4.27 | 4.62 | 4.48 | 14 BP | 4.32 | 30 BP |
| June '06 | 5.00 | 4.75 | 4.88 | 5.24 | -36 BP | 4.65 | 23 BP |
| Feb '08 | 5.00 | 5.03 | 5.03 | 4.52 | 51 BP | 4.92 | 11BP |

Figures are percentages unless noted

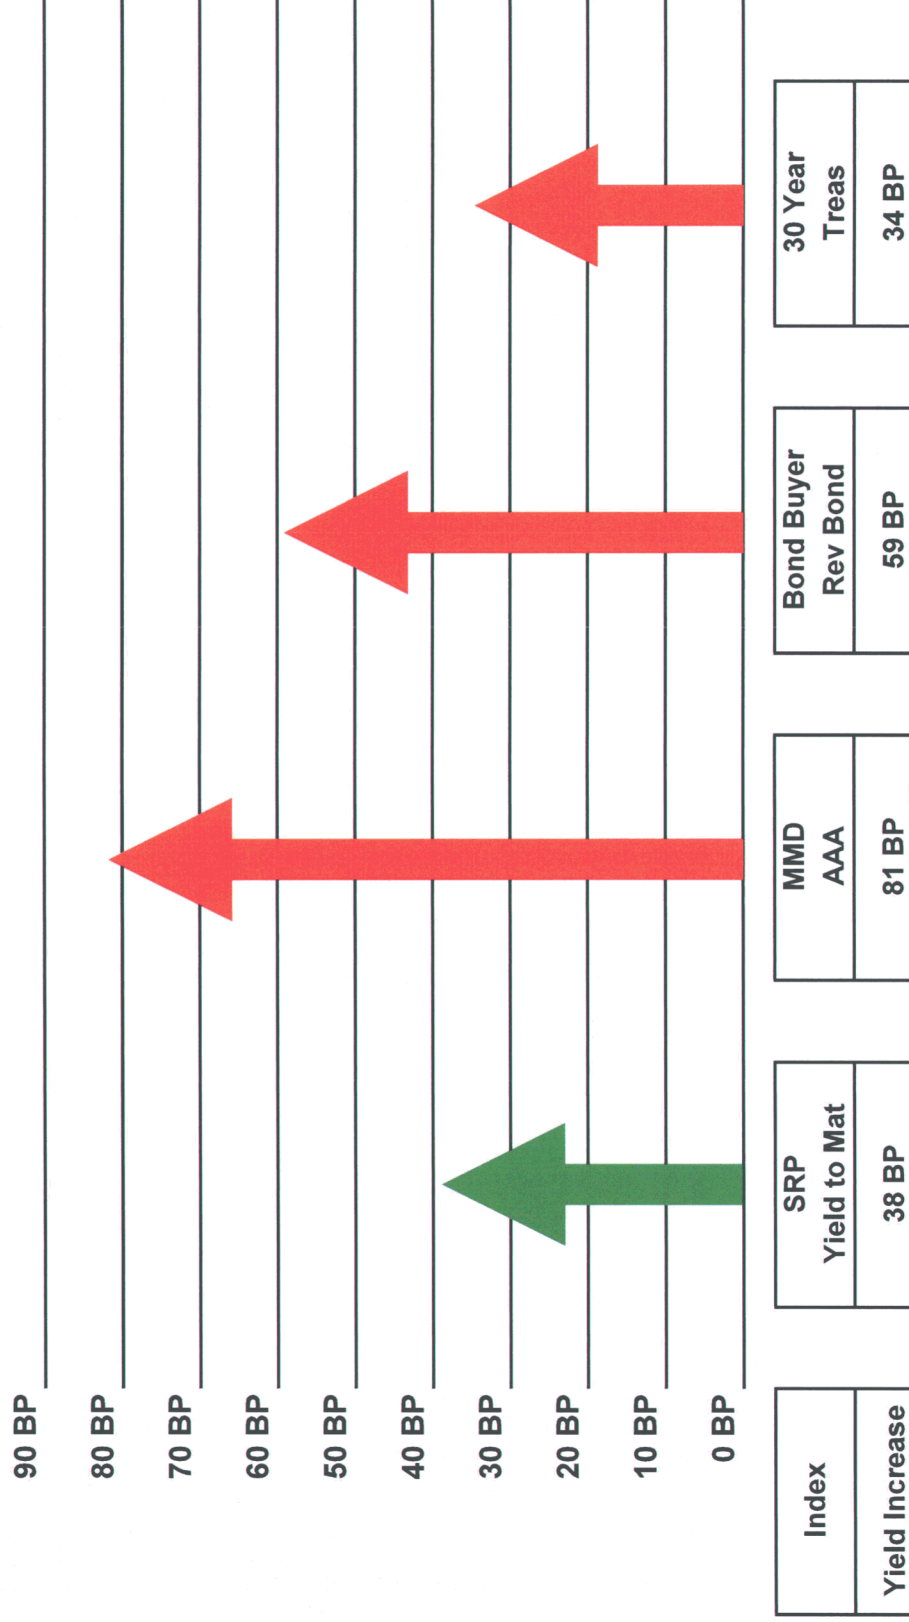

Footnotes:

MMD is a generic yield curve that is calculated by using yield estimates of trading activity for the day.

Movements in Various Market Indices (in Basis Points) Increases Since January 23, 2008

Market Pricing Comparison

The Value of SRP's AA Ratings

- SRP's AA Ratings have become extremely valuable
- The State of California pricing provides an excellent value comparison
- A-Rated Cal GOs sold at rates roughly 33BP higher than SRP
- There are significant savings from SRP's higher bond ratings
- Today's savings are the result of prior prudent, yet difficult, decisions

SRP Final Pricing vs. State of California Results

| | Using SRP Rates | Using State of CA Rates | Savings |
|--|-----------------|-------------------------|-------------|
| Gross Debt Service | 1,749,450,708 | 1,821,221,858 | 71,771,149 |
| NPV of Debt Service @ 5.0% Discount Rate | 816,711,069 | 854,764,293 | 38,053,224 |
| True Interest Cost | 5.010% | 5.344% | (33.40) bps |
